<i>Chapter</i>	<i>Page</i>
I. Summary	3
Background	3
Findings	4
The Information Society.	5
Role of Information	5
Information Technologies	6
Impacts on Institutions	7
New Needs for Education and Training	8
Case Studies on Information Technology,	8
Potential Technological Solutions . . .	9
Policy Issues and Options	10
Issues.	10
Options for Federal Action	11
2. The United States as an Information Society	15
Findings	15
Economic and Societal Impacts of Information Technology.	16
Changing Economic Base of the Nation	19
3. Implications for Economic Growth and Human Capital.	25
Findings	25
Knowledge and Growth	25
Education and Growth	27
Human Capital Theory	28
Need for Technical Education	29
Information Literacy.	29
Information Professionals	32
Information Scientists	34
4. Trends in Information Technology	37
Findings ...,	37
Communications.	37
Cable	38
Satellite Communication	38
Digital Telephone Network.	39
Local Distribution Networks	40
New Broadcast Technologies	41
Direct Broadcast Satellite.	41
Low-Power Broadcast	41
Computers	42
Desktop Computers	43
Hand-Held Computers	44
Human Interface	45
Storage Technology	46
Video Technology	47
Video Cassette Recorders	47
Improved Quality	47
Filmless Camera	47
Video Disk.	47
Information Services	48

<i>Chapter</i>	<i>Page</i>
Videotex and Teletext	49
Information Networks	50
Electronic Conferencing	51
Advanced Business Services	52
5. Educational Uses of Information Technology	55
Findings	55
Functions of Educational Technology, .	55
Passive Instruction	55
Interactive Instruction	56
Learning Environments	58
Information Resource	59
Administration and Instruction Management	60
Distribute Education	60
Testing and Diagnosis.	62
Capabilities of Educational Technology	62
Cost and Effectiveness	63
6. The Provision of Education in the United States	67
Findings	67
Social Change and Education in America	67
Elementary and Secondary Education .	70
Public Schools.	70
Status of the American Public School System	71
Future of the American Public School System	72
Private Alternatives to Public Schools	74
University and the Four-Year Colleges,	78
Public Role of Higher Education, ...	78
Status of American Colleges and Universities	80
Two-Year and Community Colleges. . .	83
Proprietary Education.	85
Status of Proprietary Schools	85
Characteristics of Proprietary Schools	87
Markets Served by Proprietary Schools	88
Applications of Information Technology in Proprietary Education	90
Future Uses	91
Future Uses by Other Industry Segments	92
Education in the Home.	92
Status of Education in the Home . .	92
Libraries	94
Education in the Library	95
Status of Libraries	95

Contents—Continued

<i>Chapter</i>	<i>Page</i>
Museums.	97
Museum Education	97
Status of Museums	98
Business and Labor	99
Role of Education in the Workplace .	100
Industry-Based Training and Education.	100
Trend Toward Decentralized Instruction.	101
Training: Investment. Expense. . . .	102
Relationship With Local Educational Institutions and Industry-Sponsored Educational Institutions	102
Information Technology in Corporate Instruction.	102
Factors That May Affect Instructional Use of Technology . . .	103
Implications	105
Union-Sponsored Training and Education.	105
Education Programs	105
Other Types of Instructional Programs	106
Information Technology in Union-Sponsored Instruction	107
7. State of Research and Development in Educational Technology	111
Findings	111
Introduction and Background	111
Changing R&D Climate	113
Federal Funding.	114
Private Funding.	114
Federal Commitment to Educational Technology R&D, Fiscal Year 1982	116
Discontinued and Consolidated Projects	118
Continuing Projects.	119
New Grants for Fiscal Year 1982	121
Federal Support for Educational Research Laboratories	122
Educational Technology R&D Support by Other Nations	122
France	123
European Commission	123
United Kingdom	123
Implications of the Present Federal Role in Educational Technology R&D	124
Present and Future Support for Educational Technology R&D	125
Case Studies of Landmark R&D Dissemination Efforts in Educational Technology	126

<i>Chapter</i>	<i>Page</i>
Case Study 1: Children's Television Workshop	126
Case Study 2: Development, Production, and Marketing of PLATO	128
Case Study 3: Computer Curriculum Corporation	133
Case Study 4: CONDUIT	135
8. Conditions That May Affect the Further Application of Information Technology in Education	141
Available Data on Educational Applications.	141
Microcomputers and Terminals Disk .	141
Videocassette Recorders and Video Cassette Recorders and Videodisk	143
Climate for Use of Information Technology in the Schools.	143
Hardware and Educational Software Vendors: Views of the Education Market	145
Conditions Affecting Commercial Courseware Development	146
Summary of Current Conditions	147
9. Federal Role in Education	151
Education Legislation	151
The Early Years: 1642-1860	151
The Years 1860-1930	152
The Expanding Federal Role: 1950-1970's	154
The Courts and Education	157
Federal Role in Museums	160
Federal Role in Libraries	160
Effect of Federal Telecommunication Regulation and Legislation on Education.	161
Governmental Control of Telecommunication.	161
Governmental Control of Education .	161
The Federal Communication Commission and Educational Telecommunication Services	162
Instructional Television Fixed Services	163
The Public Broadcasting Service . . .	164
Low Power Television and Direct Broadcast Satellites	164
Cable Television	164
Telecommunication Legislation and Educational Services	165

The Protection of Information	
Software: An Overview	166
Types of Software	166
Legal Protection for Software	167
Legal Protection: Issues and Educational Options.	172
Appendix	174
10. Implications for Policy	177
Arguments for Federal Action.	177
Arguments Against Federal Action	178
Congressional Options.	179
Option 1: Subsidize Hardware	179
Option 2: Subsidize Software	180
Option 3: Assume a Leadership Role.	180
Option 4: Incorporate Technology Initiatives in General Education Policy	181
Appendix A—Case Studies: Applications of Information Technologies.	187
Computers in Education: Lexington Public Schools, Lexington, Mass.	187
Computer-Using Educators and Computer Literacy Programs In Novato and Cupertino	194
Novato Unified School District, Novato, Calif	197
Cupertino Union School District, Cupertino, Calif	200
Technology Education and Training, Oxford Public Schools, Oxford, Mass.	203
Computer Literacy Program: Lyons Township Secondary School District, LaGrange, Ill.	209
Minnesota Schools and the Minnesota Educational Computing Consortium	214
MECC: A State Computing Agency	214
Instructional Computing, Houston Independent School District, Houston, Tex.	221
Information Technology and Education in the State of Alaska	227
EDUCOM	233
Industry-Based Training and Education Programs.	235
Information Technology and Libraries	237
Museums.	242
Military Uses of Information Technology.	245
Direct to the Home	252
Information Technology and Special Education.	256

<i>Table No.</i>	<i>Page</i>
Index	263

TABLES

<i>Table No.</i>	<i>Page</i>
1. Percentage Share of the U.S. Economy-by Sector	20
2. Some Representative Growth Figures for the Information Industry.	21
3. Percentage Employment in the Business Sector by Sex and Years of Education Completed	27
4. Unemployment Rates by Sex and Number of Years of Education Completed	28
5. Achievement Test Score Averages, 1972-79	31
6. Requirements for Computer Specialists	32
7. Percentages of Engineering Graduates and Trends in Shares of World Trade	34
8. The Growth of Cable Television in the United States.	38
9. Projected Demand for Satellite Communications in Number of Transponders	38
10. Chief Characteristics of Voice v. Data Communication	40
11. U.S. Installed Base of Personnel Computers by Market Sector	44
12. Micros in Schools	44
13. Number of Public Elementary/Secondary Schools and Estimated Percentage Distribution, By Level of Instruction and Grade Span Served: School Year 1978-79	71
14. Revenue and Nonrevenue Receipts of Public Elementary and Secondary Schools, By Source, 1977-78	72
15. Number of Postsecondary Schools With Occupational Programs, By Control and By Type of School Aggregate United States, 1980...	86
16. Number of Postsecondary Schools With Occupational Programs, By Control and By Type of School Aggregate United States, 1980.,	87
17. Percent Distribution of Men and Women by Control of School	89
18. Department of Defense Training and Personnel Systems Technology R&D Program Elements and Funding Levels—Fiscal Year 1981-82	116

Contents—Continued

<i>Table No.</i>	<i>Page</i>
19. Training and Personnel Systems Technology R&D Program: Selected Project Topics—Fiscal Year 1981 -82...	117
20. National Science Foundation R&D Budget, Fiscal Year 1982 for Selected Program Areas	117
21. Department of Education R&D Budget, Fiscal Year 1982 for Selected Program Areas	118
22. Department of Defense R&D Budget, Fiscal Year 1982 for Selected Divisions	118
23. Projected Federal Expenditures for Educational Technology R&D, Fiscal Year 1982	118
24. Continuation Grants for Educational Technology R&D, Fiscal Year 1982 . . .	120
25. New Grants for Educational Technology R&D, Fiscal Year 1982 . . .	121
26. Federal R&D Funding for Educational Technology Fiscal Year 1982 By Type of Technology	122
27. Public School Districts Providing Students Access to at Least One Computer for Educational Purposes: United States, 1980	142
28. Availability of Computers Within Districts: United States, Fall 1980	142
29. Total Shipments of Microcomputers in Public and Private Schools Operating on the Elementary, Secondary, and Postsecondary Levels and Forecasts of Courseware Sales	143
30. The Educational Courseware Industry .	144
31. What Are the Industries Competing for Business	146
A-1. Sources of Funds for Computer Hardware and Software, 1980-81	207

<i>Table No.</i>	<i>Page</i>
A-2. Five-Year Breakdown of Computer Hardware Costs	210
A-3. Advantages of On-Line Services	240
A-4. Number of Students and Cost of Various Types of Individual Training Fiscal Year 1982	247
A-5. Cost of R&D in Training and Personnel Systems Technology, in Thousands of Dollars, Fiscal Year 1982	247
A-6. Number of Ongoing Instructional Technology R&D Work Units By Service and Department of Defense Total, April 1981	247
A-7. Summary of Military Video Disk Projects	252

FIGURES

<i>Figure No.</i>	<i>Page</i>
1. Shifts in Employment.	30
2. Installed Base Micros Total Universe and School Installed	44
3. Quality of the Public Schools: Opinions of Parents With Public School Children	73
4. Secondary Schools Providing Special Programs	75
5. Private Elementary/Secondary School Tuition and Fees by Family Income Racial/Ethnic Group	76
A-1. Software Development Model	212
A-2. MECC Timesharing System Port Distribution by User System, 1975-81	217
A-3. Sample "Fail Safe" Parent Letter. . .	224
A-4. Iowa Tests of Basic Skills, Mean Composite Scores, HISD, 1971-81 . . .	225
