- American Conference of Governmental Industrial Hygienists, 9, 86, 206, 257-261
- American Industrial Hygiene Association, 9
- American National Standards Institute (ANSI), 9, 71, 206, 300
- American Occupational Medical Association, 205
- assessment of OSHA and NIOSH activities, 257
  - comparison of recommendations and standards, 257-262
  - impacts of NIOSH, 269
  - impacts of OSHA, 262
- B. F. Goodrich, 81
- Bureau of National Affairs, 314
- Carter, President Jimmy, 280
- Centers for Disease Control, 220
- Congress:
  - House Committee on Energy and Commerce, 4
  - Senate Committee on Labor and Human Resources, 4
- Council on Wage and Price Stability, 280, 282, 283
- data on occupational injuries and illnesses, 29-38
  - occupational illnesses, 37
  - occupational injuries, 30
  - sources of information, 29
- decisionmaking for occupational safety and health, 275-294
  - general issues, 275
  - OSHA decisionmaking on standards, 278
  - uses and limits of economic analysis, 289
- Department of the Interior
  - Bureau of Mines, 145
- Department of Labor
  - Bureau of Labor Statistics (BLS), 4, 5, 17, 29, 30, 36, 132, 167
  - Mine Safety and Health Administration, 219
- dissemination of health and safety information, 11
- Du Pont Co., 117, 155
- economic incentives, reindustrialization, and
  - Federal assistance for occupational safety and health, 327
- economic incentives and financial assistance, 327
  - injury/exposure taxes, 327
  - tax programs and financial assistance, 329
- Federal aid for research and information
  - dissemination, 338
- reindustrialization and occupational safety and health, 332
- Educational Resource Centers (ERC), 10, 195
- Environmental Protection Agency (EPA), 9, 63, 157, 280
- ergonomics and human factors, 123
  - applying ergonomics to VDT design, 135
  - classification of ergonomics, 124
  - prevention of musculoskeletal injuries, 127
    - back disorders, 132-135
    - carpal tunnel syndrome (CTS), 127-132
- Ford, President Gerald, 280
- General Accounting Office, 220, 238, 287, 331
- governmental activities concerning worker health and safety, 219-254
  - current Federal/State framework, 219
    - assistant Secretaries and Directors, 221
    - Federal spending, 221
    - separation of research and regulation, 220
  - National Institute for Occupational Safety and Health, 242-253
    - development of controls, 247
    - dissemination, 249
    - identification, 243
    - priorities, 251
  - Occupational Health and Safety Administration, 224-242
    - enforcement, 232
    - public education and service, 237
    - standard-setting, 224
    - State programs, 239
- health hazard identification, 41-64
  - occupational disease, 42
    - cancer, 45
    - musculoskeletal disorders, 45
    - necrologic disorders, 49
    - reproductive disorders, 48
    - respiratory disorders, 43
    - skin disorders, 49
  - known and unknown health hazards, 52
    - identified hazards, 52
    - methods for detection of present, unidentified hazards, 54
    - new hazards, 62
- hierarchy of controls, 175-185
  - advantages and disadvantages of, 178
    - advantages of engineering controls, 179
    - problems with engineering controls, 181
    - problems with personal protective equipment, 179
  - description of, 175

- consensus standards, 176
- controls for safety hazards, 177
- Government standards, 177
- views of health professionals, 175
- OSHA'S policy, 182
  - actions by the current administration, 183
- identification of occupational hazards, 6
- incentives, imperatives, and the decision to control, 297
  - assessment of existing incentives, 297
    - Government regulation, 320
    - labor market forces, collective bargaining, and worker's rights, 313
    - provision of information, 301
    - tort liability, 309
