

Contents

PART I. Summary, Policy, and Conceptual Framework

- 1 Summary 1**
 - Executive Summary 1
 - Organization and Scope of the Report 7
 - Extended Summary 8
- 2 Issues and Options 39**
 - Options for U.S. Policy 40
- 3 Context and Conceptual Framework 71**
 - Global Environmental Trends 72
 - A Framework for Classifying Environmental Activities 75
 - The Environmental Goods and Services Industry 79
 - The Environment and Competitiveness Context:
 - The Case of Manufacturing 81

PART H. Providers of Environmental Technology and Services: The Environmental Industry

- 4 The Global Environmental Market: Trends and Characteristics 89**
 - Market Drivers 91
 - Defining the Industry and its Market 93
 - Global, Regional, and National Markets 97
 - Conclusions 116
- 5 US. Competitiveness in Environmental Technologies and Services 117**
 - Environmental Trade 117
 - Factors Affecting Competitiveness 121
 - Sector Descriptions and Analyses 128
 - Conclusion 149
- 6 Export Promotion Programs 151**
 - Efforts To Develop U.S. Strategy 154
 - U.S. Export Promotion Programs in International Context 159
 - Assistance for Export Planning and Marketing 160
 - Technology Verification and Demonstration 173
 - Use of Foreign Aid To Promote Exports 173
 - Financing 177

**PART III. Users of Environmental Technology:
US. Manufacturers**

**7 Environmental Requirements and U.S. Manufacturing
Industry Competitiveness 183**

- Overview 185
- U.S. Pollution Abatement and Control Expenditures 186
- Private Sector Compliance Costs Compared With Other Nations 197
- Effects of Regulation on Innovation, Trade, and Industrial
Location 214
- Conclusion 221

**8 Pollution Prevention, Cleaner Technology, and
Compliance 229**

- Major Findings 230
- The Rate of Adoption of Pollution Prevention and Recycling 231
- Pollution Prevention, and Recycling and Economic Performance 232
- Pollution Prevention Options 237
- Factors Limiting the Adoption of Pollution Prevention 244
- Pollution Prevention Technology Development 250
- Technical Assistance for Pollution Prevention and Environmental
Compliance 251
- Financial Assistance 260

**9 Regulations and Economic Incentives in a Competitive
Context 263**

- Principal Findings 264
- Regulatory Reform 265
- Incentive-Based Regulations 277

**PART IV. Government Support for Environmental
Technology Development, Here and Abroad**

10 Research, Development, and Demonstration 291

- United States 294
- Japan 310
- European Programs 314

APPENDICES

**A Effects of Environmental Regulations on Economic Growth:
A Review of Research 321**

B List of Acronyms 327
