

# Contents

## **1 Health Care Technology as a Policy Issue 1**

- The Diffusion of Health Care Technology 2
- Content of This Report 2
- Treatments for Coronary Artery Disease—CABG and PTCA 4
- Medical Imaging (CT and MRI) 6
- Laparoscopic Surgery 8
- Treatments for End-Stage Renal Disease (ESRD) 9
- Neonatal Intensive Care 11
- Screening for Breast Cancer 12
- Interpretation of the Cases 13
- References 13

## **2 Health Care Technology in Australia 19**

- Overview of Australia 19
- Health Status of the Population 20
- Controlling Health Care Technology 25
- Health Care Technology Assessment 29
- Case Studies
  - Treatments for Coronary Artery Disease 39
  - Medical Imaging (CT and MRI) 42
  - Laparoscopic Surgery 44
  - Treatments for End-Stage Renal Disease (ESRD) 47
  - Neonatal Intensive Care 49
  - Screening for Breast Cancer 51
- Chapter Summary 53
- References 55

## **3 Health Care Technology in Canada (with special reference to Quebec) 61**

- Overview of Canada 61
- Health Status of the Population 64
- The Canadian Health Care System 64
- Controlling Health Care Technology 67
- Health Care Technology Assessment 75

#### Case Studies

- Treatments for Coronary Artery Disease 79
- Medical Imaging (CT and MRI) 82
- Laparoscopic Surgery 86
- Treatments for End-Stage Renal Disease (ESRD) 88
- Neonatal Intensive Care 90
- Screening for Breast Cancer 92

Chapter Summary 95

References 96

### **4 Health Care Technology in France 103**

Overview of France 103

The French Health Care System 105

Controlling Health Care Technology **110**

Health Care Technology Assessment 114

#### Case Studies

- Treatments for Coronary Artery Disease 120
- Medical Imaging (CT and MRI) 122
- Laparoscopic Surgery 124
- Treatments for End-Stage Renal Disease (ESRD) 126
- Neonatal Intensive Care **129**
- Screening for Breast Cancer 131

Chapter Summary 132

References 134

### **5 Health Care Technology in Germany 137**

Overview of Germany 137

Health Status of The Population 138

The German Health Care System 139

The Cost Containment Debate 144

Controlling Health Care Technology 147

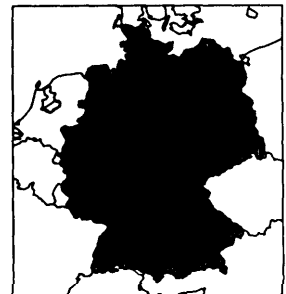

Regulation of Placement of Services and Quality Assurance 151

#### Case Studies

- Treatments for Coronary Artery Disease 154
- Medical Imaging (CT and MRI) **155**
- Laparoscopic Surgery 158
- Treatments for End-Stage Renal Disease (ESRD) **160**
- Neonatal Intensive Care **162**
- Screening for Breast Cancer 164

Chapter Summary 165

References 167

## **6 Health Care Technology in the Netherlands 171**

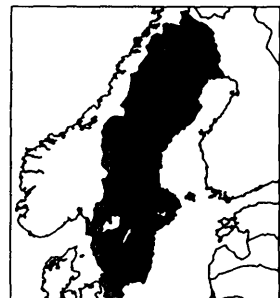

- Overview of the Netherlands 171
- Health Status of the Population 173
- The Dutch Health Care System 173
- Controlling Health Care Technology 178
- Health Care Technology Assessment 183
- Case Studies
  - Treatments for Coronary Artery Disease 188
  - Medical Imaging (CT and MRI) 191
  - Laparoscopic Surgery 197
  - Treatments for End-Stage Renal Disease (ESRD) 198
  - Neonatal Intensive Care 201
  - Screening for Breast Cancer 203
- Chapter Summary 205
- References 207

## **7 Health Care Technology in Sweden 209**

- Overview of Sweden 209
- Health Status of the Population 211
- The Swedish Health Care System 213
- Controlling Health Care Technology 219
- Health Care Technology Assessment 222
- Case Studies
  - Treatments for Coronary Artery Disease 225
  - Medical Imaging (CT and MRI) 227
  - Laparoscopic Surgery 229
  - Treatments for End-Stage Renal Disease (ESRD) 231
  - Neonatal Intensive Care 232
  - Screening for Breast Cancer 233
- Chapter Summary 234
- References 236

## **8 Health Care Technology in the United Kingdom 241**

- Overview of the United Kingdom 241
- Health Status of the Population 241
- The British Health Care System 242
- Controlling Health Care Technology 243
- Health Care Technology Assessment 256

- Case Studies
  - Treatments for Coronary Artery Disease 258
  - Medical Imaging (CT and MRI) 260
  - Laparoscopic Surgery 262
  - Treatments for End-Stage Renal Disease (ESRD) 264
  - Neonatal Intensive Care 267
  - Screening for Breast Cancer 269
- Chapter Summary 271
- References 272

## **9 Health Care Technology in the United States 275**

- Overview of the United States 275
- Health Status of the Population 276
- The U.S. Health Care System 276
- Health-Related Research and Development 280
- Controlling Health Care Technology 281
- Health Care Technology Assessment 291
- Case Studies
  - Treatments for Coronary Artery Disease 304
  - Medical Imaging (CT and MRI) 307
  - Laparoscopic Surgery 311
  - Treatments for End-Stage Renal Disease (ESRD) 315
  - Neonatal Intensive Care 318
  - Screening for Breast Cancer 321
- Chapter Summary 324
- References 325

## **10 Lessons from the Eight Countries 335**

- Health Systems of the Eight Countries 335
- Technology Adoption 336
- Technology Utilization 338
- Public Reactions and Pressures 339
- Health Care Technology Assessment 343
- The Case Studies 344
- Conclusions 352
- References 353

## **INDEX 355**
