#### Table V

### Functions of Technical Staff and Failure Rates

The staffing of minimum competency offices in state education agencies follows the pattern of state assessment offices and often includes the same personnel. Thirteen states reported technical staff employed to upgrade tests, and 10 employed testing personnel to provide local assistance. Technical assistance is provided to local school districts in interpreting test scores and using the results by 26 states, and in the administration of tests by 22 states.

Local education agency personnel receiving assistance from the state agency include principals (19 states), local education agency administrators (24 states), and teachers (17 states). The Texas Education Agency reported that its personnel give workshops to regional educational service center personnel, who in turn provide inservice and other assistance to local or local education agency personnel.

<sup>(11</sup> Failure rates reported are for 9th grade onlyther grades are not scored pass/failMinority figure is estimated averging Hispanic and Black scores across reading and mathority scores for writing were not availablewerage of reading and math failure rates in 1985 for Blacks was 35, for Hispanics. Steady improvement has been shown In all races, the greatest improvement being among blacks 1980 Blacks scored 409 below whitesNow the difference is 25\. Overall scores showed a drop In 1985 This was attributed to the simultaneous pilot testing of next year's test (which is harder). The combined affects of a harder test and a longer test probably resulted In lower scores the TABS portion.

people then are available to help LEA personnel.
