The Mechanical and Aerospace Engineering Department at The Hong Kong University of Science and Technology is rapidly expanding its educational and research profiles to establish aerospace engineering disciplines in the next few years. We are inviting applications for a number of tenure-track faculty positions, at full, associate and assistant professor levels, in the following areas:

- Aerodynamics, aeroelasticity
- Advanced materials, fatigue / creep and fracture
- Aerospace structures, smart structures
- Aircraft design
- Aircraft performance and control
- Combustion, gas turbine, propulsion
- Aviation systems, avionics

Please bring the announcement to the attention of potential candidates in your department.

Applicants should have an earned PhD degree in aerospace/aeronautical engineering or related engineering fields, and are expected to have recognized pertinent academic, research and/or industrial experience. The successful candidates are expected to develop strong, independent and innovative research programs and to teach aerospace/mechanical engineering courses at both undergraduate and postgraduate levels. Strong commitment to education is a basic requirement.

The University is committed to increasing the diversity of its faculty and has a range of family-friendly policies in place.

Salary is highly competitive and will be commensurate with qualifications and experience. Fringe benefits including medical and dental benefits, annual leave and housing will be provided where applicable. Appointment for Professor will be on substantive basis. Appointment for Assistant/Associate Professor will normally be on a three-year contract. A gratuity will be payable upon successful completion of contract.

Application Procedure

Applications together with curriculum vitae, a list of publications, a statement of teaching and research, the names and addresses of three referees should be sent by email to careers@ust.hk. Review of applications will begin as soon as possible, and continue until the positions are filled.

For information about the Department, please visit http://www.mae.ust.hk.

(Information provided by applicants will be used for recruitment and other employment-related purposes.)
