

# Appendix F:

## Acknowledgments

OTA thanks the members of the advisory panel, conference and workshop participants, contractors, and the many individuals and organizations that supplied information for this report. In addition, OTA acknowledges the following individuals for their comments on drafts of this report:

Richard Adamson  
National Cancer Institute

Bruce Ames  
University of California, Berkeley

Jeanne Anson  
National Center for Toxicological Research

Lynn Anspaugh  
Lawrence Livermore Laboratory

Donald Barnes  
U.S. Environmental Protection Agency

James Bean  
U.S. Department of Energy

Thomas Borelli  
Philip Morris

Daniel M. Byrd, III  
Distilled Spirits Council of the United States, Inc.

Samuel M. Cohen  
University of Nebraska Medical Center

Murray Cohn  
Consumer Product Safety Commission

Paul Deisler  
Houston, TX

Christopher DeRosa  
Agency for Toxic Substances and Disease Registry

Helen Donoghue  
Delegation of the European Communities

John Doull  
University of Kansas

Leon Ellwein  
National Institutes of Health

Spencer Farr  
Xenometrix, Inc.

Bob Fensterheim  
RegNet Environmental Services

Gary J. Foley  
U.S. Environmental Protection Agency

David Gaylor  
National Center for Toxicological Research

Lois Gold  
Lawrence Berkeley Laboratory

Gio Gori  
Health Policy Seminar

John D. Graham  
Harvard University

Richard Griesemer  
National Institute for Environmental Health Sciences

Fred Hoerger  
American Industrial Health Council

Vernon Houk  
Centers for Disease Control

Peter Infante  
Occupational Safety and Health Administration

Barry Johnson  
Agency for Toxic Substances and Disease Registry

Philip J. Landrigan  
The Mount Sinai Medical Center

Joe LeBeau  
Carnegie-Mellon University

Mayada A. Logue  
Robert Wood Johnson Medical School

George Lucier  
National Institute for Environmental Health Sciences

Thomas McKone  
Lawrence Livermore Laboratories

Barry Milcarek  
Mobil Oil

Franklin Mirer  
United Auto Workers

A. Alan Moghissi  
University of Maryland

Richard Niemeier  
National Institute for Occupational Safety and Health

Anthony V. Nero  
Lawrence Berkeley Laboratory

Arthur R. Norris  
National Center for Toxicological Research

Carole O'Toole  
American Industrial Health Council

Stephen Page  
U.S. Environmental Protection Agency

D.J. Paustenbach  
McLaren/Hart Environmental Engineering

Mary Paxton  
American Petroleum Institute

William Pease  
University of California, Berkeley

Richard Peto  
Oxford

Henry C. Pitot  
University of Wisconsin

Gerald V. Poje  
National Institute for Environmental Health Sciences

James A. Popp  
Chemical Industry Institute for Toxicology

Lawrence Rhomberg  
U.S. Environmental Protection Agency

Kathryn Rosica  
Chemical Manufacturers Association

Paul Roney  
Public Citizen

Mark E. Rushefsky  
Southwest Missouri State University

Marvin Schneiderman  
National Research Council

Bern A. Schwetz  
National Institute for Environmental Health Sciences

Robert Sielken  
Sielken, Inc.

Ellen Silbergeld  
University of Maryland

Hugh Spitzer  
International Life Science Institute

Leslie T. Stayner  
National Institute for Occupational Safety and Health

Gerhard Stohrer  
Science and Environmental Policy Project

John Vandenberg  
U.S. Environmental Protection Agency

Andrew Wallo  
U.S. Department of Energy

John Whysner  
American Health Foundation

I. Bernard Weinstein  
Columbia University

Richard Wilson  
Harvard University

Sidney Wolfe  
Public Citizen

Harold Zenick  
U.S. Environmental Protection Agency

## 222 | Researching Health Risks

OTA acknowledges the following individuals for their comments on drafts of the appendix on International Risk Assessment:

Ulf G. Ahlborg  
Karolinska Institute  
Sweden

Ake E. Anderson  
Institute for Future Studies  
Sweden

Charlie Auer  
U.S. Environmental Protection Agency

George Becking  
World Health Organization-International Programme  
on Chemical Safety

Edward Bennett  
Directorate-General of Environment, Nuclear Safety,  
and Civil Protection  
European Economic Community

Jim Brydon  
Organisation for Economic Co-operation and  
Development

J. Takala  
International Labor Organisation

Kees A. Vander Heijden  
The Netherlands

Pierre Claret de Fleurieu  
Chef du Division des Services du Senat  
France

Helen Donoghue  
Delegation of the Commission of European  
Communities

Robin J. Fielder  
Department of Health  
England

Jacobo Finkelman  
Pan American Health Organisation

Corrado Galli  
University Degli Studi DiMilano  
Italy

Herman Gibb  
Office of International Activities  
U.S. Environmental Protection Agency

Geoff Granville  
Environmental Health Directorate  
Canada

Terry Harvey  
Office of International Activities  
U.S. Environmental Protection Agency

Wilfred Kreisel  
World Health Organization

Dan Krewski  
Health & Welfare Canada  
Canada

M. Maurice Laurent  
Conseiller des Services de l'Assemblée Nationale  
France

M. Jean-Yves Le Deaut  
Assemblée Nationale  
France

Victor Morgenroth  
Organisation for Economic Co-operation and  
Development

Patrick Murphy  
Commission of the European Communities

Robert Nilsson  
National Swedish Chemicals  
Sweden

Michael Norton  
Parliamentary Office of Science and Technology  
England

David Ogden  
Office of International Activities  
U.S. Environmental Protection Agency

Herbert Paschen  
Buro fur Technikfolgen-Abschätzung des Deutschen  
Bundestages  
Germany

Frederick Pott  
Medical Institute of Environmental Hygiene  
Germany

Jorn Ravn  
Danish Board of Technology  
Denmark

Edward Smith  
World Health Organisation/International Programme  
on Chemical Safety

## Appendix F: Acknowledgments 223

Gerard M.H. Swaen  
University of Limburg  
The Netherlands

John Whysner  
American Health Foundation

Kees A. Van der Heijden  
Bilthoven, The Netherlands

Josee C.M. Van Eijnhoven  
Nederlandse Organisatie voor Technologist  
Aspectenonderzoek  
The Netherlands

Hugo van Lioy  
Organisation for Economic Co-operation  
and Development
