

# Contents

<i>Chapter</i>	<i>Page</i>
<b>1. Summary</b> . . . . .	<b>3</b>
Growth Rate . . . . .	3
Dedicated v. Derivative Aircraft . . . . .	3
Ground Operations . . . . .	3
Industry Problems . . . . .	4
Lighter-Than-Air Vehicles . . . . .	4
Deregulation . . . . .	4
Federal Policy . . . . .	5
<b>2. An Overview of the Air Cargo System</b> . . . . .	<b>9</b>
Introduction . . . . .	9
Air Cargo Industry Structure . . . . .	9
The Impact of Long-Haul Aircraft . . . . .	11
Costs and Profits of U.S. All-Cargo Operations . . . . .	12
costs . . . . .	12
Profits . . . . .	12
Air Cargo Deregulation . . . . .	13
Industry Response . . . . .	14
Impact on Rates and Service . . . . .	14
The Present State of the Industry . . . . .	16
Forecasted Industry Growth . . . . .	16
Major Concerns of Cargo Carriers . . . . .	16
<b>3. Future Air Cargo Aircraft</b> . . . . . ~	<b>21</b>
Freighters Derived From Passenger Aircraft . . . . .	21
Advantages and Disadvantages of Derivative Aircraft . . . . .	23
Dedicated Air Freighters . . . . .	23
Advantages and Disadvantages of a Dedicated Air Freighter . . . . .	24
A Joint Military-Civil Cargo Airplane . . . . .	25
Advantages and Disadvantages of Joint Development . . . . .	27
<b>4. Ground Support Systems</b> . . . . .	<b>31</b>
Air Terminal Space Limitations . . . . .	31
Mechanization and Containerization . . . . .	32
Degree of Mechanization . . . . .	34
Degree of Containerization . . . . .	36
Computerization . . . . .	36
Pickup and Delivery . . . . .	37
<b>5. Air Cargo Operating Restrictions</b> . . . . .	<b>41</b>
Federal Noise Regulation . . . . .	41
Airport Operating Restrictions . . . . .	42
Night Curfews . . . . .	42
Economic Impacts of Curfews . . . . .	44
Benefits of Curfews . . . . .	45
The Federal Role . . . . .	45
Operating Restrictions Overseas . . . . .	46

	<i>Page</i>
<b>6. Lighter-Than-Air Vehicles ., ... , . . . . .</b>	<b>49</b>
Long Range Airships . . . . .	49
Potential Properties of Modern Airships . . . . .	50
Modernized Conventional Airships . . . . .	51
Surveillance Activities . . . . .	52
Heavy Lift Airships . . . . .	53

**List of Tables**

<i>Table No.</i>	<i>Page</i>
1. General Air Freight Rate Increases for Selected Carriers, 1975-80 . . . . .	15
2. Relative Cost per Unit Loading Device Under Varying Conditions . . . . .	36
3. Airport Operating Restrictions, 1979 . . . . .	42
4. Annual Direct Effects on the New England Economy of an 11 p.m. to 7a.m. Curfew at Boston, Mass. . . . .	44

**List of Figures**

<i>Figure No.</i>	<i>Page</i>
1. Labor and Fuel Prices for U.S. Trunks . . . . .	12
2. Operating Ratio Scheduled All-Cargo Service by Carrier Group (international) . . . . .	12
3. Operating Ratio Scheduled All-Cargo Service by Carrier Group (domestic) . . . . .	13
4. Straddle Lift for 6-Meter or Larger Container . . . . .	33
5. Side-by-Side Loading Capacity of Intermodal Containers in the B-747F . . . . .	33
6. High Mechanization Elevating Transfer Vehicle . . . . .	34
7. Future Air Cargo Ground System . . . . .	35
8. Modular Intermodal Container Concept Modcon Array and Adaptor . . . . .	37
9. Heavy Lift Airship Concept . . . . .	53
<b>10. Heavy Lift Airship—General Arrangement and Selected Performance     Characteristics 75 Ton Payload . . . . .</b>	<b>54</b>
