	<i>Page</i>
Introduction . . . “	1
Chapter 1: Defining and Characterizing Medical Wastes	3
Amounts and Composition	3
Designating Infectious Waste	4
Definitional Differences-EPA v. CDC	4
Classifying Infectious Waste as Hazardous Waste	6
Uncertainties for State Regulators	8
Chapter 2: Handling Medical Wastes and Potential Occupational Risks	9
Handling: Packaging, Storage, and Transportation	9
Packaging	9
Storage	10
Transportation	10
Potential Occupational Risks	11
Chapter 3: Current Technologies, Treatment, and Disposal Issues.. . . .	15
Incineration.	15
Controlled Air Incinerators	16
Other Types of Incinerators	16
Air Emissions and Ash	17
Concentrations of Emission Constituents	17
Possible Reasons for Higher Emission Levels of Dioxins/Furans and HCl	18
Concentrations of Constituents in Ash	19
Future Trends in Medical Waste Incineration.	19
Autoclaving	20
Incineration. Autoclaving and the Importance of Proper Operation	21
Health and Environmental Risks From Treatment Technologies	22
Chapter 4: Regulatory Authority and Current Practices	23
Federal Authority	23
State Regulatory Activities	23
Chapter 5: Managing Medical Wastes—Institutional and Policy Issues	27
Policy Issues for Federal Action.	28
Defining/Classifying Medical Wastes	28
Regulating Small v. Large Generators of Medical Wastes	30
Research and Data Needs	31
Concluding Remarks	32
References.	33

Figures

Figure	Page
1. Biological Hazard Symbol	10
2. Typical Controlled Air Incinerator	15
3. Stages of State Changes in Medical Waste Management Programs—As of March 1988	24
4. Type of Medical Waste Generators Regulated by States—As of March 1988	24

Tables

Table	Page
1. CDC/EPA Designations of Solid Wastes and Recommended Treatment/Disposal Methods	5
2. Joint Advisory Notice on the Protection Against Occupational Exposure to Hepatitis B Virus (HBV) and Human Immunodeficiency Virus (HIV)—Training Program Recommendations. . . .	12
3. Compliance Rates With Joint Advisory Notice—70-Hospital Sample	13
4. Compliance Rates With Joint Advisory Notice—30-Department Sample	13
5. Concentrations of Constituents in Emissions From Hospital Incinerators Without Particulate Control Devices	17
6. Dioxin and Furan Emission Concentrations	17
7. Concentrations of Dioxins and Furans in Fly Ash From Municipal and Hospital Incinerators	19
8. Status of Selected State Infectious Waste Incinerator Regulations	26
9. Legislation Pending in Congress on Medical Wastes	30
