CHAPTER 1: Introduction.	3	Controls on Nonnuclear Energy Exports	48
CHAPTER 2: Technology Transfer and U. S.-		The Rationale of U.S. Export Controls.	48
China Relations	7	Problems With the System	50
The Foreign Policy Context for Technology		Possible Improvement in U.S. Export	
Transfer,	7	Controls.	53
Long-Term Opportunities and Risks ..	8	Congressional Review of Nuclear Cooperation	
Opportunities	8	Agreement,	54
Risks.	10	Promoting Energy Technology Transfers	55
Technology as a Tool of U.S.		Limited Scope of U.S. Promotional	
Foreign Policy	13	Programs	55
CHAPTER 3: Energy Technology Transfers	17	Selection of Energy Development Projects ..	58
Resources.	17	Possible Improvements in U.S. Promotional	
Trends in Energy Production and Use... ..	19	Programs	59
Petroleum	19	Balancing Control and Promotion , ,	60
Natural Gas	19	APPENDIX: Nuclear Cooperation Agreement	
Coal	20	and Supporting Documents	65
Electricity	20		
Projections	21		
Energy Use	21		
Trends in Energy Technology Transfer ..	22		
Petroleum Exploration and Production	22		
Petroleum Refining and Petrochemicals, . . .	23		
Coal Mining and Transportation.	24		
Electric Power	24		
Conservation	24		
Soar,	25		
China's Problems With Technology Transfer ..	25		
Finance,	25		
Manpower,	26		
Internal Transfers	26		
Decisionmaking	27		
Conclusion	28		
CHAPTER 4: Nuclear Power and the Proposed			
Cooperation Agreement	31		
Present Capabilities,	33		
The Role of Imported Technology	33		
Proliferation Concerns ..	35		
Other Military Concerns	38		
Nuclear Cooperation Agreement.	39		
CHAPTER 5: U.S. Policy: Tools for Controlling			
and Promoting Energy Technology			
Transfers ..	47
