

Bethany Bradley
Pedagogical Training

Sheridan Center for Teaching and Learning

Teaching Consultant 2003-2006

- Trained to assess teaching practices of fellow graduate students in the classroom setting
- Provided comments and suggestions on teaching during a follow-up meeting

Certificate III: Professional Development Seminar 2005

Geology Teaching Liaison 2003-2005

- Organized micro-teaching sessions and teaching related activities for the department

Certificate 1: Sheridan Teaching Seminar 2003

Brown University Writing Center

Writing Center Staff 2003-2005

- Worked with undergraduate and graduate students to revise papers with a focus on organization and clarity

Women in Science and Engineering

Geology Department Graduate Representative 2004-2005

- Helped organize lunch discussions for graduate student women
- This experience strongly influenced my desire to be a mentor for other women in geosciences

Other Activities

Teaching Science to 4th Graders 2005

- Participated in an outreach program to local 4th grade classrooms to teach science
- Developed curricula to teach students about light and color and the greenhouse effect

National Association of Geoscience Teachers 2005

- Participated in a three day workshop for advanced graduate students on geoscience teaching and professional development

DISCCRS III: Dissertation Initiative for the Advancement of 2007

Climate Change Research

- Participated in a week long symposium designed to bring together recent PhDs with inter-disciplinary interests in climate change research

Forward to Professorship 2008

- Attended a three day workshop at Gallaudet University sponsored by NSF Advance program for women and minorities in STEM fields
