NON-RESIDENT ALIEN
SCHOLARSHIP STATEMENT TO ATTACH TO YOUR RETURN
TREATY COUNTRY

I. Residency Statement

If you are an F or J visa holder and if you have been present in the United States for less than five years, you must file a separate statement with the Internal Revenue Service regarding your residency status. Completing Form 8843 and attaching it to your return satisfies this requirement. (See linked Form 8843.)

II. Scholarship Statement

If you receive scholarship grant and you are from a country that DOES HAVE A TREATY with the United States, you must report on Line 6 Form 1040NR-EZ what (except for the treaty) would otherwise have been the taxable amount of your grant.

The instructions to Form 1040NR also require you to attach a statement to your return which includes the amount of the grant, the dates covered and the conditions under which it was given to you. You also are required to explain how much of your grant was taxable, how much was tax-exempt and the reasons for this determination.

Please note you are going to have to include on this statement (sample below) the amount of your scholarship that was used for tuition. This amount will not be listed on your 1042-S or W-2 but for 2001 a full year tuition was $25,795; spring tuition 2001 was $12,715; and fall tuition 2001 was $13,080. Your total grant which you must also include, will be tuition plus the amount of your grant excluded under the treaty (Line 6 of the tax return).
