U.S. Copyright law test

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or other reproduction is not to be “used for any purpose other than private study, scholarship or research.” If a user makes a request for, or later uses, a photocopy or other reproduction for purposes in excess of “fair use,” that user may be liable for copyright infringement.

THE Proprietors of this Institution, being anxious to secure the Education of their own sons, under the most favorable circumstances, have spared no pains in its Educational and Boarding Departments to make it a First Class School. The place is retired and healthful, the population moral; and unusual facilities are offered for study, while much care will be bestowed to secure propriety of behaviour in the pupils.

Daily Stages are run from Parksburg, Pa., and Newark, Del., and tri-weekly from Perryville, Md. There are two Sessions in the year of twenty weeks each, commencing on the first Thursdays of May and November, which are the most favorable seasons for pupils to enter; those coming, however, after the sessions have commenced, will be charged only from the date of their entrance.

T E R M S :

Boarding, and Tuition in the ordinary English Branches, including the higher Mathematics.....	\$65 00
Tuition alone.....	8 to 12
Ancient Languages.....	3 00
Modern ".....	5 00
Washing per dozen.....	50

~~8~~ No charges but those mentioned.

It is hoped that vicious and immoral boys will not be sent to this School, as they will not be suffered to remain, the fear of evil to others being greater than any prospect of their reformation.

Each pupil will be expected to come provided with overshoes, umbrella and slippers, and the Session bills must be paid half in advance.

Students fitted for any Class in College.

JOHN M. DICKEY,
On behalf of the Proprietors.

Two letters of recommendation are presented, selected from others, equally valuable, which might be given:—

From John L. Atlee, M. D.

It affords me much gratification to be able to state that I have known Mr. James W. Andrews since August, 1852, at which time he was attacked with the disease which, I fear, has permanently unfitted him for active physical exertion. His indomitable energy of mind, however, added to excellent natural talents and unwearied industry, has enabled him to qualify himself amply, by his attainments in the Latin, Greek, French and German languages, and Mathematics, with the various branches of an English education, for the duties of an Instructor. These, as well as his high moral character and standing, render him emi-

nently worthy of the patronage which I hope his present efforts will secure to him.

JOHN L. ATLEE, M. D.

LANCASTER, PA., May 18, 1857.

From Daniel Kirkwood, LL. D.

Late Professor of Mathematics in Delaware College.

Mr. James M. Morrison was graduated with high honor at Delaware College in 1856. His habits while connected with the Institution were extremely studious. His scholarship is accurate and thorough. He has had considerable experience as a teacher. In short, I think him well qualified to conduct a Classical and Mathematical Academy.

Hopewell Academy, January 21st 1859

Rev. John Maclean D.D.

Dear Sir — I received
some time ago from you a certificate
that the honorary degree of M. A. had
been conferred upon me by "The College
of New Jersey". You will please permit me,
through you, to return my thanks to
the trustees for this honor and to express
my earnest desire for the continued prosperity
of the honored Institution over which you
preside

Very Respectfully
James W. Andrews
