

# Contents

## **Executive Summary 1**

Elements of a Strategic Plan 1

Data Collection 3

## **1 Findings and Policy Options 5**

Need for a Strategic Plan 10

Structural Elements of a Strategic Plan 13

Limitations of a Strategic Plan 21

Monitoring Weather and Climate 22

Land Remote Sensing 28

Ocean Remote Sensing 32

## **2 National Remote Sensing Needs and Capabilities 37**

National Uses of Remote Sensing 38

U.S. Remote Sensing Capabilities 44

Matching Capabilities to Needs 52

## **3 Planning for Future Remote Sensing Systems 57**

A National Strategic Plan for Environmental Satellite Remote Sensing Systems 58

Monitoring Weather and Climate 63

Land Remote Sensing and Landsat 86

Ocean Remote Sensing 95

## **4 International Cooperation and Competition 101**

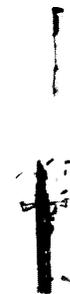

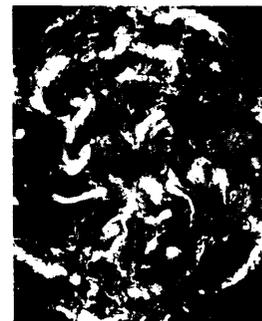

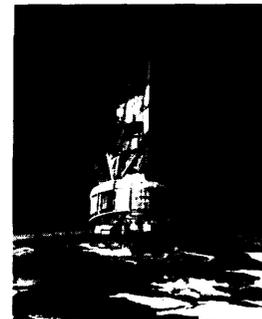

International Remote Sensing Needs 103

The Benefits and Risks of International Cooperation 104

International Competition in Remote Sensing 110

National Security Issues 112

Options for International Cooperation 116

## **APPENDIXES**

- A NASA's Mission to Planet Earth 129**
- B Survey of National and International Programs 131**
- C Convergence of U.S. POES Systems 142**
- D A Brief Policy History of Landsat 145**
- E Landsat Remote Sensing Strategy 148**
- F Clinton Administration Policy on Remote Sensing Licensing and Exports 152**
- G Abbreviations 155**
