2. I. 68

Dear Professor Kelley -

Thank you for your kind note. It was good of you to take the time to write to me.

Doctor Rainey is home convalescing from an operation, <sup>and</sup> I see no reason why he would not be perfectly able <sup>and</sup> willing to discuss the student government arrangement, at University of Virginia, with you.

Yes, please feel at liberty to show my commentaries to other members of your committee, provided they have the courage <sup>and</sup> fortitude to wade through it.

I am not sure how the graduate <sup>and</sup> undergraduate members might react. Sometimes the truth can be rather sobering.

Hope to be down your way for Trustees meeting on 11 January. May poke in my head to pay respects, so keep the door locked if you are concentrating on some difficult report or project.

All good wishes for a healthy <sup>and</sup> rewarding New Year. Thank you again for your note. With warm regards, I am

Respectfully

Rich. Shulkyja '17
