 - ▣ 70.2%
- Life Expectancy
 - ▣ 55 years
- Infant mortality rate
 - ▣ 82/1000 live births
- External debt
 - ▣ \$1.61 billion

Energy for Opportunity

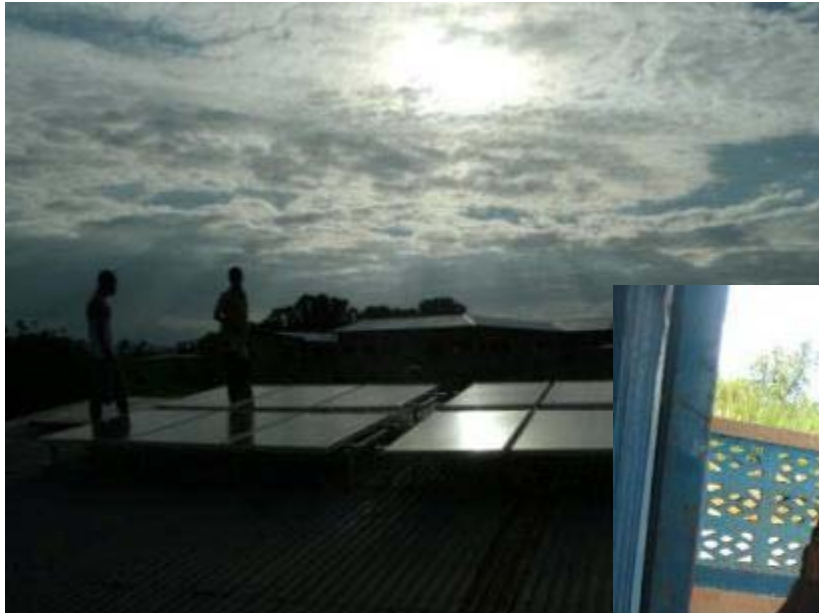

Energy For Opportunity is a non-profit organization dedicated to the promotion of solar energy across the West African Region. Focusing on the key areas of health, education, livelihoods and skills training, Energy For Opportunity with the strategic implementation of solar installation projects, seeks to make a difference in the daily lives of communities in the region. We believe that through our work with the people of West Africa we can create greater opportunities for the future.
