

Head In Sand Syndrome (HISS) is a serious threat to America and to the world. What we don't know CAN hurt us (and others) or even worse. We can't trust people who don't honorably represent us to protect us.

Cause of HISS: Consumption of widely available, misinformation, distortion, omission and distraction - disguised as unbiased, fair and balanced news that we can trust.

Cure for HISS: DOWN HOME DEMOCRACY!
THE MOST EXCITING REALITY SHOW ON THE PLANET

RESIST H.I.S.S.
