INTERNATIONAL DIRECTORY OF BIOETHICS ORGANIZATIONS

Compiled by
Robert C. Iosco

This directory is supported by funds provided under Grant No. LM04492 from The National Library of Medicine, National Institutes of Health

Bioethics consists of the application of ethical reasoning to dilemmas in the biomedical or life sciences. This directory lists organizations that have a professed interest in the study of bioethics and serves as a resource for those who wish to pursue bioethical issues in more detail. The organizations listed represent a variety of types of programs.

The following list, which is current as of June 1987, is continually updated by the staff at the National Reference Center for Bioethics Literature:
