

Wilderness First Responder Course

Princeton University
Sun. Jan. 23 - Sun. Jan. 30, 2011

Who needs Wilderness First Aid Training?

- **Outdoor Trip Leaders / First Aid Providers**
- **Community Service Volunteers**
- **Field Scientists**
- **Travelers to remote areas:**
 - Princeton-in-Africa
 - Princeton-in-Asia
 - Princeton-in-Latin America
 - Engineers Without Borders

The WFR course will be taught by Wilderness Medical Associates, a leader in wilderness first aid education. Instruction will focus on emergency care in a wilderness context: remote locations, severe environments and improvised gear.

The 70-hour advanced first aid course covers patient examination and assessment, wilderness rescue, anatomy, trauma care, environmental emergencies, splints, and backcountry medicine. There will be lectures and skills practice, simulated rescues, daily quizzes, and a final exam. Be prepared for awesome outdoor first aid simulations!

Successful completion includes a 3-year certification as both Wilderness First Responder and CPR provider.

Course Fee: \$495 Students with PU ID, \$650 Faculty/Staff/General Public

*University members may register at the OA TripStore: <https://oa2.princeton.edu/tripstore>
The course will open to the public on December 9; for details and to register, contact:*
