<b>GOVERNMENT INVOLVEMENT IN THE INNOVATION PROCESS</b>	
<b>I. Summary</b> . . . . .	<b>3</b>
Introduction . . . . .	<b>3</b>
The Government Role in the Innovation Process . . . . .	<b>3</b>
U.S. Experience . . . . .	<b>4</b>
Government Programs . . . . .	<b>4</b>
Table I. —Thirteen Program Areas. . . . .	<b>4</b>
A Comparison of Selected Industry Experiences . . . . .	<b>4</b>
Key Features of Government Support for Technological Innovation in Selected Foreign Countries. . . . .	<b>5</b>
Issues in Future U.S. Government Policy Toward Technological Innovation. . . . .	<b>5</b>
<b>II. Government Involvement in the Innovation Process:     Policy Implications.</b> . . . . .	<b>11</b>
Introduction . . . . .	<b>11</b>
The Approach and Structure of This Report. . . . .	<b>11</b>
The Government Role in the Innovation Process . . . . .	<b>12</b>
Reasons for Government Concern With Innovation , . . . . .	<b>14</b>
<b>III. U.S. Experience</b> . . . . .	<b>19</b>
Government Programs . . . . .	<b>19</b>
A Framework for Viewing U.S. Government Programs and Activities. . . . .	<b>19</b>
Identification of U.S. Programs . . . . .	<b>22</b>
A Comparison of Selected Industry Experiences . . . . .	<b>35</b>
<b>IV. Summary of Major Features of Several Foreign Approaches     to Technology Policies</b> . . . . .	<b>43</b>
Japan. . . . .	<b>43</b>
Great Britain. . . . .	<b>44</b>
France . . . . .	<b>45</b>
West Germany . . . . .	<b>46</b>
Summary Observations. . . . .	<b>46</b>
<b>V. Major Issues in U.S. Policy Toward Technological Innovation</b> . . . . .	<b>51</b>
Issue 1—Direct Support of Nonmission-Oriented Technology . . . . .	<b>51</b>
Issue 2—Reconsideration of the Role of the National Laboratories . . . . .	<b>54</b>
Issue 3—Facilitating New Entrants Into the Market. . . . .	<b>55</b>
Issue 4—Diffusion of Technology Within the Private Sector . . . . .	<b>56</b>
Issue 5—Implementation of Environmental and Safety Regulations . . . . .	<b>58</b>
Issue 6—Manpower Resources, the Labor Market, and Technology . . . . .	<b>60</b>
Issue 7—International Commerce and Domestic Innovation. . . . .	<b>62</b>
Issue 8—Support for Sector-Specific Microanalysis. . . . .	<b>63</b>
Issue 9—Support for Hazard Analysis . . . . .	<b>65</b>
Issue 10—Affecting the Demand for New Technologies . . . . .	<b>66</b>

Matrix V. —Government Support of Technology for Public Services Where Consumers are the Primary Users . . . . .	27
Matrix VI. —Support for the Development of Technology Where the Federal Government is the Primary User . . . . .	28
Matrix VII. —Support for the Science Base Necessary for the Development of New Technology . . . . .	29
Matrix VIII. —Policies To Affect Industry Structure Which May Affect the Development of Technology . . . . .	30
Matrix IX. —Policies Affecting Supply and Demand of Manpower Resources Having an Impact on Technological Change . . . . .	31
Matrix X. —Economic Policies With Unintended or Indirect Effects on Technological Innovation . . . . .	32
Matrix XI. —Policies Affecting International Trade and Investment. . . . .	33
Matrix XII.—Policies Intended To Create Shifts in Consumer Demand . . . . .	34
Matrix XIII. —Government Policies Responding to Worker Demand Having Impact on Technological Change. . . . .	35

# Government Involvement in the Innovation Process

A contractor's Report  
to the Office of Technology Assessment

CONGRESS OF  
THE UNITED STATES W  
Office of Technology Assessment

The research underlying this report was supported by a contract from the Office of Technology Assessment, U.S. Congress, to the Center for Policy Alternatives at the Massachusetts Institute of Technology.

Principal contributors to the report include:

George R. Heaton, Jr., Project Manager

J. Herbert Hollomon, Principal Investigator

Nicholas A. Ashford

Jinjoo Lee

Byron Battle

Wolfgang Leidig

Shing K. Fung

Amit Sen

Paul Horwitz

Marvin Sirbu

Linsu Kim

James Utterback

Meir Weinstein
