Contents—continued

Table No.	Page	Table No.	Page
2. The Population of Children Currently Served in Programs Emphasizing Alternatives to Hospital Care	16	16. Number and Percent of Children Aged 0 to 12 Years Covered Only by Private Health Insurance, by Income Status, United States, 1986	52
3. Major National Health Surveys and Data Systems.	18	17. Surveys of Employer-Sponsored Group Health Insurance Plans	54
4. Data Sources Used as Bases for OTA Estimates.	19	18. Medicaid Hospital Inpatient Stay Maximums and Units of Payment in the 50 States and District of Columbia, 1985	58
5. Estimates of the Number of Ventilator-Dependent Children	20	19. Summary of Medicaid Home Health Services Provided in 50 States and the District of Columbia, 1984	60
6. Estimates of the Number of Children Requiring Parenteral Nutrition.	21	20. Comparison of State Medicaid Options for Expanded Home- and Community-Based Care	61
7. Basis for Estimate of the Population of Children Requiring Extended Intravenous Drug Therapy	23	21. State Activity in Medicaid Home- and Community-Based Service Options as of Apr. 15, 1986.	65
8. Basis for Estimate of the Number of Children Requiring Other Nutritional and Respiratory Support	24	22. State Policies and Practices That Limit Participation Under the Regular Waiver Programs That Theoretically Could Serve Physically Disabled Children, April 1986	68
9. Estimated Prevalence of Selected Chronic Conditions in Children, Ages 0 to 20, 1983	25	23. State Policies and Practices That Limit Participation Under the Model Waiver Programs, April 1986	69
10. Estimated Incidence of Bronchopulmonary Dysplasia, 1984	29	24. State Policies and Practices That Limit Participation Under the State Plan Amendment, April 1986	70
11. Checklist of Respiratory and Infusion Skills for Home Care Patients and Families.	39	25. Total Amount of Expenses Allocated for Programs of Selected Foundations, 1979 and 1980	77
12. Supplies Needed for Four Home Infusion Therapies	39	26. Some Conditions That May Lead to Dependence on Respiratory or Nutritional Support	86
13. Sample Home Respiratory Care Costs That Were Reimbursed by a Third-Party Payer, 1985	40		
14. Summary of Comparative Average Monthly Charges Presented in the Literature of Ventilator-Dependent Individuals in Hospital and Home Settings	45		
15. Comparative Charges for Home v. Hospital Administration of Intravenous Antibiotics as Reported in the Literature	46
