

1.

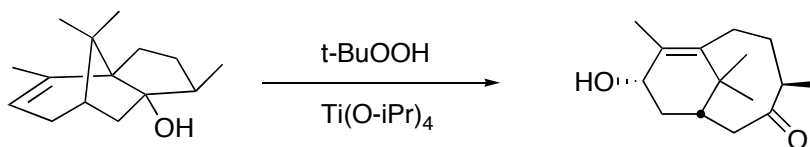

J. Am. Chem. Soc. **1988**, *110*, 314.

2.

Organic Lett. **2006**, *8*, 423.

3.

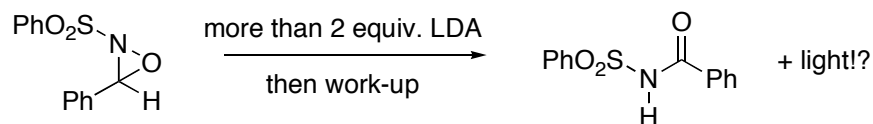

J. Am. Chem. Soc. **1984**, *106*, 5731.

-Why is this unique? Or how does it go against what one learns about fragmentation?

Just for fun.....

4.

J. Am. Chem. Soc. **1995**, *117*, 9921.

How does one explain the apparent FLASH?
