

Appendix B

Acknowledgments

We are grateful to the many individuals and organizations in the United States and abroad who shared their special knowledge, expertise, and information with us in the preparation of this study. We are especially indebted to those who participated in our bioremediation workshop and to those who critiqued our first draft.

Participants, OTA Workshop on bioremediation for Marine Oil Spills December 4,1990

James Blackburn
Energy, Environment and Resources Center
University of Tennessee

Al Bourquin
ECOVA Corp.

Peter Chapman
Environmental Research Laboratory
U.S. Environmental Protection Agency

Rita Colwell
Maryland Biotechnology Institute
University of Maryland

Joseph J. Cooney
Environmental Sciences program
University of Massachusetts

John Glaser
Risk Reduction Engineering Laboratory
U.S. Environmental Protection Agency

Jack R. Gould
American Petroleum Institute

Frank M. Gregorio
Enviroflow

Franz K. Hiebert
Alpha Environmental, Inc.

Steven Hinton
Exxon Corporate Research

Stephen Lingle
Office of Environmental Engineering and
Technology Demonstration
U.S. Environmental Protection Agency

Margaret Mellon
National Wildlife Federation

James Mielke
Science Policy Research Division
Congressional Research Service

Clayton Page
Environmental Remediation, Inc.

Robert G. RokuI
BP America

John Teal
Woods Hole Oceanographic Institution

Edward Tennyson
Minerals Management Service

B.J. Wynne
Texas Water Commission

Additional Reviewers and Other Contributors

Ronald M. Atlas
University of Louisville

Kay Austin
U.S. Environmental Protection Agency

Thomas L. Baugh
Office of Research and Development
U.S. Environmental Protection Agency

Edgar Berkey
National Environmental Technology Applications Corp.

Rosina Bierbaum
Office of Technology Assessment

Neil A. Challis
International Tanker Owners Pollution Federation

Jessica M. Cogen
National Environmental Technology Applications Corp.

Katherine Devine
Applied Biotreatment Association

F. Rainer Engelhardt
Marine Spill Response Corp.

Mervin Fingas
Technology Development and Technical Services Branch
Environment Canada

Mary Gade
Office of Solid Waste and Emergency Response
U.S. Environmental Protection Agency

Robert Hiltabrand
Research and Development Center
U.S. Coast Guard

Rebecca Hoff
Hazardous Materials Response Branch
National Oceanic and Atmospheric Administration

Kurt Jakobson
U.S. Environmental Protection Agency

Peter Johnson
Office of Technology Assessment

David Kennedy
Hazardous Materials Response Branch
National Oceanic and Atmospheric Administration

Mahlon C. Kennicutt
Texas A&M University

Howard Levenson
Office of Technology Assessment

Morris A. Levin
Maryland Biotechnology Institute

Alfred W. Lindsey
Office of Research and Development
U.S. Environmental Protection Agency

Henry Longest
Office of Solid Waste and Emergency Response
U.S. Environmental Protection Agency

Patrick C. Madden
Exxon Research and Engineering

Alan Mearns
Hazardous Materials Response Branch
National Oceanic and Atmospheric Administration

Tom Mersky
National Environmental Technology Applications Corp.

James G. Mueller
Southern Bio Products, Inc.

Kevin O'Connor
Office of Technology Assessment

Daniel Owen
International Tanker Owners Pollution Federation

James Payne
Science Applications International Corp.

Roger Prince
Exxon Research and Engineering

Hap Pritchard
Environmental Research Laboratory
U.S. Environmental Protection Agency

Patrick Rocques
Texas Water Commission

Pamela Russell-Harris
Office of Solid Waste and Emergency Response
U.S. Environmental Protection Agency

Joseph Salanitro
Shell Development Company

Gary Shigenaka
Hazardous Materials Response Branch
National Oceanic and Atmospheric Administration

Albert Venosa
Risk Reduction Engineering Laboratory
U.S. Environmental Protection Agency

Oskar Zaborsky
National Academy of Sciences

Raymond A. Zilinskas
Maryland Biotechnology Institute
The University of Maryland
