Description of Recreational Facilities

Jadwin Gymnasium (Recreation Use Indoor Track & Tennis Courts)

The L. Stockwell Jadwin Gymnasium is a multipurpose athletic facility that has a combined floor space of approximately 250,000 square feet; with permanent seating for 6,854 spectators around the main court (making it the second-largest on-campus college basketball arena in New Jersey). Beyond the basketball courts are facilities for indoor track. The newly renovated sublevels beneath the main grandstand hold one of the largest fencing rooms in the world, 10 international-sized squash courts with spectator galleries, tennis courts and a baseball diamond. Jadwin Gym is open for recreational use during very limited times throughout the year.
