

## SELF-QUARANTINE

You have received guidance to self-quarantine at this time. This means remaining at home, not going to gatherings or crowded public places, limiting time outside of your home, and monitoring your health.

### While self-quarantining:

- **Stay home and avoid contact with others.** Do not go to work, class or lab and do not participate in any campus activities for this 14-day period.
- **Avoid non-essential travel on or off campus** and limit your activities in public like limiting shopping for food, taking walks outside, etc. Do not take public transportation, taxis, or ride-shares during this time.
- **You should not share items with others in your home**, including dishes, drinking glasses, cups, eating utensils, towels, bedding, etc.
- **Clean all “high-touch” surfaces**, such as counters, tabletops, doorknobs, bathroom fixtures, toilets, phones, keyboards, tablets, and bedside tables daily.
- **Take your temperature and call your healthcare provider** if you have a temperature of 100.4 F, cough or difficulty breathing and you are on campus. You should mention that you have been in contact with someone who has tested positive for COVID-19 or are within 14 days from having returned from abroad.

### If you must go out:

- **Cover your mouth and nose with a tissue when you cough or sneeze.** Throw used tissues in a lined trash can, and immediately wash your hands with soap and water for at least 20 seconds
- **Wash your hands often with soap and water for at least 20 seconds**, especially after going to the bathroom; before eating; and after blowing your nose, coughing, or sneezing. If soap and water are not readily available, **use an alcohol-based hand sanitizer with at least 60% alcohol.**
- **Keep your distance from others** (about 6 feet or 2 meters). Do not use public transportation. Avoid shaking hands, hugging, kissing, etc.

### If you develop symptoms:

If you have a **fever, cough and difficulty breathing**, seek medical attention and call in advance.

- **Undergraduate and graduate students** – call University Health Services at 609-258-3141.
- **Employees** – contact your primary care provider or local urgent care center.

## HOW TO KEEP YOURSELF BUSY

Self-quarantining can feel isolating and you may find yourself worrying about or obsessing over if you become sick. Try to keep yourself and your mind busy, and stay in touch with people who can support you.

- **Call or video chat with your family and/or friends.** Sometimes listening to someone else talk about their day or having the opportunity to vent can keep us from getting caught in our own heads.
- **Watch videos.** Whether it is streaming a television show or movie on an online platform, or falling down a YouTube black hole of cute animal videos, make some time to enjoy yourself. You can even learn a new skill or language just from a video!
- **Open your window and get some fresh air.** This can help you from feeling cooped up or your room feeling “stuffy”.
- **Read.** Whether it is for pleasure or for an assignment, get to reading. It can be a great escape from reality for a while.
- **Get moving.** Do some stretches, march around your room, do some “bodyweight only” exercises or jumping jacks. Anything to get your blood pumping. You can also take a walk outside, provided you keep a safe distance (at least 6 feet or 2 meters) from others.
- **Remember to eat and hydrate.** When we are out of our routines, we can forget to take care of our basic needs, like eating meals and staying hydrated. If you find you are forgetting, try setting a timer to remind you.
- **Listen to music or guided meditation.** If you are feeling activated, try listening to calming music or following a guided meditation (e.g., <https://uhs.princeton.edu/health-resources/stress#audioguides>)
- **Take a break from the news.** If reading news articles or staying up-to-date on alerts about COVID-19 is making you anxious, try taking a break from it.

## SUPPORT RESOURCES

Call ahead before visiting any medical provider(s).

Counseling & Psychological Services\*  
609-258-3141

University Health Services - Medical Services  
609-258-3141

\*Appointments will be conducted via Telehealth (virtual meeting). The details will be arranged after you schedule your appointment.
