

# Greening Princeton Meeting Minutes- Monday, April 25, 2011

## Upcoming Projects

### *Sustainable Study Break*

Tonight is the first trial study break in Mathey at 10 p.m. We will be showing the recycling film as well as EcoRep's jeopardy game. There is going to be one tomorrow at 10 PM as well and perhaps one later in the week. Email **Bennett a bgbernst@** if you would like to get involved.

### *Greening Reunions*

Emailed Teracycle owner but he is unavailable so we will try other alternative Princeton alum who works at TerraCycle.

### *Building Services Electronic Messaging System Video*

A 1 1/2 minute clip about the importance of recycling that will be added to the Building Service Electronic Messaging System. Will be done over reading period. Email **Carol at cdreibel@** if you would like to help.

### *Greening Princeton's Image and Ideas for Next Year*

Need to think about GP's image for next year, especially during Frosh Week. Ideas include: an environmental group info event and updating the website and blog (need a Webmaster). We also want to make planning the 5K a more fluid process next year. Another idea was to work with independent students and teach them how to live sustainably (choosing what foods are more sustainable, etc.). Also, we want to decrease the number of bags used in C-Store and U-Store.

### *Water Bottles*

Caroline emailed water bottle companies about Greening Princeton water bottles. We can choose between cheap bottles or brand name. Bigger brand names require a minimum from 70. The issue is the cost and selling them. Ultimately we are leaning toward non-brand names bottle. Caroline will ask about getting a donation and/or funding.

***AND....Caroline is the new GP President!***

# ***Congratulations!***

## **Upcoming Green Events**

### ***Edghar Dal***

Apr 25, 2011, 12:00 p.m.  
Wallace Hall, Room 300
