

CONTENTS

	<i>Page</i>
CHAPTER 1: SUMMARY	3
Introduction	3
The Spread of Technology in Schools	6
What the Technology Can Do	11
Teachers and Technology	16
How Teachers Use Technology	16
Teacher Training in Technology	17
Educational Software	22
Research and Development	25
The Federal Role	25
The Future of R&D	26
CHAPTER 2: INTERACTIVE TECHNOLOGY IN TODAY'S CLASSROOMS	31
Findings	31
Adoption of Computer and Video Technologies: A Decade of Growth	31
Effects of Widespread Distribution	32
Student Access to Computers	33
Beyond Computers and Video	37
CHAPTER 3: THE IMPACT OF TECHNOLOGY ON LEARNING	41
Introduction	41
Findings	42
Evaluation Research: Scope and Methods	44
Computer-Assisted Instruction	45
Intelligent CAI	48
Mathematics and Science	51
Programming	51
Simulations	52
Microcomputer-Based Laboratories	53
Graphing	54
Multimedia Programs	56
Database Management	58
Word Processing	59
Language Arts	60
Reading Comprehension	60
Vocabulary and Grammar	61
Writing, Reading, and Spelling	61
Electronic Networks	63
Conclusions	65
CHAPTER 4: COST-EFFECTIVENESS: DOLLARS AND SENSE	69
Introduction and Findings	69
Estimating the Costs of Alternative Instructional Technologies	70
An Illustrative Case	70
The Cost to the Nation: Two Scenarios	71
Cost-Effectiveness	74
Political and Methodological Considerations	74
Basic Principles of Cost-Effectiveness Analysis	76
Computer-Assisted Instruction: A Survey of Cost-Effectiveness Research	76
Cost-Effectiveness Analysis in Practice	78
Conclusions and Policy Directions	81
CHAPTER 5: THE TEACHER'S ROLE	87
Introduction	87
Findings	87
How Teachers Use Technology	89
Background: Teacher Attitudes	89

Uses in the Classroom	91
How the Use of Computers Can Change Teaching Style	91
Effects on Classroom Management	96
Effects on Teacher Accountability: The Testing Question.	97
Teacher Training in Technology	98
Teacher Education Reform Efforts	98
Preservice Technology Education	99
A Brief History.	99
Current Efforts To Prepare Today's New Teachers To Use Computers	99
Inservice Technology Education	104
Unique Characteristics of Inservice Training in Technology	104
Factors Contributing to Effective Inservice Computer Education Programs	105
State and Local Efforts	107
Training From Other Sources	110
Policy Implications.	114
Teacher Education: A Place to Begin	115
Keeping Up With Technology: Inservice and Informal Training	115
Federal Leadership	116
CHAPTER 6: SOFTWARE: QUANTITY, QUALITY, AND THE MARKETPLACE	121
Introduction	121
Findings	122
Quantity, Quality, and Scope	122
Market Characteristics	122
Quantity and Scope of the Educational Software Supply	123
Integrated Learning Systems: The High End of the Software Market	123
The Low-Priced Market: Stand-Alone Software	125
Scope of Instructional Software	129
School Use of Noninstructional Software	132
Evaluation and Acquisition of Educational Software	133
Effects of Local Public Decisionmaking	133
Evaluation of Software Quality	134
The States and Software	141
Public Policy: Issues and Directions	142
Capital Limitations	143
Property Rights	143
Information Barriers and Transaction Costs	143
Policy Responses	144
Summary of Policy Directions	147
CHAPTER 7: RESEARCH AND DEVELOPMENT: PAST SUPPORT, PROMISING DIRECTIONS	151
Introduction	151
Findings	151
Education and R&D: A National perspective	153
Federal Support for Educational Technology R&D	154
The Department of Defense.	154
The National Science Foundation	159
Office of Education/Department of Education	163
Other Agency Support for Educational Technology R&D	168
Current Federal Priorities	169
Promising Directions for Research	171
Intelligent Tutoring Systems	172
Intelligence Extenders	175
Increasingly Complex Microworlds	176
Multimedia Learning Environments	176
New Measures of Assessing Learning	177

	<i>Page</i>
Research on How Technology Affects Teaching and the Social Structure of Schooling	178
Barriers to Implementation	179
Policy Options	180
Option 1: Take No Action	180
Option 2: Increase Resources in Existing Programs	180
Option 3: Facilitate R&D Transfer and Applications	181
Option 4: New Initiatives	182
Option 5: Support International Cooperation	183
Conclusions	184
CHAPTER 8: TECHNOLOGY AND THE FUTURE OF CLASSROOM INSTRUCTION	187
Introduction	187
Convergence of Information Technologies	189
Distance Learning	189
Networking	191
Audiographic Communications.	193
Broadcast	193
Integration of Technology	194
Advances in Memory and Data Storage Technologies	194
CD-ROM	195
Analog, Digital, and Optical Storage Media	196
Computer/Video Convergence	198
Advances in Software	199
Hypermedia	199
Integrated Learning Systems	199
Videodisc Software, Compatibility, and Video Programming	199
Summary and Conclusions	200
Epilog.	201
APPENDIX A: STATE ACTIVITIES IN EDUCATIONAL TECHNOLOGY	205
APPENDIX B: CHARACTERISTICS CONSIDERED IN EVALUATING EDUCATIONAL SOFTWARE	232
APPENDIX C: U.S. DEPARTMENT OF EDUCATION PRINCIPAL PROGRAMS PROVIDING FUNDS FOR TECHNOLOGY IN EDUCATION.	237
APPENDIX D: LIST OF ACRONYMS.	240
APPENDIX E: CONTRACTOR REPORTS	241
APPENDIX F: WORKSHOP PARTICIPANTS AND REVIEWERS AND CONTRIBUTORS	242

Boxes

<i>Box</i>	<i>Page</i>
1-A. Educational Technology: What Does It Cost?	8
1-B. The Teacher As a Coach: Teaching Science With a Microcomputer-Based Laboratory	13
1-c. Writing by Hand/Writing With a Wordprocessor	15
1-D. New Hampshire's Computers for Teachers Program	19
1-E. New York State Teacher Resource Centers and Electronic Networking	21
3-A. Solving Problems With the Algebra Tutor	50
3-B. Microcomputer-Based Laboratories in Practice	55
4-A. Arkansas Project IMPAC	79
5A. Deciding Not To Use Computers	90
5-B. Using Computers in an Elementary Classroom	92
5-C. Using Computers With Special Education Students	93
5-D. The Teacher as a Coach: Teaching Science With a Microcomputer-Based Laboratory	94
5-E. First Encounters With Computers: Some Teacher Concerns	106
5-F. Factors Contributing to Effective Inservice Computer Education Programs	106
5-G. IBM/National Computer Training Institute Cooperative Training Plan	111

5-H. Excerpts From a Computer Conference on the MIX Network: "The National Student Book Search"	114
6-A. "Early Burned, Inc."	127
6-B. "Major Force, Inc."	128
6-C. "Street Vendor Co., Inc."	129
6-D. Information For Software Decisions: A Sampling	135
6-E. Software Evaluation in New York City	136
6-F. Software Evaluation in California	137
?-A. The Special Characteristics and Contributions of the Defense Advanced Research Projects Agency (DARPA)	157
7-B. The Development of LOGO	160
7-C. NASA's Intelligent Computer-Aided Training: Spinoff for Schools	169
?-D. Guided Discovery: Teaching From a Learner's Level of Understanding	172
8-A. Apple Classroom of Tomorrow	188
8-B. Earth Lab.	192
8-C. Analog v. Digital	197

Figures

<i>Figure</i>	<i>Page</i>
1-1. U.S. Public Schools With At Least One Computer by Grade Level 1981-87	6
1-2. Average Number of Computers Per 30 Students in U.S. Public Schools, 1983-87	7
1-3. Distribution of Computers in U.S. Public Schools, 1988	7
1-4. State Estimates of Major Sources of Funding for Technology Used by School Districts	10
1-5. Readiness to Teach: Perceptions of Education School Faculty and Student Teachers	18
1-6. State Estimates of Sources offloading for Inservice Technology Training	19
2-1. U.S. Public Schools With Computers, 1987-88	32
2-2. Annual Rate of Adoption of Computers in U.S. Public Schools, 1981-87	32
2-3. U.S. Public Schools With At Least One Computer, by Grade Level, 1981-87	33
2-4. VCRs and Computers in U.S. Public Schools, 1982-87	33
2-5. School Size and Student Access to Computers, 1987-88	35
2-6. Students Per Computer in U.S. Public Schools by School Enrollment, 1987-88	35
2-7. Variation in Average Student-Computer Ratio by State, 1987-88	36
3-1. Teachers' Perceptions of Effects of Using Computers in Classrooms	41
3-2. Graphing Equations Using the Computer	57
4-1. District Education Budget and Costs of Implementing a Computer-Based Integrated Learning System (ILS) in Prince George's County, MD	73
4-2. Increasing Computer Inventories in U.S. Public Schools: Projected Impact on Total Annual Instructional Materials Expenditures	75
5-1. Readiness to Teach: Perceptions of Education School Faculty and Student Teachers	100
5-2. State Requirements and Recommendations for Preservice Technology Programs	102
5-3. State Requirements and Recommendations for Inservice Technology Programs	109
6-1. Trends in Availability of Software for Major Subject Areas	132
6-2. Recommended Software Titles Before and After 1985	140
6-3. Software Publishers' Expectations of Factors Affecting Future Profitability.	144
7-1. Obligations for R&D in the U.S. Department of Education as a Percentage of All Federal R&D Obligations, 1979-88	153
7-2.(a) U.S. Department of Education Obligations; (b) National Institute of Education Obligations, Fiscal Years 1973-86	153
7-3. Timeline of Major Instructional Technology Projects in the Defense Agencies, 1955-87	156
7-4. National Science Foundation Budget, 1952-88	162
7-5. National Science Foundation Obligations for Research and Development of Educational Technology in Elementary and Secondary Education	162
8-1. States With Distance Learning Projects	190
8-2. Evolution of Computer Storage Media	195

Tables

Table

Page

1-1. Costs of Computer Use (Frank Porter Graham Elementary School, Chapel Hill, North Carolina, 1986-88)	11
1-2. Distribution of Educational Software by Subject	22
1-3. Distribution of Educational Software by Type	22
2-1. Distribution of Schools by Computer Inventory, 1987-88	34
2-2. Average Number of Students Per Computer in U.S. Public Schools, 1983-87	34
2-3. Ranges of Student Computer Density in U.S. Public Schools	34
3-1. Mean Writing Scores by Group	62
4-1. Costs of an Integrated Learning System for Elementary Schools in Prince George's County, Maryland	72
4-2. Approximate Cost of Major Expansion of Installed Base of Free-Standing Computers in U.S. Public Elementary and Secondary Schools	74
4-3. Examples of Effectiveness Measures Used in Cost-Effectiveness Analysis	77
4-4. Cost-Effectiveness of Four Educational Interventions	77
4-5. Total Annual Costs Projected for Grades 3 and 5 Mathematics Instruction in Westberry Elementary School	80
4-6. Total Mathematics Mean Scores for Grades 3 and 5: CAI and Traditional Instruction in Westberry Elementary School	81
4-7. Total Mathematics Grade Placement Gains, Costs Per Student, and Costs Per Month of Gain: Grades 3 and 5, Westberry Elementary School	81
5-1. General Teacher Competencies in Technology	101
6-1. Distribution of Educational Software Programs by Subject	130
6-2. Distribution of Reading Software by Area	130
6-3. Distribution of Mathematics Software by Area	130
6-4. Distribution of Educational Software by Subject Area and Grade Range	131
6-5. Curriculum Requirements and Available Software: Middle and High Schools ,	131
6-6. Distribution of Educational Software by Type	132
6-7. Distribution of Major Subject Software by Type	133
6-8. Educational Software Titles Reviewed and Recommended	138
6-9. Educational Software Information Sources: Topology	139
6-10. "Self-Starter Software Co." Income Statement, 1986	144
7-1. Department of Defense Manpower and Training: Technology Research and Development Expenditures, 1976-87	159
7-2. Department of Defense Research and Development Funding, 1984-89	169
7-3. NSF Funding for Educational Technology Research and Development 1987-89.	170
7-4. Department of Education Funding for E-durational Technology Research, Development, and Demonstration, 1987-89	170
7-5. Promising Directions for Research: Selected Examples of Intelligent Tutoring Systems, Intelligence Extenders, Complex Microworlds, and Multimedia Learning Environments in K-12 Education	173
8-1. On-line Conferences for Teachers and Students Available to Subscribers to MIX (McGraw-Hill Information Exchange), December 1987	193
8-2. Examples of Electronic Networking Projects in Education	194
8-3. Advances untechnical Capabilities of Computers Used in Schools, 1977-87	196
