Latin Salutatory Oration

Alexander Daniel Iriza

The Latin salutatory is awarded by vote of the faculty to one of the highest-ranking candidates for bachelor degrees. The special qualifications of a student as salutorian are taken into account, as well as scholastic standing.

Salutatio

*Habita in Comitiiis Academicis Princetoniae
In Nova Caesarea a.d. III Non. Iun.
Die III Iunii
Anno Salutis MMXIV
Anno Academiae CCLXVII*

Multos per annos et multas per scholas vecti, advenimus, amici, has laetas ad caerimonias, ut vos primo donarem munere diei et mutos (nequiquam) alloquerer collegas. Sed nolite diutius tacere, namque meritum ad finem itineris nostri pervenimus—salvete, magna classis duorum milium quattuordecim, et vobis gratulamini!

Primum te saluto, praeses Eisgruber, dux novus admirabilisque huius universitatis. Etsi semitae nostrae Princetoniae paulisper concurrerunt, tamen utrumque nostrum mutuo congressu valde locupletatum esse puto. Deinde egregios curatores nostros salvete iubeo, qui gubernacula navis nostrae per maria et placida et inclementia regitis. Tum vos saluto, sapientes professores, qui nos in viis libri atque mundi erudivistis. Et postremo vos saluto, carae matres patresque, qui nos a surculis parvulis coluistis. Maximas gratias vobis agimus quod nos huic almae matri per ultimum gradum auctus nostri ad maturitatem credidistis.

Multas res hos quattuor annos novissimos communicavimus: primum incendia quae victorias nostras in certaminibus pediludii celebrabant, deinde inflammatio meningium e qua donis trans aequora latis sanabamur. Sed maxime recordabimur copulas quas fecimus inter nos ipsos. Etsi tempus nobis hic discipulis confectum est, tamen quotannis comitatu maenadum satyrorumque iterum conveniemus.

Carpite futura! Atque pro tempore, amici, avete atque valete.

Secondary School Teaching Prizes

Recognition, by Provost David S. Lee, of recipients of prizes for distinguished secondary school teaching in the State of New Jersey.

Christa Cordes

East Side High School
Teacher of English

Christa Cordes is committed to each student's success; she leaves no one behind. Her students at East Side High School say she is the best teacher and the hardest teacher they will ever have. She connects the experiences of great fictional characters to the lives of her students to help them overcome obstacles and succeed. Sometimes success hinges on the simple message that they are not iron-bound to a pre-determined future; they can dream, and their dreams can come true. In the words of her students: "She wants us to find our spark, make our fire, and shine."

Luke De

The Pingry School
Teacher of Science

As a child, Luke De considered his parents' laboratory his playground. He never outgrew the attraction of science, and his great gift is his ability to instill that same enthusiasm in students throughout The Pingry School. He works tirelessly to open their minds to the power of science, while at the same time he teaches them to think critically about its claims, to expect rigor, and to demand proof. He trusts them to conduct scientific experiments with real-world applications, and his trust gives them the confidence to prove their hypotheses and themselves.

Daniel Foerg-Spittel

Tenaflly Middle School
Teacher of Language Arts

His colleagues at Tenaflly Middle School say Daniel Foerg-Spittel's calling is to teach. His students thrive in his limelight; they become scholars, literary critics, debaters, and critical thinkers. His influence extends beyond their intellectual well-being; he is their anchor, mentor, and friend. His students praise his "I-search" assignments that start with interviews of experts and culminate in public presentation of their findings. In all of his lessons he challenges each of them to search for the "I"—who they are, and who they can become.

Lily Lee

Northern Valley Regional High School
Teacher of Chinese

Lily Lee is "the complete package" according to her colleagues at Northern Valley Regional High School. She nurtures students and teachers, not only with her famous dumplings but also with her lessons in how to learn, how to cross cultural divides, and how to develop potential. Her lifelong passion for learning and education springs from her childhood experiences in China, and whether expressed in Chinese or English, this passion translates into an enduring, positive impact on her students' lives.

The President's Awards for Distinguished Teaching

Recognition, by Dean of the Faculty David P. Dobkin, of recipients of awards for sustained records of excellence in undergraduate- and graduate-level teaching by Princeton University faculty members.

Simon E. Gikandi

Robert Schirmer Professor of English

Simon Gikandi is, by every measure, one of the most highly regarded scholars in Anglophone literature and cultural history from Africa to the Caribbean, a leader of his discipline as editor of the prestigious "Proceedings of the Modern Language Association," and a beloved teacher renowned for his "bone deep" dedication to students. He teaches topics that are the most important and difficult, not just to his field, but to life: "What is the nature of evil?" "Why do good people do terrible things to others?" With his infectious love of learning and care for his students' well-being, he is one of those teachers from whom students happily never recover.

Claire F. Gmachl

Eugene Higgins Professor of Electrical Engineering

Claire Gmachl experiments, not just with lasers to produce ground-breaking discoveries, but with pedagogy, "flipping" her classroom to help students learn. A believer that all leaders should be exposed to technology, she engineered a new course for non-engineers. A believer that engineering should reflect the diversity of the society, she takes special care to mentor women and underrepresented minority students. A good teacher helps you understand a subject; a great teacher does so in a way that both captivates and inspires you. Her students describe her as a great teacher who makes them want to eat, breathe, and dream the subjects she teaches.

Anthony T. Grafton

Henry Putnam University Professor of History

A historian of the Renaissance and a renaissance man; a walking university and a comet of learning. Anthony Grafton is all of these things. Few scholars can match the breadth of his knowledge; few historians hold more sway in their profession; and few teachers anywhere are more masterful, or more intellectually generous. His students speak of his commitment to them, of his kindness, of his ability to inspire rather than terrify with his brilliance. Whether writing for "The Daily Princetonian" or "The New York Review of Books"; whether expounding on the blogosphere or the history of the footnote, he makes history as a teacher-scholar par excellence.

Robert N. Sandberg '70

Lecturer in English, Theater, and the Lewis Center for the Arts

Robert Sandberg amazes his students with his ability to slice a play apart using the tools of Aristotle. He imparts to his students those same sharp analytical skills, connecting what is on the page to what is on the stage. He understands that writing a play comes with breakthroughs and breakdowns and he is their net when they fall and their compass when they are lost. The warmth of his encouragement and support is felt by the entire student performance community. After graduation, as they assume their roles "in real life," his students cast him as an exemplar of how to live a meaningful life, do good work, and be uplifted by the presence of art.

Honorary Degrees

Presentation to the president of the candidates for honorary degrees by the University Orator and Trustee, Louise S. Sams, Class of 1979. Conferral of the degrees by the president.

Fazle Hasan Abed

Doctor of Laws

Fazle Hasan Abed is the founder and chair of BRAC (formerly the Bangladesh Rural Advancement Committee), the largest nongovernment development organization in the world. Abed formed the organization in 1972 to help rehabilitate refugees after the independence war in Bangladesh. For more than four decades, he has led BRAC in its efforts to alleviate poverty and empower the poor. Initially focused on microcredit, BRAC now helps an estimated 135 million people in 11 countries with health care, education, women's empowerment, enterprise development, microfinance, and other anti-poverty programs. BRAC has more than 100,000 employees worldwide. Among his many honors, Abed is the recipient of the first Clinton Global Citizenship Award, the Ramon Magsaysay Prize, the UNICEF Maurice Pate Award, the UNDP Mahbub ul Haq Award, and the WISE Prize for Education. He was knighted in 2010. That same year, he was appointed by UN Secretary General Ban Ki-moon to the Eminent Persons Group for the Least Developed Countries.

What began as a relief effort for war refugees in his home country of Bangladesh has, over four decades, blossomed into a profoundly effective and universally admired organization devoted to alleviating poverty for millions worldwide. His organizational and leadership skills, combined with his ceaseless commitment to uplifting the less fortunate, have led to innovative and enduring programs in economic development, education, and health care. He has created a model of how to have a lasting impact on those in need; he himself is a model of what it means to live one's life in the service of humanity.

Madeleine K. Albright

Doctor of Laws

Madeleine Albright served as U.S. secretary of state from 1997 to 2001. Nominated by President Bill Clinton, she was the first woman to hold that position, and at the time was the highest-ranking woman in the history of the U.S. government. During her tenure, she reinforced America's alliances, advocated for democracy and human rights, and promoted American trade, business, labor, and environmental standards abroad. In presenting her with the Presidential Medal of Freedom in 2012, President Barack Obama recognized her "courage and toughness," which "helped bring peace to the Balkans and paved the way for progress in some of the most unstable corners of the world." From 1993 to 1997, Albright served as the U.S. permanent representative to the United Nations. From 1989 to 1992, she served as president of the Center for National Policy. Since leaving office, she founded the Albright Stonebridge Group, a global strategy firm, and is chair of Albright Capital Management, an investment advisory firm focused on emerging markets. She has returned to teaching at Georgetown University and has written five books, including her autobiography, "Madame Secretary: A Memoir." Albright chairs the National Democratic Institute for International Affairs and the Pew Global Attitudes Project and is president of the Harry S. Truman Scholarship Foundation.

Wellesley College (B.A., 1959); Columbia University (Ph.D., 1976)

She stepped onto the world stage as Madame Secretary, two words that had never before been uttered in the echoing halls and paneled rooms of the U.S. State Department. A daughter of Prague, she led the fight to defend Kosovo's Pristina, championing and shaping an intervention that saved millions of people from exile and ethnic cleansing. She is a history maker and path breaker, inventing and reinventing herself as a scholar, teacher, entrepreneur, author, mother, grandmother, and mentor. Her legacy is a vision of American leadership in the world that reflects our core values of liberty and justice for all.

Herb Kelleher

Doctor of Laws

Herb Kelleher, a native of Camden, New Jersey, is co-founder and retired chairman, president, and CEO of Southwest Airlines. After a career in law, in 1967 Kelleher established the airline with one of his clients, Rollin King. He retired from Southwest more than 40 years later. The founders pioneered a low-cost airline that eliminated unnecessary services and used secondary airports. Kelleher, who became president and CEO of Southwest in 1981, led the company through its difficult opening years, spikes in fuel costs, and drops in business after 9/11. From its regional beginnings, Southwest Airlines is now a profitable major national carrier. In 1973, Southwest instituted its first profit-sharing program for employees. Kelleher has received numerous awards for leadership, including the Charles Lindbergh Award for Excellence in Aviation; the L. Welch Pogue Award for Lifetime Achievement in Aviation; the Bower Award for Business Leadership; and the Tony Jannus Award.

Wesleyan University (B.A., 1953); New York University School of Law (LL.B., 1956)

From English major at college to "CEO of the year" many times over, he composed a business plan on the back of a cocktail napkin in a San Antonio restaurant, and a small commuter airline with three planes grew to the world's largest low-cost carrier. A maverick as comfortable on a motorcycle as in a board meeting, he dared to manage differently when the airline industry hit turbulence, choosing to cut costs but not to jettison jobs. This son of Camden, New Jersey, showed clearly that a company can soar when firmly grounded in a commitment to the people who propel it: "Employees come first."

James M. McPherson

Doctor of Humane Letters

James McPherson is the George Henry Davis 1886 Professor of History, Emeritus, at Princeton. A pre-eminent Civil War scholar, McPherson joined the Princeton faculty in 1962, transferring to emeritus status in 2004. McPherson has published numerous books on the Civil War, including “Abraham Lincoln and the Second American Revolution,” “Drawn With the Sword: Reflections on the American Civil War,” and “For Cause and Comrades: Why Men Fought in the Civil War,” which won the Lincoln Prize in 1998. He was awarded a Pulitzer Prize in 1989 for “Battle Cry of Freedom: The Civil War Era.” In 2007, McPherson received the first Pritzker Military Library Literature Award for Lifetime Achievement in Military Writing. In 2000, he delivered the National Endowment for the Humanities’ annual Jefferson Lecture. Legendary for his intellectual generosity, McPherson taught popular courses in the history department and often led field trips to Civil War battle sites for students and alumni. A crusader for preservation, McPherson in 1991 was named by the U.S. Senate to the Civil War Sites Advisory Commission. He has served as president of the Society of American Historians and the American Historical Association. In 2004, he delivered Princeton’s Baccalaureate address.

Gustavus Adolphus College (B.A., 1958); Johns Hopkins University (Ph.D., 1963)

Fifty years after the publication of his first trailblazing book, he is our premier historian of the American Civil War. His writings have inspired and educated a vast readership, awakening us to how chance and contingency shaped the outcome of the nation’s “Iliad.” Although a master of complexity and nuance, he has never let us forget that the war fundamentally concerned the fate of what Abraham Lincoln called “the monstrous injustice of slavery.” Literally as well as imaginatively, he has walked and re-walked the horrific battlefields of that struggle, with a wit and a sense of tragic irony surpassed only by his moral seriousness.

James E. West

Doctor of Science

James West, an inventor, engineer and educator, worked for more than 40 years at Bell Laboratories. Since 2002, he has been a research professor of electrical and computer engineering at Johns Hopkins’ Whiting School of Engineering. In 1962, West co-invented the foil electret microphone with his colleague, Gerhard Sessler. The compact, battery-free invention is used widely in telephones, camcorders and audio recording devices. West holds more than 250 patents in the United States and other countries. Among his many awards, he received the National Medal of Technology and Innovation and the Benjamin Franklin Medal in Electrical Engineering. He is a member of the National Academy of Engineering and was inducted into the National Inventors Hall of Fame. West is a dedicated advocate for increasing diversity in the fields of science and technology. He was instrumental in establishing the Corporate Research Fellowship Program at Bell Labs, which, along with the Graduate Research Program for Women, has funded and graduated more than 400 Ph.D. students over the last four decades. He served on the National Academy of Engineering’s Committee on Diversity on the Engineering Workforce and co-founded the Association of Black Lab Employees. At Johns Hopkins, West chaired the Whiting School’s Divisional Diversity Council. The graduate fellowships West created for minority and women have supported the graduate work of more than a dozen Princeton alumni.

Temple University (B.S., 1957)

As a child growing up in rural Virginia, he had a near miss with electrocution that sparked a lifelong fascination with electricity. Over more than 40 endlessly inventive years at the storied AT&T Bell Laboratories, he revolutionized the telephone and recording industries. His tireless advocacy for increased diversity among professionals and students has helped transform the fields of science and technology. His still-growing legacy is manifest in the hundreds of patents he holds and the hundreds of women and minority scientists and engineers, some on our campus, who have benefited from his unending commitment to opening doors once shut.

A Commentary on Commencement

Remarks by the President

Christopher L. Eisgruber

Benediction

Deborah K. Blanks

Associate Dean of Religious Life
and of the Chapel

Alma Mater

Old Nassau

Tune ev'ry heart and ev'ry voice,
Bid ev'ry care withdraw;
Let all with one accord rejoice,
In praise of Old Nassau.

In praise of Old Nassau, we sing,
Hurrah! Hurrah! Hurrah!
Our hearts will give
while we shall live,
Three cheers for Old Nassau.

until the academic procession returns to the
staging area behind Nassau Hall.*

AVETE ATQVE VALETE

Princeton traces its founding to a royal charter granted on October 22, 1746, by King George the Second of England. The first Commencement Exercises were held in 1748, in Newark, then home of the College of New Jersey, as Princeton was originally called. Six students were graduated at the first Commencement; today there are approximately 1,260 seniors receiving undergraduate degrees.

One of Princeton's first graduate students was James Madison 1771, later the fourth president of the United States. He remained at the college after graduation to continue his studies with President John Witherspoon, who was the only college president as well as the only clergyman to sign the Declaration of Independence. Systematic graduate instruction began in the 1870s, and the Graduate School, as it is known today, was formally organized in 1900. More than 500 recipients of advanced degrees will be recognized at Commencement today.

Princeton's Commencements have been held in late spring only since 1844. Before then the ceremony took place in the fall because the College was in session all summer long. Since the College moved to Princeton in 1756, Commencement has been held in a variety of locations on or near campus, including Alexander Hall, the First Presbyterian Church, and Nassau Hall, but since 1922 the front lawn of Nassau Hall (known as front campus) has been the site of Commencement, weather permitting.

The Commencement Setting

Guests at a Commencement held on front campus visit historic ground. The word "campus" defined to mean the grounds of a college was first used at Princeton University. "Front campus" is used to refer to the lawn in front of Nassau Hall, Princeton's oldest building and a registered national historic landmark. The largest academic structure in the Colonies, Nassau Hall provided, for nearly one-half century after its completion in 1756, all the facilities of the College—classrooms, bedrooms, refectory, library, and prayer hall.

Nassau Hall was the scene of an unsuccessful stand of the British in the crucial Battle of Princeton in 1777. In the spring of 1779, when the farm called Prospect just behind Nassau Hall was

owned by a retired Indian agent, its campus border (now McCosh Walk) was home to an encampment of Delaware sachem. These Native American leaders, here at the behest of the Continental Congress, presented three young Delaware Indians for education in Nassau Hall at Congress's expense—making the education of American Indians at Princeton the first instance of U.S. federal aid to education.

Nassau Hall was once the Capitol of the country: The Continental Congress met in its library room for four months in 1783. In its prayer hall, Washington received the thanks of Congress for his conduct of the war.

To the north—behind the spectator facing Nassau Hall—is FitzRandolph Gate, named in honor of Nathaniel and Rebecca FitzRandolph, who donated the land on which Nassau Hall was built.

To the west is the John Maclean House, built as a home for the president when Nassau Hall was constructed in 1756. It is named for Princeton's 10th president, who lived there between 1854 and 1868. Ten of Princeton's first 11 presidents, until 1879, lived in the house. It was the residence of deans of the faculty between 1883 and 1967 and became the headquarters of the Alumni Council in 1968. The sycamore trees in the front yard are known as "the Stamp Act Trees" because they were planted in 1765, the year the Stamp Act was repealed.

Behind Maclean House is Stanhope Hall, the University's third-oldest building, erected in 1803. Its architect was Benjamin Latrobe, who also designed the Capitol in Washington and supervised the reconstruction of Nassau Hall after a disastrous fire in 1802. Stanhope Hall is now home of the Center for African American Studies.

To the east is the Joseph Henry House, the home of the University's Society of Fellows in the Liberal Arts and the Council of the Humanities. It was built in 1837 for and according to the design of Joseph Henry, professor of natural philosophy and a pioneer experimenter in electromagnetism. Originally built to the south of Stanhope Hall, the house was relocated twice before being moved to its present location in 1946 to make way for Firestone Library. Professor Henry sent messages over a wire from his campus laboratory to his home several years

before Morse perfected the telegraph for commercial use. He later became the first secretary of the Smithsonian Institution in Washington, D.C.

Flanking the front steps of Nassau Hall are two bronze tigers that were given to the University in 1911 by the Class of 1879, Woodrow Wilson's class. The tiger has been a symbol of Princeton since the latter part of the 19th century.

On the Commencement platform, front and center, is a replica of the University's seal, which is the corporate signature of the Trustees (it is also reproduced on the cover of this program). Today's ceremony is a continuation of a regular Board meeting that was adjourned yesterday "to reconvene on front campus," to permit the Trustees to confirm undergraduate, advanced, and honorary degrees at this public ceremony.

The current seal was adopted in 1896 when, at the Sesquicentennial of its founding, the College of New Jersey became Princeton University. The Trustees' minutes of February 13, 1896, describe the seal as follows: "... a shield resting upon a circle. In the upper part of the shield an open Bible with Latin characters VET NOV TESTAMENTUM signifies the Old and New Testaments.... In the lower part a chevron, denoting the rafters of a building. In the spaces between the sides of the shield and the circle the motto DEI SUB NUMINE VIGET (Under God's power she flourishes). On the outside of the circle SIGILLUM UNIVERSITATIS PRINCETONIENSIS (the seal of Princeton University)."

The front campus is of particular importance to alumni of the University. It is where students become alumni at Commencement and where alumni assemble for the annual P-rade at Reunions just prior to Commencement. During a special Charter Day convocation to celebrate the University's 250th anniversary a plaque was placed in the center of front campus, where the crosswalks meet, to recognize the many and diverse contributions of alumni. The plaque's inscription reads, "In the Nation's Service, In the Service of All Nations. On the occasion of its 250th Anniversary Princeton University here records its gratitude to its alumni for their devotion to the University and its mission of education, scholarship, and service. October 22, 1996."

The Academic Procession

The academic procession is led by the chief marshal, a member of the faculty appointed to this position by the president. The forming of the procession, the seating of Commencement participants, and other aspects of Commencement Exercises are managed by the faculty marshals and the assistant marshals. Faculty marshals are identified by their unique orange gowns and black 16th-century caps, as is the mace-bearer, who carries the ceremonial mace in the academic procession. Assistant marshals, who are members of various University staffs, wear academic gowns and distinctive orange-and-black Da Vinci caps; student ushers wear academic gowns with orange piping and no hoods.

Advanced degree candidates, receiving masters' or doctoral degrees, come first in the procession. They received their academic hoods at a Graduate School ceremony yesterday. They are preceded by a gonfalon, a decorative banner representing the "coat of arms" of the Graduate College, a graduate student residence. Seniors come next, also preceded by gonfalons, for each of Princeton's six residential colleges.

Since 1982, residential colleges have been the center of residential life for freshmen and sophomores. In fall 2007, with the opening of Whitman College, the University inaugurated an expanded residential college system that includes three four-year colleges and pairs them with three two-year colleges. Juniors and seniors may live in the residential colleges and even upperclass students who do not live in the colleges remain associated with them. Each college has a faculty master, dean, director of studies and director of student life, as well as residential college advisers, who are upperclass students, and resident graduate students. Academic advising for freshmen and sophomores is centered at the colleges, and juniors and seniors also are encouraged to confer with their college advisers for non-departmental advising throughout their undergraduate careers. Following Commencement Exercises today, seniors will receive their diplomas in their residential college (see Diploma Distribution Events below).

Following degree candidates are members of the platform party including members of the faculty and senior administration, Trustees and special award

winners, heads of neighboring institutions of higher learning, and the mayor of Princeton. At the end of the procession are the chair of the Board of Trustees and the president of the University, led by the faculty mace-bearer. The mace was presented to the University by the citizens of Princeton in 1956, on the occasion of the 200th anniversary of the opening of Nassau Hall. It symbolizes the authority of the president of the University as well as the close relationship that has existed between the University and the community ever since the College was first invited to move to Princeton in 1752. The mace's silver headpiece is dominated by the eagle of freedom surmounting the orb of power—a traditional American pattern. Directly below is the seal of the University, encircled by ivy. The ebony staff is fluted to symbolize the fasces of authority. A half-staff circle of silver is decorated with the seals of the United States and the State of New Jersey, and also of Great Britain, under whose authority the first charter was granted in 1746.

The president of the University wears a special gown, symbolic of that office and of the institutional continuity it represents. The gown is black, trimmed with gold, and faced with the orange of Princeton and of the House of Nassau. The 19 bands of gold lacing on the sleeves of the gown represent the 20 presidents who have guided Princeton since its founding. In order of succession they are Jonathan Dickinson; Aaron Burr Sr.; Jonathan Edwards; Samuel Davies; Samuel Finley; John Witherspoon; Samuel Stanhope Smith; Ashbel Green; James Carnahan; John Maclean; James McCosh; Francis Landey Patton; Woodrow Wilson; John Grier Hibben; Harold Willis Dodds; Robert Francis Goheen; William Gordon Bowen; Harold Tafler Shapiro; Shirley M. Tilghman; and Christopher L. Eisgruber, who assumed office July 1, 2013.

Academic Dress and Custom

Three major levels of academic achievement are represented by different types of gowns. Successful completion of requirements for the bachelor's degree is symbolized by the bachelor's gown, made of black material, with long, pointed sleeves. The gown is generally worn closed. Like the bachelor's gown, the master's gown is black without trim and is identified by the shape of the oblong

sleeve, square at the end and sealed, so that the upper part of the arm comes through a slit in the sleeve. The doctor's gown and the master's gown may be worn open or closed.

Although some universities prescribe a solid color such as red, crimson, or green for their doctoral gowns, in the United States most are black. In some cases the gown's trim matches the edging of the hood, thus indicating the profession or field of major interest. The doctoral gown has bell-shaped sleeves as a further distinguishing mark.

Because members of the Princeton University faculty completed their graduate work at many different educational institutions in this country and abroad, there will be a variety of raiment in today's procession. Some degree holders wear no hood because their academic robe itself symbolizes the degree awarded (witness the scarlet gown of Oxford).

The length and shape of the academic hood and the width of its velvet edging help to identify the level of the degree that the wearer has earned. Sometimes velvet edging is used to indicate the field or discipline in which the degree was granted. Some examples of colors assigned to different disciplines are: dark blue, philosophy; light blue, education; peacock blue, public affairs; brown, fine arts or architecture; copper, economics; green, medicine; orange, engineering; pink, music; purple, law; scarlet, divinity or theology; white, arts, humanities, or letters; golden yellow, science or science in engineering.

The lining of the academic hood provides added color and gives further meaning to most academic costumes. The black shell of the hood, varying in size for each of the three kinds of degrees, is lined with the official color (or colors) of the college or university conferring the degree. More than one color is often shown by the use of the chevron or by an equal division of school colors.

Caps, generally mortarboards with tassels, have their own significance. Some foreign degree holders wear special hats, distinctive to their degree and institution. Master's and bachelor's tassels are black, while the doctor's tassel may be black or gold. The doctoral cap may be made of velvet.

The Use of Latin

In 1748 the exercises were conducted entirely in Latin. Besides the address by the salutatorian "performed in good Latin from his Memory in a handsome oratorical Manner," there were also "publick Disputations in Latin" by all six candidates for the bachelor's degree on six separate questions in philosophy and theology, and "an elegant Oration in the Latin Tongue, delivered memoriter," by Aaron Burr Sr., the second president of the College. Today, Latin is still used by the president in the conferring of degrees and by the salutatorian. Degrees are conferred under the authority of the president and the Trustees, as established in the charter. In token thereof, the president and Trustees wear caps when conferring degrees. Each time a dean or the University orator puts on a cap and goes to the lectern to present candidates for degrees, the Trustees also put on their caps. The president makes appropriate remarks and tips his cap to signify the formal conferral of the degree.

The Latin used by the president in the conferring of degrees is simple and straightforward: *Auctoritate mihi a curatoribus Vniversitatis Princetoniensis commissa, vos ad gradum primum in artibus et cum honoribus, ut indicatum est, admitto.* "By the authority vested in me by the Trustees of Princeton University, I admit you to the degree of bachelor of arts, with honors as indicated." The same formula is used for all the other degrees with appropriate amendments.

The Latin Salutatory and the Valedictory

The Latin salutatory is the oldest Commencement honor, dating to the first Commencement in 1748. Some of the most distinguished members of the Princeton faculty were former salutatorians, including Henry Burchard Fine, Henry van Dyke, Allan Marquand, William Berryman Scott, Henry Norris Russell, and President Emeritus Robert Francis Goheen.

The valedictory was first awarded as a graduation honor in 1760. Probably the greatest moment ever experienced by a Princeton valedictorian was the one enjoyed by Ashbel Green in 1783. The Continental Congress held some of its meetings that year in the library room of Nassau Hall. It adjourned its sessions to attend Commencement. Green concluded

his valedictory with an address of some length to George Washington, who was present. "The next day," Green later recorded, "General Washington met me in the entry of the College as he was going to a committee-room of Congress, took me by the hand, walked with me a short time, flattered me a little, and desired me to present his best respects to my classmates, and his best wishes for their success in life. There has never been such an audience at a Commencement before and perhaps there never will be again." Later, in 1812, Ashbel Green became Princeton's eighth president.

Academic Honors

Membership in Phi Beta Kappa is based on general academic performance throughout the college course and through election by the society. Membership in Sigma Xi is accorded in science and engineering. Undergraduates who show promise in scientific and engineering research are elected to associate membership. The national engineering society, Tau Beta Pi, has a chapter at Princeton to which certain candidates for the B.S.E. degree are admitted in recognition of superior scholarship.

The first honorary degree given by Princeton was master of arts honoris causa, conferred at the first Commencement upon Jonathan Belcher, governor of the Province of New Jersey and promoter and benefactor of the College, who secured its second charter. The Trustees sought to honor him further in 1756 by proposing to name the College's first building for him. He declined and suggested instead that it be named in honor of William III, "a branch of the illustrious House of Nassau."

Today candidates for honorary degrees are selected by a committee made up of Trustees and members of the University community. The criteria used in the committee's deliberations include genuine achievement and distinction in an activity consonant with the mission of the University; the advancement of learning in the arts, sciences, and technology, and for the public welfare; and distinguished contribution in elective, appointive, or career service notable for demonstrated qualities of intellect as well as character. Candidates must be approved by a vote of four-fifths of the Board of Trustees present and voting.

Music for Commencement

Members of the Chamber Orchestra of Philadelphia, conducted by Michael Pratt, conductor of the University Orchestra and director of the Program in Musical Performance, provide the music for today's Commencement. Selections for the pre-Commencement concert may include Paul Dukas' Fanfare from "La Peri"; Paul Erion's arrangements of George Frideric Handel's "Music for the Royal Fireworks" and Richard Wagner's "Elsa's Procession to the Cathedral"; and Gustav Holst's own arrangement for band of "Jupiter" from "The Planets."

During the procession, you will hear classics from the British military band repertory: Holst's "Suites 1 and 2 for Military Band," Ralph Vaughan Williams' "Folk Song Suite," and William Walton's "Crown Imperial March," the last composed for the coronation of King George VI. The recessional music includes Donald Hunsberger's arrangement of Dmitri Shostakovich's "Festive Overture," and concludes with marches by John Philip Sousa.

At the close of today's program, "Old Nassau" will be led by members of the senior class Ryan McCarty, Katherine Elisabeth Mount, and Tanyaradzwa A. Tawengwa.

President of the University Christopher L. Eisgruber

Christopher Ludwig Eisgruber was elected Princeton University's 20th president on April 21, 2013, and assumed office on July 1, 2013. A renowned constitutional scholar, he served as a member of the Princeton faculty for 12 years and as Princeton's provost for nine years before being named president.

Eisgruber, who grew up in Indiana and Oregon, received his A.B. in physics from Princeton in 1983, graduating magna cum laude and Phi Beta Kappa. He then earned an M.Litt in politics at the University of Oxford as a Rhodes Scholar, and a J.D. cum laude at the University of Chicago Law School, where he served as editor-in-chief of the law review. After clerking for U.S. Court of Appeals Judge Patrick Higginbotham and U.S. Supreme Court Justice John Paul Stevens, he taught at New York University's School of Law for 11 years.

In 2001, Eisgruber joined the Princeton faculty as the director of the Program in Law and Public Affairs and the Laurance S. Rockefeller Professor of Public Affairs in the Woodrow Wilson School of Public and International Affairs and the University Center for Human Values. He directed Princeton's Program in Law and Public Affairs from 2001 to 2004, and he served for a year as acting director of the Program in Ethics and Public Affairs in 2002-03.

In addition to writing and editing several books and publishing numerous articles on constitutional issues, Eisgruber has testified multiple times before legislative bodies on the issue of religious freedom. His books include "Constitutional Self-Government" (2001); "Global Justice and the Bulwarks of Localism: Human Rights in Context" (edited with Andras Sajo, 2005); "Religious Freedom and the Constitution" (with Lawrence Sager, 2007); and "The Next Justice: Repairing the Supreme Court Appointments Process" (2007). In 2014, he was elected to membership in the American Academy of Arts and Sciences.

Eisgruber was named Princeton's 11th provost in 2004 and in that capacity was the University's second-ranking official and its chief academic and budgetary officer.

As provost, Eisgruber was the general deputy to the president and chaired the Academic Planning Group (which oversees long-range academic planning), the Priorities Committee (which makes recommendations regarding the University's operating budget), and the executive committee of the Council of the Princeton University Community.

During his tenure, he played a central role in many key University initiatives, including broadening Princeton's international initiatives for students and faculty; increasing the diversity of the campus; guiding Princeton's entry into the online learning movement; and leading the University's efforts to cut costs during the recession in 2008 and 2009.

He is also a gifted teacher; among the courses he taught as provost was a freshman seminar titled "The Supreme Court and Constitutional Democracy." Before his appointment as provost, he served as a faculty representative on the Alumni Council Executive Committee and taught in the Alumni Studies program, and as provost he met frequently with alumni groups on campus and around the world.

In case of severe weather

If Commencement on front campus is interrupted by heavy rain, high winds, or thunder and lightning, the ceremony will be ended promptly. The president will award undergraduate and advanced degrees, should that part of the program not have been reached, and guests and graduates will be dismissed. Diplomas may be picked up as described under "Diploma Distribution Events." The platform party, and guests of faculty and of teacher award winners, and of honorary degree recipients will retire to the Faculty Room in Nassau Hall where these awards and certificates will be presented. Other guests and degree candidates must vacate the area and seek shelter as directed by Public Safety Officers, Assistant Marshals, and ushers. Recommended locations for shelter include Alexander Hall and Dillon Gym (on the west side), Firestone Library and the University Chapel (on the east side).

Please turn off cell phones and other electronic devices or switch them to silent/vibrate mode during the ceremony.

Photographs of the ceremony taken by photographers engaged by the University will be available at www.princeton.edu/pr/gradpics/2014. These include photographs of the graduates exiting FitzRandolph Gate at the end of the ceremony.

Restrooms are located in Chancellor Green; at the corner of East Pyne opposite Whig Hall; in Alexander Hall (on the west side and in the basement); in Clio Hall (use rear entrance); and in West College.

Diploma Distribution Events

Each of the residential colleges hosts a reception following Commencement for seniors and their guests, and diplomas will be distributed at these events. Seniors should go to the college to which they are currently assigned to receive their diplomas. Diplomas will be available immediately after Commencement until 2:30 p.m. in the residential colleges. Colleges are within walking distance of Nassau Hall, and shuttles are available from Alexander Hall following Commencement.

Diplomas not picked up at the residential college receptions will be available in the Office of the Registrar in 101 West College from 3 to 5 p.m. on Commencement day and from 9 a.m. to 5 p.m. on the day following Commencement.

Shuttles to the receptions leave from Alexander Hall after graduation. Locations of the receptions in the colleges follow.

Butler College: Butler Green on Elm Drive. The diploma distribution tent is near Yoseloff Hall and behind the large dining/reception tent. The Central Line travels along Elm Drive stopping at the Butler College event.

Forbes College: Forbes College living room and terrace. The "Forbes Express" bus goes directly to Forbes College; the bus will make return trips stopping at the West parking garage, after 1:30 p.m.

Mathey College: Hamilton-Joline corridor (diplomas distributed); Mathey College dining hall and common room (reception areas). Mathey College is adjacent to the Commencement location; please use the walkway marked between Hamilton and Joline Halls.

Rockefeller College: Holder Cloister (diplomas distributed); Rockefeller College common room and dining hall (reception areas). Holder Cloister's entrance is between Alexander Hall and Nassau Street. Please use the entrance to the dining hall on Nassau Street.

Whitman College: The Class of 1963 Courtyard. The Central Line travels along Elm Drive stopping at Whitman College.

Wilson College: Dodge Osborn Courtyard. Take the Central Line south on Elm Drive. Exit at Whitman College and walk east on Goheen Walk. Wilson College is on the left. Enter the main lobby, proceed up the stairs and exit through the lobby doors on the right to reach Dodge-Osborn Courtyard.

Advanced degree recipients whose degrees have been conferred by the trustees at the current meeting receive their diplomas on Cannon Green, in front of Clio Hall, home of the Graduate School.
