

Contents

<i>Chapter</i>	<i>Page</i>
1. Introduction and Overview	3
Part 1: Conventional Gas Supplies	
2. Summary: Availability of Conventional Gas Supplies	17
3. Natural Gas Basics	29
4. The Natural Gas Resource Base	39
5. Gas Production Potential	81
6. Other Gas Sources: Summary	111
Part II: Unconventional Gas Supplies	
7. Introduction and Summary: Availability of Unconventional Gas Supplies	121
8. Tight Gas	139
9. Gas From Devonian Shales	179
10. Coalbed Methane	207
<i>Appendix</i>	
A. Calculation of Additional Reserves From Increased Gas Recovery in Old Gasfields	227
B. Fracturing Technologies	229
C. Double Counting	236
D. Glossary	242
Index	247
