In this symposium, talks will examine advances that have been made in understanding climate change and the future challenges that remain in developing a predictive understanding of Earth’s climate system.

For more than 190 years, The Franklin Institute has honored the greatest minds in science, engineering, technology, and business. The Franklin Institute Awards are amongst the oldest and most prestigious comprehensive science awards in the world. Recognizing these brilliant men and women from around the world is one important way that the Institute preserves Benjamin Franklin’s legacy. They are the Franklins of today; they will inspire the Franklins of tomorrow.
