Foreword

Over 11/2 billion tons of hazardous materials are transported annually in the United States. Most of these materials reach their destinations safely because it is in society’s and industry’s best interests to have them do so. We Americans take for granted the convenience of our transportation system and the amenities of modern life that the petroleum, chemical, and nuclear industries help make possible. Sometimes, however, an accident occurs, and a hazardous material is released, causing damage to the public and the environment. The occasional serious accident is both frightening and worrisome, while a disaster, such as the thousands of deaths and injuries in Bhopal, India, and the enormous release of radioactivity at Chernobyl, raises public apprehensions dramatically. Indeed, few activities with such statistically low risks as the transportation of hazardous materials arouse such intense public concern.

The Hazardous Materials Transportation Act, passed in 1975, is the primary Federal law governing this transportation. Largely unchanged in the past dozen years, the Act will be scrutinized carefully by Congress in the near future as it comes due for reauthorization. To determine whether major safety problems exist in the transportation of hazardous materials that should be addressed through legislation, and whether appropriate technologies exist that could improve this essential portion of our Nation’s commerce, the Senate Committee on Science, Commerce, and Transportation requested the Office of Technology Assessment to undertake this study. Subsequently, the House Committee on Public Works; the Subcommittee on Commerce, Transportation, and Tourism of the House Committee on Energy and Commerce; and the Subcommittee on Government Activities and Transportation of the House Committee on Government Operations endorsed the study. OTA’s report on Transportation of Hazardous Materials includes a comprehensive assessment of the regulations, information systems, container safety, and training for emergency response and enforcement for consideration by Congress as it deliberates on reauthorization of the Hazardous Materials Transportation Act.

The advisory panel, workshop participants, and contributors for this study played key roles in developing the major issues and contributed a broad and invaluable range of perspectives. OTA thanks them for their commitment of time and energy. Their participation does not necessarily represent endorsement of the contents of the report, for which OTA bears sole responsibility.
NOTE: OTA appreciates and is grateful for the valuable assistance and thoughtful critiques provided by the advisory panel members. The panel does not, however, necessarily approve, disapprove, or endorse this report. OTA assumes full responsibility for the report and the accuracy of its content.
Reviewers and Contributors

Edward A. Altemos, U.S. Department of Transportation
Paula Alford, National Association of Towns and Townships
Frederic E. Allen, Allen Enterprises, Inc.
John C. Allen, Battelle Columbus Laboratories
George C. Allen, Jr., Sandia National Laboratories
Louis J. Amabili, Delaware State Fire School
Lindsay Audin, Goldman, Sopkolow, Copeland, P.C.
Joe Bahnick, U.S. Environmental Protection Agency
Steve Ballou, Iowa Department of Water, Air, and Waste Management
Lake Barrett, U.S. Department of Energy
Charles Batten, National Transportation Safety Board
Lawrence W. Bierlein, Lawrence W. Bierlein, P.C.
Frank Black, Air Transport Association
Guy Boruff, State of Indiana
Nancy J. Brown, Kansas House of Representatives
Steve Brown, California Highway Patrol
Phil Bryant, Shell Oil Co.
Thomas S. Carter, Jr., The Kansas City Southern Railroad
Sherwood Chu, U.S. Department of Transportation
James M. Davis, Jr., Carolina Power & Light Co.
Richard M. Doyle, Chemical Manufacturers Association
Elaine Economies, U.S. Department of Transportation

Participants in Sister Agency Workshop on Transportation of Hazardous Materials:
Technology Issues, October 10, 1984

James Blume
Issue Area Planning Director for Transportation
U.S. General Accounting Office

Daniel Carroll
Assistant Analyst
Natural Resources and Commerce Division
U.S. Congressional Budget Office

Edward Morahan
Evaluator
U.S. General Accounting Office

Vincent Price
Evaluator
U.S. General Accounting Office

Paul Rothberg
Specialist in Science and Technology
Science Policy Research Division
Congressional Research Service

Kenneth Rubin
Principal Analyst
National Resources and Commerce Division
U.S. Congressional Budget Office

Janie Wishart
Principal Analyst
Natural Resources and Commerce Division
U.S. Congressional Budget Office

Participants in Containers Workshop, January 24, 1985

Timothy Burbrink
Manager
Hazardous Materials Activity
Consolidated Freightways

Robert D. Ervin
Assistant Head Engineer
Research Division
Highway Safety Research Institute
The University of Michigan

Max Fessler
Vice President for Sales
LPS Industries, Inc.

Lawrence W. Bierlein, Panel Chairman
Lawrence W. Bierlein, P.C.

Robert M. McClanahan
Assistant Chief
Fairfax County Fire and Rescue Division
Fairfax, VA

Lawrence Gibson
Cargo and Hazards Branch
Office of Merchant Marine Safety
U.S. Coast Guard Headquarters

Thomas A. McKenna
Senior Supervisor
Materials and Logistics Department
E.I. DuPont de Nemours and Co.

Donald Monroe
Principal Surveyor
American Bureau of Shipping

James O’Steen
Chief, Engineering Branch
Office of Hazardous Materials Transportation
Research and Special Programs Administration
U.S. Department of Transportation

Earl A. Phillips
Vice President for Engineering Development
Union Tank Car Co.

Richard E. Phillips
Engineer for Transportation Equipment
Ethyl Corp.

Harlan Pierson
Supervisor, Size and Weight Unit
Maine State Police

Edward W. Pritchard
Engineer, Maintenance Programs Division
Federal Railroad Administration
U.S. Department of Transportation

Paul Seay
Consultant
Patrick J. Student
Manager
Hazardous Materials and Environmental Control
Union Pacific Railroad Co.

Robert L. Temper
Manager
Hazardous Materials Packaging
Mallinckrodt, Inc.
Participants in Nuclear Materials Packaging Workshop, February 8, 1985

Roger Kasperson, Panel Chairman
Center for Technology, Environment and Development
Clark University

George C. Allen, Jr.
Supervisor
Transportation Systems Development and Testing Division
Transportation Technical Center
Sandia National Laboratories

Robert Anderson
Manager of Cask and Transportation Systems Engineering
Chem-Nuclear Systems, Inc.

Lindsay Audin
Mechanical Engineer
Goldman, Sokolov, Copeland, P.C.

Philip E. Eggers
Nuclear Consultant
Eggers, Ridihalgh Partners

Kurt Goldman
Chief Engineer
Transnuclear, Inc.

Robert J. Hughes, Jr.
Vice President
James Hughes, Inc.

Dale Klein
Director of Nuclear Engineering
Teaching Laboratory
University of Texas, Austin

Charles E. MacDonald
Chief
Transportation Certification Branch
Office of Nuclear Material Safety and Safeguards
Nuclear Regulatory Commission

Heinz Mueller
Assistant Director
Hazardous Materials Section
Illinois State Police

Reuben W. Peterson
Chief Transportation Engineer
Battelle Columbus Laboratories

Richard R. Rawl
Development Staff
Oak Ridge National Laboratories

Paul Rhine
Manager
Train Energy Conservation
Energy and Environmental Programs
Union Pacific Railroad

Joseph Strohl
Member
Wisconsin State Legislature

John Van Hoomissen
Manager of High Level Radioactive Waste Services
General Electric Co.

Thomas White
Member of the City Council
Greenbelt, MD

Edwin Wilmot
Transportation Specialist
Office of Civilian Radioactive Waste Management
U.S. Department of Energy

Participants in State and Local Workshop, May 30, 1985

Robert Robison, Panel Chairman
Radioactive Materials Emergency Coordinator
State of Oregon

John C. Allen
Principal Laboratory Scientist
Battelle Columbus Laboratories

Peter E. Baker
Hazardous Materials Transportation Unit
New Jersey State Police

Stanley Brand*
Manager of Hazardous Materials and Operator for Emergency Response
Monsanto Co.

Juanita Crabb
Mayor
Binghamton, NY

L. Joe Deal
Acting Director
Radiological Assistance Controls Division
Office of Nuclear Safety
U.S. Department of Energy

Warren E. Isman
Chief
Fairfax County Fire and Rescue Department
Fairfax, VA

William Keffler
Chief
Emergency Planning and Response Branch
Region VII
U.S. Environmental Protection Agency

George Kramer
Hazardous Materials Instructor
Tennessee Emergency Management Agency

Richard P. Landis
Associate Administrator for Motor Carriers
Federal Highway Administration
U.S. Department of Transportation

Donald Lewis
Rail and Motor Carrier Training Officer
Washington Utilities and Transportation Commission
State of Washington

Paul Melander, Jr.
Manager of Transportation Investigation
Tennessee Public Service Commission

Fred Millar
Director of Hazardous Transportation Environmental Policy Institute
William H. Nalley
Chief
State Programs Division
Bureau of Motor Carrier Safety, U.S. Department of Transportation

Richard O'Boyle
Safety Director
Quality Carriers, Inc.

Susan Peres
Emergency Management Specialist
Technological Hazards Division
Federal Emergency Management Administration

Robert Philpot
Transportation Program Branch Chief
U.S. Department of Energy

*Retired April 1986.
