Processional

The audience will please rise when the faculty marshals enter.

Chief Marshal for University Convocations

Sandra L. Bermann

Marshals for Advanced Degrees

Susan T. Fiske

Douglas S. Massey

Marshals for Bachelor Degrees

Richard A. Register

Imani Perry

Candidates for Advanced Degrees

Marshal for Band and Bachelor Degrees

Robert A. Kaster

Candidates for Bachelor Degrees

Marshals for Faculty and Administration

Anne A. Cheng

Keith A. Wailoo

The Faculty and Administrative Officers

Associate Chief Marshal

Angela N. Creager

Marshal for Recipients of Honorary Degrees and Trustee Escorts

Eric S. Gregory

Recipients of Honorary Degrees and Trustee Escorts

The Trustees and Trustees Emeriti

Processional Guests

Mace-Bearer

Jeff E. Nunokawa

The Principals:

Associate Dean of Religious Life and of the Chapel

Theresa S. Thames

Dean of Religious Life and of the Chapel

Alison L. Boden

Dean of the College

Jill S. Dolan

Dean of the Graduate School

Sarah-Jane Leslie

Dean of the Faculty

Sanjeev R. Kulkarni

Provost

Deborah A. Prentice

University Orator

John D. Diekman

Chair of the Board of Trustees of Princeton University

Kathryn A. Hall

President

Christopher L. Eisgruber

Marshal for the Principals

J. Nicole Shelton

Marshal for Processional Guests and Trustees

Claire F. Gmachl

Invocation and Greeting

Alison L. Boden

Dean of Religious Life and of the Chapel

Christopher L. Eisgruber

President of the University

Latin Salutatory Oration

Katherine Marie Lim

The Latin salutatory is awarded by vote of the faculty to one of the highest-ranking candidates for bachelor degrees. The special qualifications of a student as salutatorian are taken into account, as well as scholastic standing.

Salutatio

Habita in Comitibus Academicis Princetoniae

In Nova Caesarea Non Iun

Die V Iunii

Ab Urbe Condita MMDCCCLXXI

Anno Communis Saeculi MMXVIII

Anno Academiae CCLXXI

Concede mihi, Musae, fortitudinem ut de proeliis et victoriis magnae classis nostrae canam quae per campum quattuor praeteritos annos vagata est.

Primum te saluto, praeses Eisgruber, princeps magnae universitatis in qua floruimus. Sub ductu tuo et eo curatorum, academia nostra prosperat.

Secundum vos saluto, honesti professores, duces periculosorum nostrorum itinerum per academica aspera. Ab Orientali Pyno ad Quadrangulum Scientiae Ingeniariae, sapientiam communicavistis ut mentes curiosas excoleretis.

Nunc, vos saluto, parentes et familiae, fautores scholasticorum conatum. Nisi vestrum amorem donavissetis, magnas altitudines ad quas pervenimus non ascendissemus. Summum pretium pendidistis ut nos huc emitteretis: nunc videte quid perfecimus.

Denique, vos saluto, condiscipuli, comites per matutinas auditiones et insomnes noctes. Coniunctim proelia gessimus cum multis libellis et agminibus problematorum— sed ecce! Vicimus omnes.

Nunc domo quae educavit in terras incognitas ultra magnam universitatem proficiscamur. Inveniatis prosperitatem quacunque vestra itinera tendatis. Sed primum victorias quattuor praeteritorum annorum celebremus.

In celebratione egregiorum factorum nostrorum, salvete omnes.

Secondary School Teaching Prizes

Recognition, by Provost Deborah A. Prentice, of recipients of prizes for distinguished secondary school teaching in the State of New Jersey.

Eleni Coyle

Tenaflly High School
Teacher of Science

Eleni (Helen) Coyle says her teaching philosophy is informed by her strong sense of responsibility toward all of her students, regardless of their ability, learning style, and background. Her colleagues describe her science classroom at Tenaflly High School as a “highly productive, innovative, and supportive environment in which students feel safe to challenge themselves and each other.” She continually integrates new content into their studies, adding breadth and freshness to what she and they learn together.

Irma Seltzer

Bergen County Academies
Teacher of Spanish

Spanish teacher Irma Seltzer believes that language is best taught when examined through the lenses of social relations, global issues, cultural diversity, and history. One of her colleagues at Bergen County Academies calls her “an innovative educator who truly believes in the importance of global citizenship and whose objective as an educator is to guide her students in becoming such.” Her impact extends beyond her classroom through the annual International Day of Acceptance assembly that she organizes to bring students and faculty together in celebration of acceptance.

Sean Turkington

Ridgewood High School
Teacher of Mathematics

Sean Turkington has been teaching mathematics at Ridgewood High School for 14 years. In his words, “I try to be the teacher I would like everybody to be. I try to pitch a perfect game.” His colleagues call him the “go-to guy” of the department. Students in his calculus classes commend his manner of teaching; they say he has a natural gift for making mathematics exciting. His manner of teaching is to treat all of his students as thinking, capable people, and to put the principal onus of responsibility on them to take charge of their learning.

Christene Willitts

Lenape High School, Medford
Special Education Teacher

Christene Willitts was brought to Lenape High School for the express purpose of establishing a program for autistic students. The goal of the program is to provide a smooth transition for the students as they build skills that enable them to lead productive lives. One of her colleagues explained that she “has a way of knowing her students’ limits and identifying strategies to push them”; she also knows their capabilities, and she reinforces and develops them. She has made her students an integral part of the school community – they feel valued, they contribute, and they belong.

Bachelor Degrees

Presentation to the president, by Dean of the College Jill S. Dolan, of candidates for bachelor degrees; conferral of the degrees by the president.

Bachelor of Arts

DEGREE AWARDED
16 SEPTEMBER 2017

Brandon Matthew Allen, *Politics*
Anthony Hunter Gabb, *History*
Julian Alexander Mackrel, *Music*
Natasha Elizabeth Madorsky, *Near Eastern Studies*
Miranda Elizabeth Moore, *Mathematics*
Adriana Alexis Rexon, *Near Eastern Studies*
Javon Micah Etienne Ryan, *Classics*
Cara Zampino, *Spanish and Portuguese*

DEGREE AWARDED
18 NOVEMBER 2017

Jean-Paul Ceballo, *Philosophy*
Philip Constantine Andreas Dinenis, *Mathematics*
Obinna Chijioke Iregbu, *Molecular Biology*

DEGREE AWARDED
20 JANUARY 2018

Jacob Patrick Hanner Arluck, *History*

DEGREE AWARDED
14 APRIL 2018

Grayson Douglass Shepperd, *Art and Archaeology*

Valedictory Oration

Kyle Michael Berlin

The valedictory is awarded by vote of the faculty to one of the highest-ranking candidates for bachelor degrees. The special qualifications of a student as valedictorian are taken into account, as well as scholastic standing.

Advanced Degrees

Presentation to the president, by Dean of the Graduate School Sarah-Jane Leslie, of candidates for advanced degrees; conferral of the degrees by the president.

Master of Arts

Quin Morton Graduate Teaching Award for Instructors in the Princeton Writing Program

Morgan Jean Robinson, *History*

The President's Awards for Distinguished Teaching

Recognition, by Dean of the Faculty Sanjeev Kulkarni, of recipients of awards for sustained records of excellence in undergraduate- and graduate-level teaching by Princeton University faculty members.

Eduardo L. Cadava

Professor of English

His colleagues note that Eduardo Cadava is recognized as one of the most dedicated, innovative, and inspirational teachers in the humanities at Princeton. His undergraduate students describe him as “brilliant, inspiring, indefatigable, and one of the rare teachers who serves to teach his students outside of the classroom as much as he does inside.” His pedagogical interdisciplinary reach is unsurpassed; over his 30 years at Princeton, he has taught or cross-listed courses in at least 10 other departments. Professor Cadava is dedicated to making the University community one in which learning and growth for all students is always paramount.

Casey Lew-Williams

Assistant Professor of Psychology

A 2018 alumnus unequivocally says that Casey Lew-Williams is the definition of a distinguished educator. A developmental psychologist, he studies language acquisition and co-directs the Princeton Baby Lab, which examines how babies and young children learn to see, talk, and understand the world. He boasts a portfolio of innovative research and outstanding mentoring, and never hesitates to serve his department and the whole University. His colleagues in psychology suspected he would be a great teacher when he was hired, but he's more than exceeded their expectations. His passion for his students' learning exemplifies the best of teaching at Princeton.

Martin F. Semmelhack

Professor of Chemistry

Martin Semmelhack has inspired generations of students throughout his four decades at Princeton. He has taught countless undergraduates organic chemistry, a field that requires them to understand and communicate with a new language based on molecular structures. His colleagues admire his ability to capture the magic of organic chemical reactions in ways that are easily understood by beginning students. His stellar teaching record indicates that he has been unusually effective. A former student says, “Professor Semmelhack is a teacher who transcends the classroom and, analogous to many of his organic chemistry equations, transforms eager young minds into intellectually curious and rigorous scientists.”

Jacqueline I. Stone

Professor of Religion

Jacqueline Stone teaches courses in Buddhism and Japanese religions. A colleague notes that Professor Stone's course “Buddhist World of Thought and Practice” has “become vital at Princeton. . . . The true gauge of the success of this course is Stone's gentle and careful work to move students beyond what might be an initial romance with Buddhism and to immerse them in a complex world of religion, history, and culture.” In addition to her innovative teaching, she receives accolades for how she guides students' independent work. One graduate alumnus says, “There is really no other way to say it: Jacqueline Stone is simply the best adviser on the planet.”

Retirements

Recognition, by Dean of the Faculty Sanjeev R. Kulkarni, of the retiring members of the faculty, administration, and staff.

Faculty

Peter P. Brooks, *Lecturer with the Rank of Professor in Comparative Literature and University Center for Human Values*
Frank P. Calaprice, *Professor of Physics*
Jane Flint, *Professor of Molecular Biology*
John F. Haldon, *Shelby Cullom Davis '30 Professor of European History; Professor of History and Hellenic Studies*
Gilbert H. Harman, *James S. McDonnell Distinguished University Professor of Philosophy*
Robert A. Kaster, *Kennedy Foundation Professor of Latin Language and Literature; Professor of Classics*
Elliott H. Lieb, *Eugene Higgins Professor of Physics; Professor of Mathematical Physics*
Manuel-Angel G. Loureiro, *Professor of Spanish and Portuguese*
François M.M. Morel, *Albert G. Blanke, Jr., Professor of Geosciences; Professor of Environmental Institute*
Thomas Romer, *Professor of Politics and Public Affairs*
Gertrud M. Schüpbach, *Henry Fairfield Osborn Professor of Biology; Professor of Molecular Biology*
Alexander J. Smits, *Eugene Higgins Professor of Mechanical and Aerospace Engineering*
Jeffrey L. Stout, *Professor of Religion*
Gang Tian, *Eugene Higgins Professor of Mathematics*
Edmund V. White, *Professor of Creative Writing in the Lewis Center for the Arts*
Christian Wildberg, *Professor of Classics*

Richard William Yager, *Experimental Technician III, Princeton Plasma Physics Laboratory*

Stewart Jay Zweben, *Principal Research Physicist, Princeton Plasma Physics Laboratory*

Honorary Degrees

Presentation to the president of the candidates for honorary degrees by the University Orator and Trustee, John D. Diekman, Class of 1965. Conferral of the degrees by the president.

Rev. Gregory Boyle, S.J.

Doctor of Humane Letters

Father Gregory Boyle is the founder of Homeboy Industries in Los Angeles, the largest gang intervention, rehabilitation and re-entry program in the world. The organization, established in 2001, is an independent nonprofit that provides critical services to around 15,000 men and women every year. Father Boyle entered the Society of Jesus (the Jesuits) in 1972 and was ordained a Catholic priest in 1984. From 1986 to 1992, Boyle served as pastor of Dolores Mission Church in East Los Angeles, an area with the highest occurrence of gang violence in the city. Working with parish and community members, Boyle focused on turning the tide against mass incarceration by treating gang members as human beings. This led to the founding in 1988 of Jobs for a Future, which offered an alternative school and day care program and helped youth seek employment. After the 1992 riots in Los Angeles, Jobs for a Future and Proyecto Pastoral, a community-organizing project started at Dolores Mission, launched their first social enterprise business in an abandoned bakery — called Homeboy Bakery — which supported the groundwork for Homeboy Industries. Boyle is the author of the 2010 award-winning book *Tattoos on the Heart: The Power of Boundless Compassion* and the 2017 Los Angeles Times bestseller *Barking to the Choir: The Power of Radical Kinship*. He received the California Peace Prize and was inducted into the California Hall of Fame. In 2014, the White House named him a “Champion of Change.” Boyle received the 2016 Humanitarian of the Year Award from the James Beard Foundation and the University of Notre Dame’s 2017 Laetare Medal. Last year he was the Judith H. Rawson and Robert Rawson Distinguished Visitor at Princeton’s Woodrow Wilson School of Public and International Affairs.

Gonzaga University (B.A., 1977); Loyola Marymount University (M.A., 1985); Weston School of Theology (M.Div., 1984); Jesuit School of Theology at Berkeley (S.T.M., 1985)

As a young priest in East Los Angeles, he found himself in a parish racked with gang violence and scarred by poverty, addiction, and despair. He learned that while he could not dispel this darkness on his own, he could help others “turn the light switch on” by creating alternatives to gangs in the form of social enterprises, grounded in human solidarity and buttressed by rehabilitative services. Beginning with a bakery in 1992, Homeboy Industries has empowered thousands of onetime gang members to redirect their lives and, like its founder, is now a source of inspiration throughout the country and the world.

Lonnie Bunch III

Doctor of Humane Letters

Lonnie Bunch is the founding director of the Smithsonian’s National Museum of African American History and Culture. He played a crucial role in establishing the museum’s mission, coordinating its fundraising and membership campaigns, developing its collections, and establishing its cultural partnerships. He designed a high-profile program of traveling exhibitions and public events, including the *Changing America* exhibition being shown at 50 venues across the country this year. The “Save Our African American Treasures” program he established features daylong workshops where participants work with conservation specialists and historians to learn about identifying and preserving items of historical value. Previously, Bunch was president of the Chicago Historical Society, and before that he was the first curator at the California African American Museum and a curator at the Smithsonian’s American History Museum. He has written several books, including *Black Angelenos: The African American in Los Angeles, 1850–1950*. Last year, he received the President’s Award from the National Association for the Advancement of Colored People. In 2016, he was honored with the Visionary Historian Award from the Historical Association of Washington, D.C.

American University (B.A., 1974; M.A., 1976)

In the study of history he found his muse and his mission — to give voice to the voiceless and to make visible the invisible. As founding director of the National Museum of African American History and Culture, he raised the necessary funds, collected nearly 40,000 objects, and secured a site on the national Mall, a place where slaves once toiled and where King once dreamed. With vision, perseverance, diplomacy, and what President Barack Obama called his “street smarts,” he created a magnificent space which tells the American story through the African American lens. We are proud to honor this curator of a people’s journey, “just a kid from Jersey,” as he calls himself, who has shown us how to “use history to make America better.”

Robert Geddes

Doctor of Fine Arts

Robert Geddes, the William R. Kenan, Jr., Professor of Architecture, Emeritus, joined Princeton’s faculty in 1965 as dean of the School of Architecture. Geddes served as dean for 17 years before retiring in 1989. Under his leadership, the school emerged as a major center for the exchange of architectural ideas, while retaining its small size and close ties with the rest of the University. Geddes connected architecture with the humanities and social sciences, and with public affairs and urban design. He co-founded a collaborative practice, Geddes Brecher Qualls & Cunningham: Architects, in Philadelphia and Princeton, which won several national and international design competitions, including for the Vienna South-Urban Extension in Austria, the Birmingham-Jefferson Civic Center in Alabama, and the home for seniors, Architects Housing

Company, in Trenton, New Jersey. The firm also designed several buildings at universities in the United States, and in the Princeton area it designed the dining hall quad at the Institute for Advanced Study and Princeton Community Housing's Griggs Farm neighborhood. Geddes is a fellow of the American Institute of Architects (AIA) and the National Academy of Design. In 1979, GBQC was awarded the highest professional honor of AIA, the Architectural Firm Award, for "design quality, respect for the environment, and social concern." Geddes was the urban design consultant for the Center City Plan of Philadelphia (1988) and the Third Regional Plan of New York for the Regional Plan Association (1996). He received the AIA/ACSA Award for Excellence in Architectural Education in 1984.

Harvard University (M.Arch., 1950)

A gifted architect and teacher, he practiced and taught architecture as a social art engaged in the design of the human environment. As the first dean of Princeton's School of Architecture, he heightened its eminence and distinctiveness, expanded its scope, broadened its curriculum, and deepened its connections with the humanities, social sciences, and public affairs. His "Princeton Report" for the American Institute of Architects changed the structure of architectural education in the United States by galvanizing these kinds of cross-disciplinary connections. His buildings express his deep understanding of the human experience and a prodigious environmental sensitivity; they serve as artful lessons in shaping the built environment.

R. Barbara Gitenstein

Doctor of Laws

R. Barbara Gitenstein has more than 40 years of experience as a professor and administrator in the public and private sectors of higher education. Since 1999, she has served as president of The College of New Jersey, the first woman to have that role in TCNJ's 160-year history. She came to TCNJ from Drake University, where she was provost and executive vice president. During her tenure at TCNJ, Gitenstein has focused on enhancing academic rigor and faculty-student engagement, raising the four-year graduation rate, investing in campus amenities and facilities, and boosting alumni support. A scholar of Jewish and American literature, Gitenstein is the author of *Apocalyptic Messianism and Contemporary Jewish-American Poetry*. She serves on the Board of Directors for the American Council on Education and on the Executive Board of the New Jersey Presidents' Council, and she previously chaired the Middle States Commission on Higher Education, the body that accredits colleges and universities in the mid-Atlantic region, including Princeton. Gitenstein has supported the professional advancement of women throughout her career. Among her honors, she was recognized in 2009 by the Women's Caucus of New Jersey as a Woman of Achievement.

Duke University (B.A., 1970); University of North Carolina (Ph.D., 1975)

This visionary leader is the first woman to serve as president of The College of New Jersey in the institution's 160-year history. Determined to provide her students with the highest caliber academic experience,

she has led transformative efforts to improve TCNJ's four-year graduation rate, which now ranks among the highest in the nation for public colleges and universities. On a national level, she has been a steadfast advocate for academic rigor, high standards, and expanded educational opportunity. Throughout her career, as a scholar of Jewish and American literature and as an insightful administrator, she has demonstrated the power of education to change lives and change the world.

Carla Diane Hayden

Doctor of Humane Letters

Carla Diane Hayden was sworn in as the 14th Librarian of Congress on Sept. 14, 2016. She is the first woman and the first African American to lead the national library. Previously, she was CEO of the Enoch Pratt Free Library in Baltimore for more than 20 years. She began her library career in 1973 at the Chicago Public Library, where she held several positions, including as deputy commissioner and chief librarian. She taught at the University of Pittsburgh and also worked at the Museum of Science and Industry in Chicago. When she served as president of the American Library Association from 2003 to 2004, her theme was "equity of access." In 1995, she received the Library Journal's Librarian of the Year Award in recognition of her outreach services at the Pratt Library, which included an after-school center for Baltimore teens offering homework assistance and college and career counseling.

Roosevelt University (B.A., 1973); University of Chicago Graduate Library School (M.A., 1977; Ph.D., 1987)

Amid the unrest following the death of Freddie Gray in 2015, she kept the doors open at Baltimore's Enoch Pratt Free Library, providing a safe haven for a community in distress. During her more than two decades at Pratt, she modernized and revived the 22-branch library system, making it a home for people from all walks of life. In 2016, she became the first person of color and the first woman to serve as the Librarian of Congress. A descendent of people once denied the right to read — and punished for trying — she now leads the country's national symbol of knowledge. Heralded as a "librarian freedom fighter," she champions open access to information and education for all.

A Commentary on Commencement

Remarks by the President

Christopher L. Eisgruber

Benediction

Theresa S. Thames

Associate Dean of Religious Life
and of the Chapel

Alma Mater

Old Nassau

Tune ev'ry heart and ev'ry voice,
Bid ev'ry care withdraw;
Let all with one accord rejoice,
In praise of Old Nassau.

In praise of Old Nassau, we sing,
Hurrah! Hurrah! Hurrah!
Our hearts will give
while we shall live,
Three cheers for Old Nassau.

Recessional

*The audience will please remain in place
until the academic procession returns to
the staging area behind Nassau Hall.*

AVETE ATQVE VALETE

In Memoriam

The University remembers here with great sadness a student who entered Princeton with the Class of 2018, and whose untimely death occurred during his years at Princeton.

Jacob Kaplan, *Whitman College*

Princeton traces its founding to a royal charter granted on October 22, 1746, by King George the Second of England. The first Commencement Exercises were held in 1748, in Newark, then home of the College of New Jersey, as Princeton was originally called. Six students were graduated at the first Commencement. One of Princeton's first graduate students was James Madison 1771, later the fourth president of the United States. He remained at the college after graduation to continue his studies with President John Witherspoon, who was the only college president as well as the only clergyman to sign the Declaration of Independence. Systematic graduate instruction began in the 1870s, and the Graduate School, as it is known today, was formally organized in 1900.

Princeton's Commencements have been held in late spring only since 1844. Before then the ceremony took place in the fall because the College was in session all summer long. Since the College moved to Princeton in 1756, Commencement has been held in a variety of locations on or near campus, including Alexander Hall, the First Presbyterian Church, and Nassau Hall, but since 1922 the front lawn of Nassau Hall (known as front campus) has been the site of Commencement, weather permitting.

The Commencement Setting

Guests at a Commencement held on front campus visit historic ground. The word "campus" defined to mean the grounds of a college was first used at Princeton University. "Front campus" is used to refer to the lawn in front of Nassau Hall, Princeton's oldest building and a registered national historic landmark. The largest academic structure in the Colonies, Nassau Hall provided, for nearly one-half century after its completion in 1756, all the facilities of the College—classrooms, bedrooms, refectory, library, and prayer hall.

Nassau Hall was the scene of an unsuccessful stand of the British in the crucial Battle of Princeton in 1777. In the spring of 1779, when the farm called Prospect just behind Nassau Hall was owned by a retired Indian agent, its campus border (now McCosh Walk) was home to an encampment of Delaware

sachem. These Native American leaders, here at the behest of the Continental Congress, presented three young Delaware Indians for education in Nassau Hall at Congress's expense—making the education of American Indians at Princeton the first instance of U.S. federal aid to education.

Nassau Hall was once the Capitol of the country: The Continental Congress met in its library room for four months in 1783. In its prayer hall, Washington received the thanks of Congress for his conduct of the war.

To the north—behind the spectator facing Nassau Hall—is FitzRandolph Gate, named in honor of Nathaniel and Rebecca FitzRandolph, who donated the land on which Nassau Hall was built.

To the west is the John Maclean House, built as a home for the president when Nassau Hall was constructed in 1756. It is named for Princeton's 10th president, who lived there between 1854 and 1868. Ten of Princeton's first 11 presidents, until 1879, lived in the house. It was the residence of deans of the faculty between 1883 and 1967 and became the headquarters of the Alumni Council in 1968. The sycamore trees in the front yard are known as "the Stamp Act Trees" because they were planted in 1765, the year the Stamp Act was repealed.

Behind Maclean House is Stanhope Hall, the University's third-oldest building, erected in 1803. Its architect was Benjamin Latrobe, who also designed the Capitol in Washington and supervised the reconstruction of Nassau Hall after a disastrous fire in 1802. Stanhope Hall is now home of the Department of African American Studies.

To the east is the Joseph Henry House, the home of the University's Society of Fellows in the Liberal Arts and the Humanities Council. It was built in 1837 for Joseph Henry, professor of natural philosophy and a pioneer experimenter in electromagnetism. Originally built to the south of Stanhope Hall, the house was relocated twice before being moved to its present location in 1946 to make way for Firestone Library. Professor Henry sent messages over a wire several years before Morse perfected the telegraph for commercial use. He later became the first secretary of the Smithsonian Institution in Washington, D.C.

Flanking the front steps of Nassau Hall are two bronze tigers that were given to the University in 1911 by the Class of 1879. The tiger has been a symbol of Princeton since the latter part of the 19th century.

On the Commencement platform, front and center, is a replica of the University's seal, which is the corporate signature of the Trustees (it is also reproduced on the cover of this program). Today's ceremony is a continuation of a regular Board meeting that was adjourned yesterday "to reconvene on front campus," to permit the Trustees to confirm undergraduate, advanced, and honorary degrees at this public ceremony.

The current seal was adopted in 1896 when, at the Sesquicentennial of its founding, the College of New Jersey became Princeton University. The Trustees' minutes of February 13, 1896, describe the seal as follows: "... a shield resting upon a circle. In the upper part of the shield an open Bible with Latin characters VET NOV TESTAMENTUM signifies the Old and New Testaments.... In the lower part a chevron, denoting the rafters of a building. In the spaces between the sides of the shield and the circle the motto DEI SUB NUMINE VIGET (Under God's power she flourishes). On the outside of the circle SIGILLUM UNIVERSITATIS PRINCETONIENSIS (the seal of Princeton University)."

The front campus is of particular importance to alumni of the University. It is where students become alumni at Commencement and where alumni assemble for the annual P-rade at Reunions just prior to Commencement. During a special Charter Day convocation to celebrate the University's 250th anniversary a plaque was placed in the center of front campus, where the crosswalks meet, to recognize the many and diverse contributions of alumni. The inscription on the plaque reads, "Princeton University here records its gratitude to its alumni for their devotion to the University and its mission of education, scholarship and service." The plaque also includes the University's informal motto: "Princeton in the Nation's Service and the Service of Humanity."

In the early 19th century, graduating classes began installing class stones on Nassau Hall. In recent years the University architect determined that the building was reaching its capacity. Beginning with the Class of 2018, class stones will be installed

on the walkways leading to Nassau Hall from the plaque in the center of the front campus. Joining the Class of 2018 in this first year of this new tradition are the 17 classes from the past hundred years that do not have stones on Nassau Hall.

The Academic Procession

The academic procession is led by the chief marshal, a member of the faculty appointed to this position by the president. The forming of the procession, the seating of Commencement participants, and other aspects of Commencement Exercises are managed by the faculty marshals and the assistant marshals. Faculty marshals are identified by their unique orange gowns and black 16th-century caps, as is the mace-bearer, who carries the ceremonial mace in the academic procession. Assistant marshals, who are members of various University staffs, wear academic gowns and distinctive orange-and-black Da Vinci caps; student ushers wear academic gowns with orange piping and no hoods.

Advanced degree candidates, receiving masters' or doctoral degrees, come first in the procession. They received their academic hoods at a Graduate School ceremony yesterday. They are preceded by a gonfalon, a decorative banner representing the "coat of arms" of the Graduate School. Seniors come next, also preceded by gonfalons, for each of Princeton's six undergraduate residential colleges.

Since 1982, residential colleges have been the center of residential life for first-year students and sophomores. In fall 2007, with the opening of Whitman College, the University inaugurated an expanded residential college system that includes three four-year colleges and pairs them with three two-year colleges. Juniors and seniors may live in the residential colleges and even upperclass students who do not live in the colleges remain associated with them. Each college has a faculty head, dean, director of studies, and director of student life, as well as residential college advisers, who are upperclass students, and resident graduate students. Academic advising for first-year students and sophomores is centered at the colleges, and juniors and seniors also are encouraged to confer with their college advisers for non-departmental advising throughout their undergraduate careers.

Following Commencement Exercises today, seniors will receive their diplomas in their residential college (see Diploma Distribution Events below).

Following degree candidates in the procession are members of the platform party including members of the faculty and senior administration, Trustees and special award winners, heads of neighboring institutions of higher learning, and the mayor of Princeton. At the end of the procession are the chair of the Board of Trustees and the president of the University, led by the faculty mace-bearer. The mace was presented to the University by the citizens of Princeton in 1956, on the occasion of the 200th anniversary of the opening of Nassau Hall. It symbolizes the authority of the president of the University as well as the close relationship that has existed between the University and the community ever since the College was first invited to move to Princeton in 1752. The mace's silver headpiece is dominated by the eagle of freedom surmounting the orb of power—a traditional American pattern. Directly below is the seal of the University, encircled by ivy. The ebony staff is fluted to symbolize the fasces of authority. A half-staff circlet of silver is decorated with the seals of the United States and the State of New Jersey, and also of Great Britain, under whose authority the first charter was granted in 1746.

The president of the University wears a special gown, symbolic of that office and of the institutional continuity it represents. The gown is black, trimmed with gold, and faced with the orange of Princeton and of the House of Nassau. The 19 bands of gold lacing on the sleeves of the gown represent the 20 presidents who have guided Princeton since its founding. In order of succession they are Jonathan Dickinson; Aaron Burr Sr.; Jonathan Edwards; Samuel Davies; Samuel Finley; John Witherspoon; Samuel Stanhope Smith; Ashbel Green; James Carnahan; John Maclean; James McCosh; Francis Landey Patton; Woodrow Wilson; John Grier Hibben; Harold Willis Dodds; Robert Francis Goheen; William Gordon Bowen; Harold Tafler Shapiro; Shirley M. Tilghman; and Christopher L. Eisgruber, who assumed office July 1, 2013.

Academic Dress and Custom

Three major levels of academic achievement are represented by different types of gowns. The doctoral gown is distinguished by its bell-shaped sleeves. Although some universities prescribe a solid color such as red, crimson, or green for their doctoral gowns, in the United States most are black. In some cases the gown's trim matches the edging of the hood, thus indicating the profession or field of major interest. The master's gown is black without trim and is identified by the shape of the oblong sleeve, square at the end and sealed, so that the upper part of the arm comes through a slit in the sleeve. The bachelor's gown, made of black material, has long, pointed sleeves. The gown is generally worn closed. Thanks to the efforts of students, the Graduate School, and the Office of Sustainability, the cap, gown, and tassel for bachelor's and master's degree candidates are made from 100 percent recycled materials and can be recycled after graduation at designated sites throughout campus.

Because members of the Princeton University faculty completed their graduate work at many different educational institutions in this country and abroad, there will be a variety of raiment in today's procession. Some degree holders wear no hood because their academic robe itself symbolizes the degree awarded (witness the scarlet gown of Oxford).

The length and shape of the academic hood and the width of its velvet edging help to identify the level of the degree that the wearer has earned. Sometimes velvet edging is used to indicate the field or discipline in which the degree was granted. Some examples of colors assigned to different disciplines are: dark blue, philosophy; light blue, education; peacock blue, public affairs; brown, fine arts or architecture; copper, economics; green, medicine; orange, engineering; pink, music; purple, law; scarlet, divinity or theology; white, arts, humanities, or letters; golden yellow, science or science in engineering.

The lining of the academic hood provides added color and gives further meaning to most academic costumes. The black shell of the hood, varying in size for each of the three kinds of degrees,

is lined with the official color (or colors) of the college or university conferring the degree. More than one color is often shown by the use of the chevron or by an equal division of school colors.

Caps, generally mortarboards with tassels, have their own significance. Some foreign degree holders wear special hats, distinctive to their degree and institution. Master's and bachelor's tassels are black, while the doctor's tassel may be black or gold. The doctoral cap may be made of velvet.

The Use of Latin

In 1748 the exercises were conducted entirely in Latin. Besides the address by the salutatorian "performed in good Latin from his Memory in a handsome oratorical Manner," there were also "publick Disputations in Latin" by all six candidates for the bachelor's degree on six separate questions in philosophy and theology, and "an elegant Oration in the Latin Tongue, delivered memoriter," by Aaron Burr Sr., the second president of the College. Today, Latin is still used by the president in the conferring of degrees and by the salutatorian. Degrees are conferred under the authority of the president and the Trustees, as established in the charter. In token thereof, the president and Trustees wear caps when conferring degrees. Each time a dean or the University orator puts on a cap and goes to the lectern to present candidates for degrees, the Trustees also put on their caps. The president makes appropriate remarks and tips his cap to signify the formal conferral of the degree.

The Latin used by the president in the conferring of degrees is simple and straightforward: *Auctoritate mihi a curatoribus Vniversitatis Princetoniensis commissa, vos ad gradum primum in artibus et cum honoribus, ut indicatum est, admitto.* "By the authority vested in me by the Trustees of Princeton University, I admit you to the degree of bachelor of arts, with honors as indicated." The same formula is used for all the other degrees with appropriate amendments.

The Latin Salutatory and the Valedictory

The Latin salutatory is the oldest Commencement honor, dating to the first Commencement in 1748. Some of the most distinguished members of the Princeton faculty were former salutatorians,

including Henry Burchard Fine, Henry van Dyke, Allan Marquand, William Berryman Scott, Henry Norris Russell, and President Emeritus Robert Francis Goheen.

The valedictory was first awarded as a graduation honor in 1760. Probably the greatest moment ever experienced by a Princeton valedictorian was the one enjoyed by Ashbel Green in 1783. The Continental Congress held some of its meetings that year in the library room of Nassau Hall. It adjourned its sessions to attend Commencement. Green concluded his valedictory with an address of some length to George Washington, who was present. "The next day," Green later recorded, "General Washington met me in the entry of the College as he was going to a committee-room of Congress, took me by the hand, walked with me a short time, flattered me a little, and desired me to present his best respects to my classmates, and his best wishes for their success in life. There has never been such an audience at a Commencement before and perhaps there never will be again." Later, in 1812, Ashbel Green became Princeton's eighth president.

Academic Honors

Membership in Phi Beta Kappa is based on general academic performance throughout the college course and through election by the society. Membership in Sigma Xi is accorded in science and engineering. Undergraduates who show promise in scientific and engineering research are elected to associate membership. The national engineering society, Tau Beta Pi, has a chapter at Princeton to which certain candidates for the B.S.E. degree are admitted in recognition of superior scholarship.

The first honorary degree given by Princeton was master of arts honoris causa, conferred at the first Commencement upon Jonathan Belcher, governor of the Province of New Jersey and promoter and benefactor of the College, who secured its second charter. The Trustees sought to honor him further in 1756 by proposing to name the College's first building for him. He declined and suggested instead that it be named in honor of William III, "a branch of the illustrious House of Nassau."

Today candidates for honorary degrees are selected by a committee made up of Trustees and members of the University community. The criteria used in the

committee's deliberations include genuine achievement and distinction in an activity consonant with the mission of the University; the advancement of learning in the arts, sciences, and technology, and for the public welfare; and distinguished contribution in elective, appointive, or career service notable for demonstrated qualities of intellect as well as character. Candidates must be approved by a vote of four-fifths of the Board of Trustees present and voting.

Music for Commencement

Music for today's Commencement is provided by members of the Chamber Orchestra of Philadelphia, conducted by Paul Erion. Selections for the pre-Commencement concert may include Paul Dukas' Fanfare from "La Peri"; Paul Erion's arrangements of George Frideric Handel's "Music for the Royal Fireworks" and Richard Wagner's "Elsa's Procession to the Cathedral"; and Gustav Holst's own arrangement for band of "Jupiter" from "The Planets."

During the procession, you will hear classics from the British military band repertory: Holst's "Suites 1 and 2 for Military Band," Ralph Vaughan Williams' "Folk Song Suite," and William Walton's "Crown Imperial March," the last composed for the coronation of King George VI. The recessional music includes Donald Hunsberger's arrangement of Dmitri Shostakovich's "Festive Overture," and concludes with marches by John Philip Sousa.

At the close of today's program, "Old Nassau" will be led by members of the senior class Jenny El-Fakir, Shobhit Kumar and Beth Wang.

President of the University *Christopher L. Eisgruber*

Christopher Ludwig Eisgruber was elected Princeton University's 20th president on April 21, 2013, and assumed office on July 1, 2013. A renowned constitutional scholar, he served as a member of the Princeton faculty for 12 years and as Princeton's provost for nine years before being named president.

Eisgruber received his A.B. in physics from Princeton in 1983, graduating magna cum laude and Phi Beta Kappa. He then earned an M.Litt. in politics at the University of Oxford as a Rhodes Scholar, and a J.D. cum laude at the University of

Chicago Law School, where he served as editor-in-chief of the law review. After clerking for U.S. Court of Appeals Judge Patrick Higginbotham and U.S. Supreme Court Justice John Paul Stevens, he taught at New York University's School of Law for 11 years.

In 2001, Eisgruber joined the Princeton faculty as the director of the Program in Law and Public Affairs and the Laurance S. Rockefeller Professor of Public Affairs in the Woodrow Wilson School of Public and International Affairs and the University Center for Human Values. He directed Princeton's Program in Law and Public Affairs from 2001 to 2004, and he served for a year as acting director of the Program in Ethics and Public Affairs in 2002–03.

In addition to writing and editing several books and publishing numerous articles on constitutional issues, Eisgruber has testified multiple times before legislative bodies on the issue of religious freedom. His books include *Constitutional Self-Government* (2001); *Global Justice and the Bulwarks of Localism: Human Rights in Context* (edited with Andras Sajó, 2005); *Religious Freedom and the Constitution* (with Lawrence Sager, 2007); and *The Next Justice: Repairing the Supreme Court Appointments Process* (2007). In 2014, he was elected to membership in the American Academy of Arts and Sciences.

PLEASE NOTE

Photographs

Professional University photographers take pictures of graduates and all graduation events. At Commencement, photographers are stationed by FitzRandolph Gate to take pictures of graduates exiting front campus. All photographs are posted on the University website by the end of the week and can be downloaded for free courtesy of the University. Visit: www.princeton.edu/pr/gradpics/2018.

Due to vehicle traffic along Nassau Street and concerns for public safety, guests who try to stand by the front gates or in the walkways will be asked to return to their seats.

Diploma Distribution

Advanced degree candidates who were granted degrees this June may pick up their diplomas in back of Alexander Hall, next to the APGA reception tent for advanced degree candidates.

Seniors receive their diplomas in their residential colleges. There are shuttle buses to the colleges, and from the colleges to the parking garage. Buses stop by Alexander Hall, next to front campus where Commencement takes place (if Commencement is moved to Jadwin Gym because of severe weather, buses will be available from the gym to the colleges).

Severe Weather

In case of severe weather when Commencement is held outdoors, Public Safety recommends that you take shelter quickly; Dillon Gymnasium on the west side of campus and the University Chapel on the east side of campus are the easiest locations to access. Look for assistant marshals (in orange hats) and Public Safety officers for directions.

Restrooms

Restrooms are located on the west side in Alexander Hall; in Morrison Hall; on Alexander lawn near Dod Hall; on the east side in Chancellor Green; and near East Pyne and Whig Hall.

Drones

All uses of drones and aerial photography by any means are prohibited.
