Boxes

- 4-A Socioeconomic Differences in Pregnancy Outcomes in Selected Countries 45
- 6-A WHO International Classification of Impairments, Disabilities, and Handicaps 60
- 6-B Examples of Differences in Disability-Related Questions Included in Population-Based Surveys 63
- 6-C Selected Health Status and Quality-of-Life Measures 65

Figures

- 3-1 Percentage of Elderly Population (Age 65 and Older, Living Alone in Private (Noninstitutional) Households: United States and Selected Countries, Selected Data from the 1980s 17
- 3-2 Percentage of Elderly Population (Age 65 and Older) Living in Institutions (Medical and Nonmedical): United States and Selected Countries, Early to Mid-1980s 19

- 3-3 Unemployment Rates, United States and Selected Countries, 1990 24
- 3-4 Income Distribution: United States and Selected Countries, Selected Years 25
- 4-1 Infant Mortality, Distribution of Time of Death, United States and Selected Countries, 1990 34
- 4-2 Infant Mortality, Distribution of Cause of Death, United States and Selected Countries, 1988 35
- 4-3 Infant Mortality Trends, United States and Selected Countries, 1950 to 1990 36
- 4-4 Birthweight Distribution, Singleton Total Births for U.S. Whites 38
- 4-5 Birthweight Distribution, Singleton Total Births for ICE Countries 38
- 5-1 Trends in Life Expectancy at Birth, United States and Selected Countries, 1955-84 50
- 5-2 Probability of Survival to Age 65 for Those Surviving to Age 25, United States and Selected Countries, 1990 53
- 5-3 Years of Potential Life Lost Before Age 65, United States and Selected Countries, 1984-87 54
- 6-1 Survival Curves for Australian Males and Females, 1988 66
- 7-1 Trends in Overweight Proportion of Adult Population (Age 18 and Older), Canada and United States, 1985 and 1990 80
- c-1 Age-Specific Death Rates (per 100,000), Males, United States and Selected Countries, 1987-88 127
- c-2 Age-Specific Death Rates (per 100,000), Females, United States and Selected Countries, 1987-88 129
- c-3 Age-Specific Death Rates (per 100,000) for Accidents, Males, United States and Selected Countries, 1987-88 131
- c-4 Age-Specific Death Rates (per 100,000) for Accidents, Females, United States and Selected Countries, 1987-88 133
- c-5 Age-Specific Death Rates (per 100,000) for Homicide and Other Violence, Males, United States and Selected Countries, 1987-88 135
- C-6 Age-Specific Death Rates (per 100,000) for Homicide and Other Violence, Females, United States and Selected Countries, 1987-88 137
- c-7 Trends in Age-Standardized Death Rates (per 100,000) for Injury and Violence, Males, United States and Selected Countries, 1955-84 139

- C-8 Age-Specific Death Rates (per 100,000) for Cancer, Males Age 45 and Older, United States and Selected Countries, 1987-88 141
- c-9 Age-Specific Death Rates (per 100,000) for Cancer, Females Age 45 and Older, United States and Selected Countries, 1987-88 142
- c-10 Trends in Age-Standardized Death Rates (per 100,000) for Circulatory System Disease, United States and Selected Countries, 1955-84 143
- c-11 Age-Specific Death Rates (per 100,000) for Circulatory System Disease, Males Age 45 and Older, United States and Selected Countries, 1987-88 145
- C-12 Age-Specific Death Rates (per 100,000) for Circulatory System Disease, Females Age 45 and Older, United States and Selected Countries, 1987-88 146

Tables

- 3-1 Selected Demographic Characteristics, United States and Selected Countries, 1990 16
- 3-2 Elderly Percent of Population by Age, United States and Selected Countries, Selected Years 18
- 3-3 Percent of Households With Children by Marital Status of Parent, United States and Selected Countries, Selected Years 20
- 3-4 Foreign or Foreign-born Population, United States and Selected Countries, 1990 21
- 3-5 Level of Education Completed by Age and Sex, United States and Selected Countries, Circa 1980 22
- 3-6 Labor Force Participation Rates, by Sex and Age, United States and Selected Countries, Selected Years 23
- 3-7 Poverty Indicators, United States and Selected Countries, Mid-1980s 26
- 3-8 Child Poverty, United States and Selected Countries, Circa 1980 26
- 4-1 Infant Mortality Rates and Ranks, United States and Selected Countries, 1990 30
- 4-2 Rates and Ranks of Infant, Neonatal, Postneonatal, and Fete-Infant Mortality in the United States and Selected Countries, 1990 31
- 4-3 Infant Mortality Rates, by Race, Geographic Division, and State: United States, Average Annual 1987-89 32
- 4-4 Characteristics of Birthweight Distributions and Mortality Rates, United States and Selected Populations, 1983-86 39
- 4-5 Live Birth Rates by Maternal Age, United States and Selected Countries, Circa 1990 41
- 4-6 Births to Unmarried Women, Selected Countries, Selected Years 43
- 5-1 Life Expectancy at Birth and at Ages 15,45,65, 80, United States and Selected Countries, 1990 49
- 5-2 Percent of Population Surviving to the Age of 1, 25,45, and 65, United States and Selected Countries, 1990 52
- 5-3 Rates of Motor-Vehicle-Related Deaths, Selected Countries, Circa 1990 55
- 5-4 Expected U.S. Deaths If United States Had Canadian Age-Specific Mortality Rates, 1989 57
- 6-1 Cumulative AIDS Incidence Through Mid-1993, United States and Selected Countries **61**
- 6-2 Self-Perceived Health, United States and Selected European Countries, 1987 **68**
- 7-1 Smoking prevalence by Age, Selected European Countries (1987-88) and the United States (1988) 71
- 7-2 Cigarette Smoking by Adults (Age 18 and Older), by Age, Sex, and Education, United States and Canada, 1985 and 1990 72
- 7-3 Smoking Prevalence, United States and Selected European Countries, Mid-1960s and Late 1980s 73
- 7-4 Alcohol Consumption, Selected European Countries and the United States, 1988 74
- 7-5 Current Alcohol Consumption by Adults (Age 18 and Older), by Age, Sex, and Education, United States and Canada, 1985 and 1990 75
- 7-6 Trends in Adults Having Recent Blood-pressure Checks, by Age, Sex, and Education, United States and Canada, 1985 and 1990 77
- 7-7 Trends in Women Having Had Pap Tests Within 3 Years of the Survey and Monthly Breast Self-Examination, by Age and Education, United States and Canada, 1985 and 1990 78
- 7-8 Trends in Adults' Regular Use of Seatbelts and Ownership of Smoke Detectors, by Age, Sex, and Education, United States and Canada, 1985 and 1990 79

- 7-9 Trends in Adult Participation irregular Physical Activity, by Age, Sex, and Education, United States and Canada, 1985 and 1990 81
- 7-10 Awareness, Use, and Frequency of Women's Cervical Smear Test in Selected European Countries, 1988 82
- 7-11 Mammography Use by Women Aged 50 and Older in Selected European Countries, 1988 83
- 7-12 Completed Immunization Rates for Preschool Children, the United States and Selected European Countries, Most Recent Available Year 84
- 7-13 Reported Pertussis and Measles Morbidity, United States and Selected European Countries, 1980-86 85
- B-1 Background Information on Mortality Statistics, Circa 1989 92
- C-1 Trends in Age-Specific Death Rates (per 100,000), Males, United States and Selected Countries, 1955-59 to 1980-84 96
- C-2 Trends in Age-Specific Death Rates (per 100,000), Females, United States and Selected Countries, 1955-59 to 1980-84 99
- C-3a Age and Cause-Specific Death Rates (per 100,000), United States, 1988 101
- C-3b Age and Cause-Specific Mortality Rates of Selected Countries Compared with U.S. Rates, 1988 102
- C-4 Trends in Age-Specific Death Rates (per 100,000) for Cancer, by Sex, Age 45 to 74, United States and Selected Countries, 1950-54 to 1980-84 114
- c-5 Trends in Age-Standardized Death Rates (per 100,000) for Selected Cancer Sites, United States and Selected Countries, 1950-54 to 1980-84 116
- C-6 Trends in Age-Standardized Death Rates (per 100,000) for Cerebrovascular and Ischemic Heart Disease, United States and Selected Countries, 1950-54 to 1980-84 118
- C-7 Comparison of U.S. and Canadian Death Rates (per 100,000) for the Five Leading U.S. Causes of Death, Males, Age 15 to 24, 1989 119
- C-8 Comparison of U.S. and Canadian Death Rates (per 100,000) for the Five Leading U.S. Causes of Death, Females, Age 15 to 24, 1987 120
- c-9 Comparison of U.S. and Canadian Death Rates (per 100,000) for the 10 Leading U.S. Causes of Death, Males, Age 25 to 44, 1989 121
- C-10 Comparison of U.S. and Canadian Death Rates (per 100,000) for the 10 Leading U.S. Causes of Death, Females, Age 25 to 44, 1989 122
- C-n Comparison of U.S. and Canadian Death Rates (per 100,000) for the 10 Leading U.S. Causes of Death, Males, Age 45 to 64, 1989 123
- C-12 Comparison of U.S. and Canadian Death Rates (per 100,000) for the 10 Leading U.S. Causes of Death, Females, Age 45 to 64, 1989 124
- C-13 Comparison of U.S. and Canadian Death Rates (per 100,000) for the 10 Leading U.S. Causes of Death, Males, Age 65 and Over, 1989 125
- C-14 Comparison of U.S. and Canadian Death Rates (per 100,000) for the 10 Leading U.S. Causes of Death, Females, Age 65 and Over, 1989 126
