Introduction

Princeton University offers a Princeton Health Plan (PHP) administered by Aetna. Coverage under the PHP is available to you and your dependents as long as you and they meet the eligibility requirements defined in the About Your Benefits Summary Plan Description.

If you are currently a non-citizen on a J-1 Visa, you are not eligible to participate in this plan.

The PHP is a point-of-service plan, which provides three levels of coverage: in-network preferred, in-network non-preferred, and out-of-network. With the PHP, you can choose any provider you wish, but you receive a higher level of benefits when you select an Aetna Choice POS II (open access) in-network provider. In addition, when utilizing certain specialists, you will receive a higher level of benefit if you use a preferred in-network provider (see page 2 for additional information).

You do not have to obtain a referral for in-network or out-of-network care. There are some services that are not covered out-of-network, such as Durable Medical Equipment, High-Tech Radiology and Sleep Studies. You should review the SPD or call Aetna at (800) 535-6689 to confirm coverage prior to seeking services.
How the Plan Works
The PHP features three levels of coverage: in-network preferred, in-network non-preferred and out-of-network coverage. You may choose an in-network provider and receive a higher level of benefits, or you can select an out-of-network provider and receive a reduced level of benefits. There are some services that are not covered out-of-network, such as Durable Medical Equipment, Hi-Tech Radiology and Sleep Studies. Prior to seeking services, review the SPD or contact Aetna at (800) 535-6689 to confirm coverage.

When utilizing specialists, first check to see if they are in a category that identifies in-network preferred specialist providers. Aetna preferred providers are listed on the Aetna website, www.aetna.com/dse/princeton, as Aexcel with a blue star. Below is a list of categories and locations as of January 2019. For the most current list of categories and locations contact Aetna or visit www.princeton.edu/hr/benefits.

Locations with Limited or No Access to Preferred Specialists: MI, NC, NH, OR, SD, WA and Southeastern, Central and Western PA. If you reside in one of these States and/or locations, you will be reimbursed at the In-Network Preferred level for the specialty categories listed above.

In-Network Preferred Lab: Quest Diagnostics and Lab Corp. are the preferred in-network labs for Aetna. If you use any other in-network lab, you will be charged more and will also have to meet your annual deductible prior to services being covered.

In addition, precertification is required for all inpatient admissions and outpatient surgeries. If certain out-of-network services are not precertified, the penalty will be no coverage. For in-network services, it is the provider’s responsibility to precertify services, and no penalty will apply to the member.

</tr>
</tbody>
</table>

**Reasonable and Customary**
When you use out-of-network providers, the maximum amount a plan will allow to be charged for a service is called “reasonable and customary” (R&C). This is determined by Aetna using data provided by Fair Health, Inc. Costs above R&C are your responsibility. To search estimated R&C fees for services in your area, go to [www.fairhealthconsumer.org](http://www.fairhealthconsumer.org) or call Aetna for assistance. For out-of-network services, the Plan pays 60% of the reasonable and customary (R&C) charge for most services. In addition to your 40% coinsurance, you may also be required to pay amounts above R&C. These amounts do not count toward your annual out-of-pocket maximum.
Note: Princeton University cannot guarantee that a specific provider, even though listed in the Aetna directory will be available. Network providers may end their contract with Aetna, or decide not to accept new patients. If your provider does not participate and/or drops out of Aetna's network, this is not a qualifying event to change your medical plan coverage mid-year.

Copay
You pay a copay for office visits to an in-network provider (except for preventive care), for emergency room care, and for treatment at an in-network urgent care center.

In-Network Office Visit Copay
When you visit an in-network provider because you are ill, you will pay a $20 copay for an office visit to a Primary Care Physician (PCP), a $30 copay for a visit to a preferred specialist, or a $60 copay for a visit to a non-preferred specialist at the time of the office visit, regardless of whether or not you have met your annual deductible. Copays do not count toward your deductible, but they do count towards your annual out-of-pocket maximum.

If your office visit is for a routine preventive examination, e.g., annual physical, well-child care, annual gynecological exam, or similar preventive care, no copay is required.

Note: If you are pregnant and seeking services in-network, your pre-delivery office visits are covered at 100%. However, the initial office visit to diagnose the pregnancy is covered at a copay.

Emergency Room Copay
The emergency room copay is $175, regardless of whether the hospital is part of the network or not. It is important to remember the following about the emergency room copay:

- The copay applies only if it is determined that the services were delivered for a true emergency as defined by the Plan, and there is not a less intensive or more appropriate place of service, or another diagnostic or treatment alternative that could have been used instead of emergency room services.
- If your emergency room visit is not considered a true emergency as defined by the Plan, the services will not be covered.
- The emergency room copay is waived if you are admitted to the hospital.

Urgent Care Center Copay
Urgent care is defined as care for a condition that needs immediate attention to minimize severity and prevent complications, but is not a medical emergency. If there is an urgent care center in your area, you have the option of visiting the center when an urgent care situation arises instead of going to your physician. You will pay a $30
copay for services if the center is in-network. The visit is subject to the deductible and coinsurance if the center is out-of-network.

Annual Deductible
The annual deductible is the amount you must pay each year in covered expenses and coinsurance, before benefits are payable. Office visit copays do not apply to the annual deductible. There is an individual and family deductible for both in-network and out-of-network care. The deductibles for in-network and out-of-network services are tracked and accumulate separately. After you meet your annual deductible, benefits are payable at 90% (in-network) and 60% (out-of-network) for most services. There are some exceptions. Please see the Benefits Summary, Page 7. The annual deductible is applied toward your annual out-of-pocket maximum. Please see Annual Out-of-Pocket Maximum, Page 6.

The annual family deductible is cumulative among family members. This means that as an individual your services are only covered after you have met your individual deductible or the family as a unit has met the family cumulative deductible.

The in-network deductible can only be met by accumulating the necessary total of in-network services, and the out-of-network deductible can only be met by accumulating the necessary total of out-of-network services. Therefore, if you have met your in-network annual deductible, this amount will not apply towards meeting your out-of-network deductible.

For example: Suppose you are hospitalized at a network facility because you require surgery and you have family coverage and your family deductible is $400. Let’s assume that your husband has already paid $200 and your daughter $200 toward the deductible. Your family has met the family deductible so you need only pay the balance of 10% (the plan pays 90%). Your annual family deductible is now satisfied under the in-network portion of the plan, and any covered services that you receive from an in-network provider for the remainder of the year will be covered at the coinsurance percentage. If you decide to use an out-of-network provider, you will be required to meet the out-of-network deductible, and the in-network family deductible of $400 will not apply toward the individual out-of-network deductible of $750, or the family out-of-network deductible of $1,500.

Let’s now assume that no member of your family has incurred expenses at the time of your hospitalization/surgery, then you will pay the first $200 individual deductible of the hospital/surgical facility charges and the remainder of the facility charges will be covered at 90% coinsurance. You will never have to pay a deductible that is greater than the individual deductible for a single member of the family. As illustrated, if you decide to use an out-of-network provider, the in-network deductible you have already paid will
not apply toward the out-of-network annual individual deductible of $750 or family deductible of $1,500.

Annual Out-of-Pocket Maximum
The maximum amount that you will pay out-of-pocket towards copays, deductibles and/or coinsurance each calendar year is called the annual out-of-pocket maximum (OPM). The in-network out-of-pocket maximum amount is based on your annual base salary as of January 1, or your date of hire, if later.

- If your annual base salary is $75,000 or under, the in-network individual OPM is $1,550 and the in-network family OPM is $3,100. The out-of-network individual OPM is $4,500 and the out-of-network family OPM is $9,000.
- If your annual base salary is $75,001 to $150,000, the in-network individual OPM is $2,350 and the in-network family OPM is $4,700. The out-of-network individual OPM is $4,700 and the out-of-network family OPM is $9,400.
- If your annual base salary is $150,001 or above, the in-network individual OPM is $3,100 and the in-network family OPM is $6,200. The out-of-network individual OPM is $6,200 and the out-of-network family OPM is $12,400.

If you meet the annual OPM, covered expenses are paid at 100% of the reasonable and customary (R&C) limit.

Keep in mind that the following payments do not count toward the annual OPM for out-of-network services:

- Precertification non-notification penalty
- Charges above the reasonable and customary (R&C) limits

You must continue to make these payments when applicable even if you have reached your annual out-of-pocket maximum.

There is both an individual and family annual OPM for both in-network and out-of-network care. When the in-network individual annual OPM is reached in a calendar year, all in-network covered expenses, except those shown above, are payable at 100% limit for that person for the rest of the year. (Precertification non-notification penalties and R&C do not apply to in-network services)

The same is true for the family annual OPM, and for both the individual and family annual OPM under the out-of-network portion of the Plan. However, the reimbursement is at 100% of the R&C limit, and you are responsible for charges above R&C. Precertification non-notification penalties do apply to out-of-network services.
Expenses you incur that apply toward the annual OPM are tracked separately and do not accumulate for in-network and out-of-network services. In other words, in-network payments do not count toward your out-of-network limits and vice versa.

The R&C limit means the lesser of the amount charged, or the reasonable charge for a particular service in your area. Aetna uses Fair Health, a national independent, not-for-profit Corporation, to determine reasonable and customary charges. If you are charged an amount that exceeds the R&C limit, you must pay the difference. The R&C limit only applies to out-of-network expenses.

For example: Your out-of-network doctor charges you $120 for a covered service and the Plan determines that $100 is the R&C limit for that service. Assuming you have already met your deductible, the Plan reimburses 60% of $100 or $60. You are responsible for the $40 coinsurance (40% of $100). You are also responsible for the $20 difference between the R&C limit and the doctor’s charge. You pay a total of $60 for the service.

**Benefits Summary**

This *Benefits Summary* summarizes the provisions of the Plan, including benefit amounts, maximum amounts, copays and deductibles.

Additional Plan Benefits:
While the *Benefits Summary* provides an overview of your coverage under the PHP Plan, this section includes additional detail about:

- Allergy Testing and Treatment
- Family Planning Benefits and Infertility
- Pregnancy Benefits
- Mental Health and Substance Use Disorder Benefits
- Dental – Oral Surgery
- Organ/Tissue Transplants
- Prescription Drug Benefits
- Preventive Care
- Gender Confirming Surgery
- Travel

Allergy Testing and Treatment
Testing and evaluations to determine the existence of an allergy are covered under the PHP. When a physician determines that an allergy exists, routine allergy injections, including serums, are also covered.

<table>
<thead>
<tr>
<th>In-Network</th>
<th>Out-of-Network</th>

<td>Allergy Testing office visit: You pay a $30 copay per visit</td>
</tr>
<tr>
<td>Allergy Serum and Injection: You pay $30 copay if office visit charged. You pay $0 if no office visit charged</td>
<td></td>
</tr>
<tr>
<td>Office visit and serum or injection on same day: You pay a $30 copay per visit if office visit charged. You pay $0 if no office visit charged.</td>
<td>You pay 40% after deductible</td>
</tr>
</tbody>
</table>
Family Planning Benefits and Infertility
The PHP covers a range of family planning benefits including the following:

- Sterilization
- Health services and associated expenses for abortion
- Contraception supplies and services
- Fetal reduction surgery
- Health services associated with the use of non-surgical or drug induced pregnancy termination

The PHP covers the first 2 visits per calendar year for Contraceptive Counseling at 100% in-network, and you pay 40% after the deductible for out-of-network services.
The plan covers the office visit for injectable contraceptives, as well as for the fitting or insertion/removal of contraceptive devices at 100% in-network, and you pay 40% after the deductible for out-of-network services.

The PHP covers infertility services for you and your covered spouse. Infertility services are not provided for covered children. Infertility services are covered if all of the following tests are met (proof of inability to conceive is not required):

- There exists a condition that:
  - is not caused by voluntary sterilization or a hysterectomy.
  Or
- For a female whose FSH levels are less than or equal to 19 miU on day three of the menstrual cycle.
- A successful pregnancy cannot be attained through less costly treatment for which coverage is available under this Plan.

Note: Infertility services for fertility preservation treatments and procedures are covered for men and women in the case of chemotherapy, pelvic radiotherapy, or other gonadotoxic therapies, as well as in advance of hormone treatment or gender surgery for male to female as well as for female to male changes, when a medical treatment or procedure will compromise or end the patient’s ability to reproduce. (Contact Aetna for more information).

The following infertility services expenses will be covered:

- Ovulation induction with ovulatory stimulant drugs, subject to a maximum of six courses of treatment in a covered person’s lifetime.
- Artificial insemination, subject to a maximum of six courses of treatment in a covered person’s lifetime.
Advanced Reproductive Technology (ART), is subject to a maximum of three attempts in a covered person’s lifetime. These expenses will be covered on the same basis as for disease.

A course of treatment is one cycle of treatment that corresponds to one ovulation attempt.

Not more than $20,000 will be paid for all infertility services expenses in a covered person's lifetime. In figuring the above ART Lifetime Maximum, Aetna will take into consideration all of the following, whether past or present:

- Services received while covered, under a plan of benefits offered by Aetna or one of its affiliated companies,
- Services received while covered under a plan of benefits, on an individual or group basis, whether insured or self-insured, offered by any other carrier, and
- Services received while no plan coverage was provided.

Not covered are charges for:

- Purchase of donor sperm or storage of sperm.
- Care of donor egg retrievals or transfers.
- Cryopreservation or storage of cryopreserved embryos.
- Gestational carrier programs.
- Home ovulation prediction kits.

**Advanced Reproductive Technology (ART) Expenses**

The PHP will also cover expenses incurred by a covered female for advanced reproductive technology expenses up to a maximum of three attempts per lifetime; if all of the following tests are met (proof of inability to conceive is not required):

- There exists a condition that:
  - is not caused by voluntary sterilization or a hysterectomy.
  Or
- For a female whose FSH levels are less than or equal to 19 miU on day three of the menstrual cycle.
- A successful pregnancy cannot be attained through less costly treatment for which coverage is available under this Plan.

Covered medical expenses will include the following services:

- In vitro fertilization (IVF),
- Zygote intra-fallopian transfer (ZIFT),
- Gamete intra-fallopian transfer (GIFT),
- Cryopreserved embryo transfers,
- Intracytoplasmic sperm injection (ICSI) or ovum microsurgery, and
- Care associated with a donor IVF program, including fertilization and culture.

Covered medical expenses for the covered female will also include obtaining the sperm of a covered partner.

These expenses will be covered on the same basis as for disease.

**Pregnancy Benefits**
An individual who becomes pregnant undergoes two types of care during the course of the pregnancy: prenatal office visits and hospitalization for the delivery of the child.

**Office Visits**
You will pay a copay for the initial office visit to diagnose the pregnancy. The copay for a preferred specialist is $30, and the copay for a non-preferred specialist is $60. For all subsequent in-network prenatal office visits you will pay $0, with the exception of pre- and post-partum hospital care and delivery. (Note: You will pay a copay for post-partum office visits.) You must meet your out-of-network deductible and coinsurance for out-of-network office visits.

**Hospitalization**
You will pay 10% coinsurance (in-network) and 40% coinsurance (out-of-network) after satisfying the applicable deductible for services and supplies associated with the birth of your baby. The patient costs for tiered specialist fees will correspond to the tier of the specialist utilized. Therefore, you will pay 10% coinsurance for the preferred specialist fees, or 20% for non-preferred specialist fees. Coverage includes:

- At least 48 hours (for a normal vaginal delivery) or 96 hours (for a cesarean section) of inpatient care for the mother and newborn child (authorizations are required for longer lengths of stay). These are federally mandated requirements under the Newborns’ and Mothers’ Health Protection Act of 1996 which apply to this Plan. The hospital or other provider is not required to get authorization for the time periods stated above. However, the mother and/or newborn can be discharged from the hospital prior to the 48/96 hour length of stay requirement upon consultation between the mother (or in the case of the newborn, the child’s mother or authorized representative) and the attending provider.
- Birth center and nurse-midwife services
- Routine well-baby care given for the duration of the baby’s confinement

Pregnancy is subject to the precertification requirement. Please see *When to Precertify*, Page 25.
For a hospital delivery, the hospital length of stay begins at the time of delivery or at the
time of the last delivery in the case of multiple births. For a delivery outside the
hospital, the hospital length of stay begins at the time the attending provider admits the
mother and/or newborn as hospital patients in connection with childbirth.

Special prenatal programs are available. These programs are completely voluntary and
there is no extra cost for your participation. To enroll, contact Aetna during your first
termester, but no later than one month prior to the anticipated childbirth.

Mental Health and Substance Use Disorder Benefits
The PHP covers inpatient and outpatient care for mental health and substance abuse
treatment, subject to certain limits (noted below). A residential treatment facility would
also be covered as an inpatient benefit. The copay and coinsurance amounts apply as
shown in the Benefits Summary. Mental health benefits include, but are not limited to:

- Assessment
- Diagnosis
- Treatment planning
- Medication management
- Individual, family and group psychotherapy
- Psychological education
- Psychological testing

Mental health and substance abuse benefits are administered by Aetna Behavioral
Health, and they can be reached at 1-800-535-6689.

Telemental Health services are also available, and are a convenient option that allows
patients to video conference with a licensed health provider – including psychiatrists,
psychologists and counselors – who can provide both therapy and medication
management. Visits are covered the same cost as in-network in-person mental health
visits. To schedule an appointment for this service, which is referred to as Televideo by
Aetna, call the in-network provider, Inpathy at (800) 442-8938, if you reside in New
Jersey, New York or Pennsylvania. If you reside outside of New Jersey, New York or
Pennsylvania, call Aetna at (800) 535-6689 for information on the in-network provider.

Dental - Oral Surgery Benefits
Dental services are not covered under the PHP. However, there are certain limited
dental and oral surgical procedures that are covered in either an inpatient or outpatient
setting:

- diagnosis and treatment of oral tumors and cysts, and
- surgical removal of bony or partial bony impacted teeth.

Coverage is also provided for treatment of an injury to natural teeth or the jaw, but
only if:
the injury occurs while you are covered
the injury was not caused, directly or indirectly, by biting or chewing, and
initial treatment must begin within three months of injury.

Under the PHP, coverage also includes dental work, surgery and orthodontic treatment needed to remove, repair, replace, restore or reposition natural teeth damaged, lost, or removed or other body tissues of the mouth fractured or cut. Oral surgery may be subject to the pre-certification requirement. Please see When to Precertify, Page 25.

Durable Medical Equipment
Durable Medical Equipment is covered in-network when it meets each of the following criteria:

• Ordered or provided by a Physician for outpatient use.
• Used for medical purposes.
• Not consumable or disposable.
• Not of use to a person in the absence of a disease or disability.

If more than one piece of Durable Medical Equipment can meet your functional needs, benefits are available only for the most cost-effective piece of equipment.

Examples of Durable Medical Equipment include:

• Equipment to assist mobility, such as a standard wheelchair.
• A standard hospital-type bed.
• Oxygen and the rental of equipment to administer oxygen (including tubing, connectors and masks).
• Delivery pumps for tube feedings (including tubing and connectors).
• Braces, including necessary adjustments to shoes to accommodate braces. Braces that stabilize an injured body part and braces to treat curvature of the spine are considered Durable Medical Equipment and are a Covered Health Service. Dental braces are excluded from coverage.

The Plan provides benefits only for a single purchase (including repair/ replacement) of a type of Durable Medical Equipment once every three calendar years. However, for children age 18 or younger, replacement is allowed once per year due to growth in stature.

Aetna will decide if the equipment should be purchased or rented.

Durable Medical Equipment is not covered out-of-network.
Prosthetic Devices
External prosthetic devices that replace a limb or an external body part are covered in-network, limited to:

- Artificial arms, legs, feet and hands.
- Artificial eyes, ears and noses.
- Breast prosthesis as required by the Women's Health and Cancer Rights Act of 1998. Benefits include mastectomy bras and lymphedema stockings for the arm.
- Foot orthotics.

If more than one prosthetic device can meet your functional needs, benefits are available only for the most cost-effective prosthetic device.

The prosthetic device must be ordered or provided by, or under the direction of a Physician. Except for items required by the Women's Health and Cancer Rights Act of 1998, benefits for prosthetic devices are limited to a single purchase of each type of prosthetic device every three calendar years. However, for children age 18 or younger, replacement is allowed once per year due to growth in stature.

Prosthetic devices is not covered out-of-network.

Reconstructive Procedures
*(Services for reconstructive procedures, when a physical impairment exists and the primary purpose of the procedure is to improve or restore physiologic function)*

Reconstructive procedures include surgery or other procedures which are associated with an injury, sickness or Congenital Anomaly. The fact that physical appearance may change or improve as a result of a reconstructive procedure does not classify such surgery as a Cosmetic Procedure when a physical impairment exists, and the surgery restores or improves function.

Cosmetic Procedures are excluded from coverage. Procedures that correct an anatomical Congenital Anomaly without improving or restoring physiologic function are considered Cosmetic Procedures. The fact that a Covered Person may suffer psychological consequences or socially avoidant behavior as a result of an injury, sickness or Congenital Anomaly does not classify surgery or other procedures done to relieve such consequences or behavior as a reconstructive procedure.

Please note that benefits for reconstructive procedures include breast reconstruction following a mastectomy, and reconstruction of the non-affected breast to achieve symmetry. Other services required by the Women's Health and Cancer Rights Act of 1998, including breast prostheses and treatment of complications, are provided in the same manner and at the same level as those for any other Covered Health Service. You
can contact Aetna at the Customer Service telephone number on your ID card for more information about benefits for mastectomy-related services.

Organ/Tissue Transplants
Aetna’s National Medical Excellence Program® (NME) helps eligible Plan participants access covered treatment for solid organ transplants, bone marrow transplants, and certain other rare or complicated conditions at participating facilities experienced in performing these services. These facilities are known as Aetna Institute of Excellence (IOE) facilities. IOE’s are the only facilities considered to be in-network for providing these services. If you receive these services at any other facility, you will pay 30% after the deductible because the facility will be considered out-of-network, even if it is in-network when providing non-transplant services.

The program has three components:

- National Transplantation Program, designed to help arrange care for solid organ and bone marrow transplants.
- National Special Case Program, developed to coordinate arrangements for treatment of Plan participants with complex conditions at tertiary care facilities across the country when that care is not available near the Plan participant’s home.
- Out of Country Program, designed for Plan participants who need emergency inpatient medical care while temporarily traveling outside the United States.

If you need a transplant or other specialized care and you are utilizing an IOE transplant program facility, the NME Program will coordinate covered services and will provide the following lodging and travel expenses:

- Transportation expenses you and a companion (if applicable) incur while traveling between your home and the Program facility. Travel expenses incurred by more than one companion are not covered.
- As the NME patient, your lodging expenses incurred while traveling between your home and the National Medical Excellence facility to receive covered services.
- The lodging expenses you incur for lodging away from home to receive covered outpatient services from a NME Program provider.
- The lodging expenses incurred by a companion traveling with you from your home to a National Medical Excellence provider so you can receive covered services.
- Your companion’s lodging expenses when their presence is required to enable you to receive services from a NME Program provider on either an inpatient or outpatient basis. Only the lodging expenses incurred by one companion are covered per night.

Benefits for travel and lodging expenses are subject to a maximum of $10,000 per episode of care. Aetna has a $50 per night maximum for lodging expenses. Princeton
will provide additional (taxable) reimbursement of up to a total of $250 per night. Contact the Benefits Department for additional information.

Travel and lodging expenses must be approved in advance by Aetna; if you do not receive approval, the expenses are not covered.

You become eligible for coverage of travel and lodging expenses on the day you become a participant in the National Medical Excellence Program. Coverage ends with the earliest occurrence listed below:

- one year after the day a covered procedure was performed,
- the date you cease to receive any services from the Program provider in connection with the covered procedure, or
- the date your coverage terminates under the Plan.

Travel and lodging expenses do not include expenses that are covered under any other part of the Plan.

The Plan covers only those services, supplies and treatments that are considered necessary for your medical condition. Treatment that is considered experimental, as determined by Aetna, is not covered by the Plan.

Prescription Drug Benefits
The Prescription Drug Program is administered by OptumRx and is independent of Aetna. For additional information please review the Prescription Plan SPD.

Preventive Care

In-Network
Preventive services are designed to help diagnose and prevent disease early. Preventive services, e.g., annual exams, colonoscopies, and mammograms, are covered at 100% in-network. A list of preventive services is available by contacting Aetna.

When you visit a network provider for a routine examination (e.g., annual physical, well-child care, annual gynecological exam, etc.), your copay is $0 and applies to all covered services, supplies, and tests associated with the visit. For example, if the in-network provider orders routine blood work as a part of your physical, or if your child needs to receive a scheduled immunization, there will be no additional charge for these services.

The following are covered services associated with preventive health care benefits for you and your dependents (if enrolled):

- Routine immunizations
• Routine physical exams (including any outpatient lab work/x-rays ordered at the
time of the visit) once each calendar year
• Contraceptive services
• Prostate specific antigen
• Breast examination and/or mammogram
• Pelvic examination
• Pap smear
• Child preventive care services given in connection with routine pediatric care,
including PKU tests and immunizations

Out-of-Network
• When you visit an out-of-network provider for a routine examination, you will pay
40% coinsurance after you have met your annual deductible. The following
exclusions apply:
  – Any services for well-child care visits over the limit of seven visits during the first
    year, or more than 3 exams in the second year, or more than 3 exams in the third
    year or more than 1 exam yearly thereafter are not covered.
  – The annual visit is subject to the deductible and coinsurance payment.

Gender Confirming Coverage
Gender Confirming Coverage includes the following:
• Psychotherapy for individuals experiencing gender dysphoria.
• Continuous Hormone Replacement Therapy with hormones of the desired gender
  (Hormone Replacement Therapy is covered under the Prescription Drug
  Program administered by OptumRx.
• Fertility preservation in advance of hormone treatment or gender confirming
  surgery.
• Laser or electrolysis hair removal services for male to female participants
  experiencing gender dysphoria. Services must be provided by an in-network
  medical specialist, such as a Dermatologist or Plastic Surgeon. Coverage from a
  non-medical professional or out-of-network provider will not be covered.
• Speech/Voice therapy to help participants experiencing gender dysphoria
  communicate in a manner consistent with their gender identities. Services must
  be provided by a licensed speech therapist.
• Gender Confirming Surgery

Gender Confirming Surgery
Gender Confirming Surgery requires prior authorization in order to ensure the
readiness of the patient for such surgery as well as to confirm medical necessity exists
for the transgender patient. These protocols follow guidelines established by WPATH for such surgery. Covered expenses include:

- Charges made by a physician for:
  - Performing the surgical procedure; and
  - Pre-operative and post-operative hospital and office visits.
- Charges made by a hospital for inpatient and outpatient services (including outpatient surgery). Room and board charges in excess of the hospital’s semi-private rate will not be covered unless a private room is ordered by your physician and precertification has been obtained.

Prior Authorization Requirements for all surgeries:
1) Age 18 or older;
2) Capacity to make fully informed decisions
3) Diagnosis of severe gender dysphoria
4) If medical/mental health conditions exist they must be well controlled

Additional prior authorization requirements and referrals may be needed for specific surgeries. Please contact Aetna for additional information.

Exclusions:
- Reversal of genital surgery or reversal of surgery to revise secondary sex characteristics
- Storage of cryopreserved embryos
- Rhinoplasty and Blepharoplasty
- Cosmetic procedures including hair removal, skin resurfacing, chin implants, nose implants and lip reduction

Travel
Aetna is a national vendor with a network of physicians, hospitals, and health-care providers throughout the United States. When traveling in the U.S., you access care as you normally would by either locating a participating provider to receive care under the in-network portion of the Plan, or by choosing an out-of-network provider to receive care on an out-of-network basis.

If you are traveling overseas on University-sponsored or University-related business and are enrolled in the PHP, you may be eligible to receive the in-network level of benefits coverage. Please contact the Office of Human Resources at 609-258-3302 before you leave to determine if you qualify for this benefit.
If you are traveling overseas on personal business that is not University-sponsored or University-related (including vacation), your coverage is provided under the out-of-network portion of the Plan. If, however, you or a family member experience an emergency situation while traveling on personal business, you should go directly to the nearest facility for treatment. In an emergency situation, benefits are payable under the in-network portion of the Plan.

**Care Coordination**

You and your physician make decisions about medical services and supplies that you should receive; however, all covered services and supplies are subject to a utilization review. Utilization review refers to the process that Care Coordination goes through when determining whether or not services and supplies received by an individual are eligible for coverage according to Plan benefits and provisions. This review is mandatory in certain situations. It takes place upon notification by you either before (precertification) or after (notification for emergency care) you receive certain services and supplies.

**Precertification**

You are required to notify Aetna by calling the toll-free number shown on your ID card prior to receiving certain services. In some cases, a provider may handle the precertification; however, it is important to remember that it is ultimately your responsibility to ensure that authorization has been received for all procedures and confinements for which it is required. For non-emergency inpatient admissions or surgeries as well as outpatient surgeries, these services must be precertified 14 days prior to the confinement or scheduled date of treatment. Notification of emergency stays should be made within 48 hours of admission. There is no penalty for failure to precertify for in-network services. There is a non-notification penalty of no coverage for out-of-network services.

**What to Precertify**

- inpatient hospital
- inpatient mental health, detoxification and/or rehabilitation
- inpatient skilled nursing
- outpatient and inpatient surgery
When to Precertify

**Inpatient Hospitalization** – For inpatient hospitalization, you must notify Aetna of the scheduled admission date at least 14 days before the start of the confinement. If a confinement is planned but no admission date is set, you must make two phone calls to Care Coordination: one when the confinement is planned and a second as soon as the admission date is set.

Pregnancy is subject to the following precertification time periods:

- **Prenatal Programs**: Aetna should be notified during the first trimester (the first 12 weeks of pregnancy). This early precertification makes it possible for the mother to participate in the prenatal programs.

- **Inpatient Hospitalization for Delivery of Child**: Care Coordination must be notified only if the inpatient care for the mother or child is expected to continue beyond:
  - 48 hours following a normal vaginal delivery, or
  - 96 hours following a cesarean section.

  If the need for care is expected to continue, notification should take place prior to the end of the time periods above.

- **Non-Emergency Inpatient Hospitalization Without Delivery of Child**: Hospitalization during pregnancy but before the admission for delivery, which is not emergency care, requires precertification as a scheduled confinement. Aetna must be notified prior to the scheduled admission.

**Outpatient Surgery Services** – For outpatient services which require precertification, you must notify Aetna at least 14 days before the service is given.

**Organ/Tissue Transplants** – Notification must occur at least 14 days before the scheduled date of the evaluation, the donor search, the organ procurement/tissue harvest, or the transplant procedure, or as soon as reasonably possible.

After receiving precertification information, Aetna will then complete the utilization review. You, the physician and the facility will be sent a letter confirming the results of the review.

**Emergency Care** – When emergency care is required and results in a hospital or similar facility stay, you, your representative, or physician must call Aetna within 48 hours of admission. If it is not reasonably possible to call Care Coordination within 48 hours, notification must be made as soon as possible. When emergency care has ended, Aetna must be called before any additional services are received.

**Precertification Non-Notification Penalty**

There is a penalty of no coverage for out of network services per procedure and/or admission for failing to call at the required time, or for failing to comply with recommendations concerning continued need for treatment. You will be responsible for
100% of the charges, if you do not precertify certain out-of-network services. The penalty amount may not be applied toward your annual out-of-pocket maximum.

Appeals
As a member of the PHP, you have the right to file an appeal about coverage for service(s) you have received from your health care provider or Aetna if you are not satisfied with the outcome of the initial determination regarding the following:

- certification of health care services,
- claim payment,
- plan interpretation,
- benefit determination, and
- eligibility.

You may file an appeal in writing to Aetna. The denial notice will include the address where the appeal can be sent. If your appeal is of an urgent nature, you may call Aetna’s Member Services Unit at the toll-free phone number on your ID card. Your request should include the group name, your name, your social security number or other identifying information shown on the front of the Explanation of Benefits form, and any other comments, documents, records and other information you would like to have considered, whether or not submitted in connection with the initial claim.

Your appeal will be acknowledged within five working days of receipt. An Aetna representative may call you or your health care provider to obtain medical records and/or other pertinent information in order to respond to your appeal.
What’s Not Covered
If you have a question about whether a service or supply will be covered, contact Aetna directly at 1-800-535-6689. The Plan does not cover the following services and supplies:

- Services and supplies not necessary, as determined by Aetna, for the diagnosis, care, or treatment of the disease or injury involved. This applies even if they are prescribed, recommended, or approved by the person's attending physician or dentist.
- Care, treatment, services, or supplies that are not prescribed, recommended, or approved by the person's attending physician or dentist.
- Services or supplies that are, as determined by Aetna, to be experimental or investigational. A drug, a device, a procedure, or treatment will be determined to be experimental or investigational if:
  - there are insufficient outcomes data available from controlled clinical trials published in the peer reviewed literature to substantiate its safety and effectiveness for the disease or injury involved; or
  - if required by the FDA, approval has not been granted for marketing,
  - a recognized national medical or dental society or regulatory agency has determined, in writing, that it is experimental, investigational, or for research purposes,
  - the written protocol or protocols used by the treating facility, or the protocol or protocols of any other facility studying substantially the same drug, device, procedure, or treatment, or the written informed consent used by the treating facility or by another facility studying the same drug, device, procedure, or treatment states that it is experimental, investigational, or for research purposes.

However, this exclusion will not apply with respect to services or supplies (other than drugs) received in connection with a disease; if Aetna determines that:
- the disease can be expected to cause death within one year, in the absence of effective treatment, and
- the care or treatment is effective for that disease or shows promise of being effective for that disease as demonstrated by scientific data. In making this determination Aetna will take into account the results of a review by a panel of independent medical professionals. They will be selected by Aetna. This panel will include professionals who treat the type of disease involved.

Also, this exclusion will not apply with respect to drugs that:
- have been granted treatment investigational new drug (IND) or Group c/treatment IND status,
- are being studied at the Phase III level in a national clinical trial sponsored by the National Cancer Institute, or
– if Aetna determines that available scientific evidence demonstrates that the drug is effective or shows promise of being effective for the disease.

• Care furnished mainly to provide a surrounding free from exposure that can worsen the person's disease or injury.

• Services and supplies related to the following types of treatment: primal therapy; rolfing; psychodrama; megavitamin therapy; bioenergetic therapy; vision perception training; or carbon dioxide therapy.

• Treatment of covered health care providers who specialize in the mental health care field and who receive treatment as a part of their training in that field.

• Services of a resident physician or intern rendered in that capacity.

• Those that are made only because there is health coverage.

• Those that a covered person is not legally obliged to pay.

• Those, as determined by Aetna, to be for custodial care.

• Services and supplies:
  – Furnished, paid for, or for which benefits are provided or required by reason of the past or present service of any person in the armed forces of a government.
  – Furnished, paid for, or for which benefits are provided or required under any law of a government. (This exclusion will not apply to "no fault" auto insurance if it: is required by law or is provided on other than a group basis. In addition, this exclusion will not apply to: a plan established by government for its own employees or their dependents; or Medicaid.)

• Lasik surgery to correct refractive errors, unless there is a pre-surgical refractive error greater than eight (8) diopters.

• Education or special education or job training whether or not given in a facility that also provides medical or psychiatric treatment.

• Therapy, supplies, or counseling for sexual dysfunctions or inadequacies that do not have a physiological or organic basis.

• Drugs or supplies used for the treatment of erectile dysfunction, impotence, or sexual dysfunction or inadequacy, including but not limited to:
  – sildenafil citrate,
  – phentolamine,
  – apomorphine,
  – alprostadil, or
  – any other drug that is in a similar or identical class, has a similar or identical mode of action or exhibits similar or identical outcomes.

This exclusion applies whether or not the drug is delivered in oral, injectable, or topical (including but not limited to gels, creams, ointments, and patches) forms, except to the extent coverage for such drugs or supplies is specifically provided under the prescription drug plan.

• Performance, athletic performance or lifestyle enhancement drugs or supplies, except to the extent coverage for such drugs or supplies is specifically provided.

• Those for or related to artificial insemination, in vitro fertilization, or embryo transfer procedures, except to the extent coverage for such procedures is specifically provided.
provided, or in the case of chemotherapy or radiation (Call Aetna at 800-535-6689 for more information).

- Those for or in connection with marriage, family, child, career, social adjustment, pastoral, or financial counseling.
- Weight control services including: weight control/loss programs; dietary regimens and supplements; appetite suppressants and other medications; food or food supplements; exercise programs; exercise or other equipment; and other services and supplies that are primarily intended to control weight or treat obesity, including morbid obesity, or for the purpose of weight reduction, regardless of the existence of comorbid conditions. Bariatric weight loss surgery may be covered.
- Plastic surgery, reconstructive surgery, cosmetic surgery, or other services and supplies which improve, alter, or enhance appearance, whether or not for psychological or emotional reasons; except to the extent needed to: Improve the function of a part of the body that:
  - is not a tooth or structure that supports the teeth; and
  - is malformed as a result of a severe birth defect; including cleft lip, webbed fingers, or toes, or
  - as a direct result of disease or surgery performed to treat a disease or injury. Surgery must be performed in the calendar year of the accident which causes the injury or in the next calendar year.
- Those to the extent they are not reasonable charges, as determined by Aetna.
- Reversal of a sterilization procedure.
- Service or supply furnished by a Preferred Care Provider in excess of such provider's Negotiated Charge for that service or supply. This exclusion will not apply to any service or supply for which a benefit is provided under Medicare before the benefits of the group contract are paid.
- All medical or hospital services not specifically covered in, or which are limited or excluded in the plan documents.
- Donor egg retrieval.
- Over-the-counter medications and supplies.
- Special duty nursing.
Claims Information

In-Network
When you receive services from a network provider, it is not necessary to file a claim. The provider is reimbursed directly from Aetna. You will receive an Explanation of Benefits (EOB) showing the details of the charges and benefits you received.

Out-of-Network
When you receive services from an out-of-network provider, you must pay for the visit and take the following steps to file a claim for reimbursement:

• Get an Aetna claim form by visiting the website for Human Resources (www.princeton.edu/hr), or by visiting your Human Resources Office in person.
• Complete and sign the Employee portion of the form.
• Have the provider complete the Provider portion of the form or enclose a provider bill which includes the information listed under claim submission below.
• Send the form and a copy of the provider’s bill to the address shown on the form.

When you submit a claim, you should make sure the bills and the form include the following information:

• Your name and social security number.
• Princeton University’s name and policy/group number (486819).
• The patient's name.
• The diagnosis.
• The date the services or supplies were incurred.
• The specific services or supplies provided.

All claims should be reported promptly. The deadline for filing a claim for any benefits is 90 days after the date of the loss causing the claim.

If, through no fault of your own, you are not able to meet the deadline for filing a claim, your claim will still be accepted if you file as soon as possible. Unless you are legally incapacitated, late claims will not be covered if they are filed more than 2 years after the deadline.

You may file claims for Plan benefits, and appeal adverse claim decisions, either yourself or through an authorized representative. If your claim is denied in whole or in part, you will receive a written notice of the denial from Aetna Life Insurance Company. The notice will explain the reason for the denial and the review procedures.
An authorized representative means a person you authorize, in writing, to act on your behalf. The Plan will also recognize a court order giving a person authority to submit claims on your behalf, except that in the case of a claim involving urgent care, a health care professional with knowledge of your condition may always act as your authorized representative.

_Urgent Care Claims_
If the Plan requires advance approval of a service, supply or procedure before a benefit will be payable, and if the Plan or your physician determines that it is an urgent care claim, you will be notified of the decision not later than 72 hours after the claim is received.

A claim involving urgent care is any claim for medical care or treatment with respect to which the application of the time periods for making non-urgent care determinations could seriously jeopardize the life or health of the claimant or the ability of the claimant to regain maximum function, or, in the opinion of a physician with knowledge of the claimant’s medical condition, would subject the claimant to severe pain that cannot be adequately managed without the care or treatment that is the subject of the claim.

If there is not sufficient information to decide the claim, you will be notified of the information necessary to complete the claim as soon as possible, but not later than 24 hours after receipt of the claim. You will be given a reasonable additional amount of time, but not less than 48 hours, to provide the information, and you will be notified of the decision not later than 48 hours after the end of that additional time period (or after receipt of the information, if earlier).

_Claims (Pre-Service and Post-Service)_
If the Plan requires you to obtain advance approval of a service, supply or procedure before a benefit will be payable, a request for advance approval is considered a pre-service claim. You will be notified of the decision not later than 20 days after receipt of the pre-service claim.

For other claims (post-service claims), you will be notified of the decision not later than 30 days after receipt of the claim.

For either a pre-service or a post-service claim, these time periods may be extended up to an additional 20 days due to circumstances outside the Plan's control. In that case, you will be notified of the extension before the end of the initial 20 or 30 day period. For example, they may be extended because you have not submitted sufficient information, in which case you will be notified of the specific information necessary and given an additional period of at least 45 days after receiving the notice to furnish that information. You will be notified of the Plan's claim decision no later than 20 days after the end of that additional period (or after receipt of the information, if earlier).
For pre-service claims which name a specific claimant, medical condition, and service or supply for which approval is requested, and which are submitted to a Plan representative responsible for handling benefit matters, but which otherwise fail to follow the Plan's procedures for filing pre-service claims, you will be notified of the failure within five (5) days (within 24 hours in the case of an urgent care claim) and of the proper procedures to be followed. The notice may be oral unless you request written notification.

How and When Claims are Paid
Aetna processes claims within 10 business days of the date of receipt. Reimbursement is made directly to you, except in the following cases:

- You have financial responsibility under a court order for a dependent's medical care, then Aetna will make payments directly to the provider of care.
- Aetna pays benefits directly to network providers.
- You request in writing that payments be made directly to a provider. You do this by signing the appropriate authorization when completing the claim form.

Once a month, Aetna will send an Explanation of Benefits (EOB) to you along with your reimbursement. The EOB will explain how Aetna considered each of the charges submitted for payment. If any claims are denied in whole or in part, you will receive an explanation.

Recovery of Overpayments
If a benefit payment is made by the plan, to you or on your behalf, which exceeds the benefit amount that you are entitled to receive, the plan has the right to require the return of the overpayment. The plan has the right to reduce by the amount of the overpayment, any future benefit payment made to or on behalf of a participant in the plan. Another way that overpayments are recovered is by reducing future payments to the provider by the amount of the overpayment. These future payments may involve this plan or other health plans that are administered by the plan’s third-party administrator — Aetna. Under this process, Aetna reduces future payments to providers by the amount of the overpayments they received, and then credits the recovered amount to the plan that overpaid the provider. Payments to providers under this plan are subject to this same process when Aetna recovers overpayments for other plans administered by Aetna.

This right does not affect any other right of recovery the plan may have with respect to overpayments.
Review Procedure for Denied Claims
When a claim for benefit payment is denied in whole or in part, you may appeal the denial. Please see the About Your Benefits section of this Summary Plan Description Handbook for an explanation of the claim review and appeal process.

Other Important Information

Coordination of Benefits
The PHP Plan utilizes a coordination of benefits feature that applies when an individual is covered under more than one health care plan. This feature determines which plan has primary responsibility for paying benefits and which plan has secondary responsibility. The secondary plan will only make a payment after the primary plan and only if it provides benefits in excess of the primary plan. For details about how the coordination of benefits works, please see the About Your Benefits section of this Summary Plan Description Handbook.

Your Rights Under ERISA
For information about your rights under the Employee Retirement Income Security Act (ERISA) and other important information, see the About Your Benefits section of this Summary Plan Description Handbook.

Reservation of Rights
The University reserves the rights to amend, suspend, or terminate its Aetna Princeton Health Plan (PHP) in whole or in part, at any time and for any reason. The University has full authority and discretion to construe, interpret and administer its plan. The plan is unfunded, and no employee or dependent shall have any right to, or interest in, any assets of the University which may be applied by the University to the payment of benefits. Neither the establishment of the plan, nor the provision of benefits to any person, shall be construed as giving an employee the right to be retained in the service of the University. The plan will be construed and enforced according to New Jersey State law.
