# Index

- Community Water Supply Survey (CWSS), 40
- correction of ground water contamination, 177-193
  - selecting a strategy, 177
  - corrective action alternatives, 178
  - performance of corrective action alternatives, 183
  - technical and non-technical conditions determining the applicability of corrective action alternatives, 179
  - stage of development of corrective action alternatives, 192
- Federal efforts to correct groundwater contamination, 197-201
  - Federal Government experience, 200
  - statutory and regulatory provisions for sources of contamination, 197
  - summary of Federal corrective action provisions, 198
- Federal efforts to detect groundwater contamination, 145-161
  - groundwater monitoring and sources, 155
    - Federal programs, 156
    - monitoring and remedial action programs, 160
  - investigate ions of aquifer systems and ambient groundwater quality, 146
    - ambient groundwater appraisal, 147
    - Regional Aquifer System Analysis Program, 147
  - U.S. Geological Survey, 145-146
    - Federal programs, 145
    - Federal-State Cooperative Program, 146
  - monitoring drinking water supplies, 147-150
    - EPA drinking water surveys, 149
    - public water systems, 147
  - source inventories, 150-154
    - formal studies, 150
      - hazardous waste sites, 151
      - open dumps, 150
      - surface impoundments, 152
    - regulatory requirements related to inventories, 153
    - reporting requirements, 152
      - EPA regulations: CWA and CERCLA, 152
      - DOT regulations: HLPSCA and HMTA, 153
- Federal efforts to prevent groundwater contamination, 215
  - aquifer protection, 225
  - prevention by sources, 215
    - performance requirements, 223
    - types of programs and sources addressed, 223
  - regulating the production and use of potential contaminant, 226
    - Federal Insecticide, Fungicide, and Rodenticide Act, 228
    - Toxic Substances Control Act (TSCA), 226
- Federal institutional framework to protect groundwater, 63-86
  - efforts to improve capabilities, 83-86
    - Federal research and development, 84
    - financial assistance, 83
    - technical assistance, 84
    - mechanisms for interagency coordination, 81
      - program-related agreements, 82
      - USGS coordinating committees, 82
      - water data coordination, 83
    - relevance of Federal statutes, 64
    - sources addressed by Federal statutes, 75-79
      - types of programs, 77
    - summary of Federal statutes and programs, 64-75
      - Federal legislation passed prior to the 1970s, 64
      - groundwater-related activities of Federal agencies, 72
      - water quality standards, 80-81
  - findings, 5-14
    - Federal and State approach to groundwater approach, 6
      - corrective action programs, 8
      - detection programs, 8
      - prevention programs, 8
    - national policy implications, 11-14
      - funding, 11
      - research and development, 13
      - technical assistance, 12
    - technical and nontechnical constraints, 9-10
- groundwater contamination and its impacts, 19-58
  - concentration and frequency of substances in groundwater, 38-43
    - governmental standards, 41
    - frequency of occurrence of substances, 40
    - substances, 38
  - extent and nature of, 20-23
    - nationwide assessment, 20
    - substances detected in groundwater, 22
  - factors influencing a source's potential to contaminate, 47-54
    - geographic location: pervasiveness and regionality, 49
    - number of sources and amounts of material flowing through or stored in sources, 51
    - release characteristics, 47
  - health impacts, 23-36
    - adverse impacts of chemicals, 32
    - biological substances, 34
    - general issues, 23
    - interactions among multiple chemicals, 34
    - potential toxicity or potency of chemicals, 33
    - radioactive substances, 35
    - substances known to occur in groundwater, 24-31
  - non-health impacts, 36-38
    - economic impacts, 36, 39
    - environmental and social impacts, 37-38
  - potential for sources to contribute substances to groundwater, 55
    - identifying sources, 55
    - modeling, 55
    - types of sources and associated substances, 43-46
      - association of substances with sources, 44
      - undetected substances, 43
- Ground Water Supply Survey (GWSS), 40

hydrogeologic investigations, 111-138  
 approaches for minimizing difficulties, 135-138  
 ensuring reliability, 135  
 conduct, 112-135  
 design of, 115  
   costs and detection limits, 130  
   monitoring networks, 134  
   techniques for obtaining information, 118  
 general approach, 112  
 objectives, 113  
 site conditions, 112

legislation:

Atomic Energy Act, 63, 66, 73, 78, 155, 156  
 Clean Water Act (CWA), 11, 20, 65, 66, 73, 78, 80, 83, 99, 100, 146, 152, 156, 161  
 Coastal Zone Management Act, 65, 66, 75, 78, 156  
 Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), 8, 65, 67, 74, 79, 100, 151, 152, 153, 156, 160, 184, 197  
 Federal Insecticide Fungicide and Rodenticide Act (FIFRA), 9, 65, 67, 75, 156, 228  
 Federal Land Policy and Management Act, 65, 67, 75, 156, 215  
 Hazardous Liquid Pipeline Safety Act (HLPESA), 65, 68, 74, 77, 152, 153, 156  
 Hazardous Materials Transportation Act (HMTA), 65, 68, 74, 152, 153, 156  
 National Environmental Policy Act, 65, 68, 73, 79, 156  
 Reclamation Act, 65, 68, 73, 79, 156  
 Resource Conservation and Recovery Act (RCRA), 8, 11, 65, 69, 74, 78, 83, 100, 150, 155, 156, 160, 197, 200  
 Rivers and Harbor Act of 1899, 73  
 Safe Drinking Water Act (SDWA), 7, 8, 20, 65, 69, 74, 78, 80, 83, 100, 147, 149, 150, 152, 153, 157  
 Surface Mining Control and Reclamation Act (SMCRA), 11, 65, 70, 74, 78, 79, 83, 158, 215  
 Toxic Substances Control Act (TSCA), 9, 65, 70, 75, 155, 158, 215, 226  
 Uranium Mill Tailings Radiation Control Act (UMTRCA), 8, 65, 70, 74, 78, 79, 100, 158, 160, 197, 200, 201, 215  
 Water Pollution Control Act of 1948  
 Water Research and Development Act, 65, 70, 75, 79, 158  
 National Interim Primary Drinking Water Regulations (NIPDWR), 80  
 National Organics Monitoring Survey (NOMS), 40  
 National Organics Reconnaissance Survey (NORS), 40  
 National Science Foundation, 72  
 National Screening Program for Organics in Drinking Water (NSP), 41  
 Nuclear Regulatory Commission mission, 72

State efforts to correct groundwater contamination, 205-210

State efforts to detect groundwater contamination, 165-171  
 detection programs for sources of contamination, 165  
 formal procedures for monitoring, 168  
 inventory and monitoring activities, 166  
 use, preferences and problems with techniques for hydrogeologic investigations, 169  
 OTA survey, 170  
 State institutional framework to protect groundwater from contamination, 89-107  
 OTA State survey, 89, 96, 97, 99  
 State activities, 92, 93  
   agency reorganization, 98  
   coordination programs, 95  
   facility development, 97  
   public education, 97  
   special studies, 95  
   staff development and training, 95  
 State perceptions about problems, 91  
 State perspective on Federal programs, 98-103  
   responses about selected Federal laws, 98  
   State use of Federal guidance on quality standards  
 State strengths and problems in programs to deal with contamination and desired Federal assistance, 103-107  
   correction, 106  
   detection, 106  
   improving capabilities, 105  
   prevention, 106  
   sources, 104  
   standards, 105  
 State prevention approaches, 235  
   aquifer protection, 239  
   impact reduction, 239  
   source programs, 237
