Introduction and Key Findings	1
INTRODUCTION	1
KEY FINDINGS	2
IMPORTANT CAVEATS AND OVERALL CONCLUSIONS	4
ORGANIZATION OF THE BACKGROUND PAPER	5
Detailed Findings	7
INTRODUCTION	7
NATURE OF OTA'S REVIEW AND SYNTHESIS	7
DOES INSURANCE COVERAGE AFFECT UTILIZATION OF HEALTH SERVICES?	8
Introduction	8
Specific Hypotheses	9
Research Findings	10
Summary: Insurance Coverage and Use of Health Services	13
DOES INSURANCE COVERAGE AFFECT THE PROCESS OF CARE?	13
Research Findings	14
Summary: Insurance Coverage and Potentially Inadequate Process of Care	18
DOES INSURANCE COVERAGE AFFECT HEALTH STATUS?	20
Research Findings	21
Summary: Insurance Coverage and Health Outcomes	28
RESEARCH IMPLICATIONS AND NEXT STEPS	28
Appendix A. Acknowledgments	31
Appendix B. Glossary of Acronyms and Terms	32
Appendix C. Conceptual Framework and General Methodological Issues	41
Appendix D. Health Insurance in the United States: Who Is Covered, Who Is Not Covered, and What Coverage Provides	51
Appendix E. Additional Information on the Nature of OTA's Review and Methodological Characteristics of Studies Reviewed	61
Appendix F. The Health Effects of Varying levels of Cost Sharing in a Generous Private Health Insurance Plan: The RAND Health Insurance Experiment	72
References	73

Boxes

<i>Box</i>	<i>Page</i>
A. Utilization of Care Measures Used as Potential Indicators of Insurance-Related Problems in Access	8
B. Process of Care Measures Used as Potential Indicators of Insurance-Related Problems in Access	14
C. Health Outcomes Used as Potential Indicators of Insurance-Related Problems in Access ..	20

Figures

<i>Figure</i>	<i>Page</i>
1. Basic Framework for Effects of Health Insurance on Use of Care, Process of Care, and Patient Health	3
2. Observed Variation in Research Findings in the Magnitude of Relationships Between Health Insurance Coverage, Use of Health Services, Process of Care, and Health Outcomes: Ratios of Uninsured to Privately Insured Patients	4

<i>Figure</i>	<i>Page</i>
3. Observed Vitiation in Research Findings on the Magnitude of Relationships Between Health Insurance Coverage, Use of Health Services, Process of Care, and Health Outcomes: Ratios of Uninsured to Publicly Covered Patients	4
4. Observed Variation in Research Findings on the Magnitude of Relationships Between Health Insurance Coverage, Use of Health Services, Process of Care, and Health Outcomes: Ratios of Publicly Covered to Privately Insured Patients	4
5. Lower Use of Health Services: Ratio of Uninsured to Privately Insured Patients	11
6. Lower Use of Health Services: Ratio of Uninsured to Publicly Covered Patients	12
7. Lower Use of Health Services: Ratio of Uninsured to Publicly and Privately Insured Patients Combined	12
8. Usual Source of Health Care by Source of Health Insurance Coverage, 1987	13
9. Potentially Inadequate Process of Health Care as Measured by Intensity of Resource Use: Ratio of Uninsured to Privately Insured Patients	16
10. Potentially Inadequate Process of Health Care as Measured by Negligent Adverse Events and Patient Satisfaction: Ratio of Uninsured to Privately Insured Patients	17
11. Potentially Inadequate Process of Health Care: Ratio of Uninsured to Publicly Covered Patients	18
12. Potentially Inadequate Process of Health Care: Ratio of Medicaid to Privately Insured Patients	19
13. Adverse Health Outcomes Potentially Associated With Inadequate Ambulatory Care: Ratio of Uninsured to Privately Insured Patients	24
14. Relative Regression-Adjusted Coefficients for Risk-Adjusted Mortality Index on Hospital Admission, by Gender, Race, and Age, Uninsured vs. Privately Insured Individuals	25
15. Adverse Health Outcomes Potentially Associated With Inadequate Inpatient Care: Ratio of Uninsured to Privately Insured Patients	26
16. Adverse Health Outcomes: Ratio of Publicly Covered to Privately Insured Patients	27

Tables
