

Index

1. The first part of the index lists the names of the authors and the titles of their works. This section is organized alphabetically by the author's last name. Each entry includes the author's name, the title of the work, and the page number where the work can be found.

2. The second part of the index lists the names of the authors and the titles of their works. This section is organized alphabetically by the author's last name. Each entry includes the author's name, the title of the work, and the page number where the work can be found.

- "AAtrex" (Ciba-Geigy), 129
 Administrative Procedure Act, 49
 Advanced Genetic Sciences, Inc. (AGS), ice-minus bacteria research by, 40, 49-51, 125
 Agracetus Corp. (Middleton, Wisconsin), plant disease resistance research by, 5, 53, 129
 Agricultural Genetics Co. (UK), 130
 Agriculture
 applications of genetically engineered organisms to, 5, 6, 7-8, 16-19, 20, 21-22, 33, 35, 49-57, 60, 86-88, 89-92, 94-95, 96, 125-130
 BT use in, 5, 7-8, 18-19, 39, 54, 74, 75, 90, 125, 130
***Agrobacterium rhizogenes*, 128**
 Alfalfa mosaic virus, "vaccination" of plants against, 5, 36, 54, 96
 Algae
 genetic engineering of marine, for mining or mineral recovery, **38, 97, 126, 130**
 impacts of planned introductions on local communities of, **97**
 Animal and Plant Health Inspection Service (APHIS). See Department of Agriculture, U.S. (USDA)
 Animals
 applications of engineered organisms involving, 6-7, 38, 59, 131
 engineered vaccines for, 128
 gene transfer's likelihood among, 11, 12, 71, 112
 see **also** Fish; Livestock; Poultry
 Antibiotics, bacterial resistance to, 13, 14, 77
 Applications, anticipated near-term, of genetically engineered organisms, 3, 5-8, 36-40, 86-87, 91, 93, 94-95, 96, 97, 125-32
 Aquatic life, See Algae; Fish
 Argentina, biotechnology-related field testing in, 59, 128

- Toa Gosei Chemical (Japan), 12.5
- Tobacco mosaic virus (TMV), "vaccinating" plants against, 5, 129
- Tobacco plants, biotechnical herbicide and disease resistance research using, 5, 18-19, 36, 53-54, 89, 90, 129

- Tokyo, University of, 127
- Tomato plants, biotechnological herbicide and disease protection for, 5, 18-19, 89, 130
- Tottori University (Japan), 127
- Toxic Substances Control Act (TSCA), 9, 54, 61, 62, 63, 64, 65
- Toxic wastes, microbial degradation of, 22, 33, 35, 39-40, 97, 98, 101, 126, 130
- Tracking. See Monitoring; Screening
- Training, interdisciplinary scientific personnel, 29
- Tulelake, California, "ice-minus" field test in, 51-52, 125
- Ultraviolet (UV) light, degradation of BT toxin by, 90
- Unilever, 131
- United Kingdom (UK)
- biotechnology regulation in, 66
 - planned release in, 60, 92, 127, 129-130
 - virus resistance research in, 129-130
- Vaccine
- FDA approval of genetically engineered, 127
 - inadvertent release of genetically engineered, 128
 - recombinant DNA developed multivalent, 8, 39, 128
 - viruses used as, 5, 8, 18-19, 36, 39, 59, 127-128
- Vectors, importance of understanding, 13, 15, 75
- Viruses
- vaccination of plants against, 5, 18-19, 36
 - as pesticides, 8, 19, 39, 60, 92, 127
 - as vaccines, 5, 8, 18-19, 36, 39, 59, 127-128
- Walter Reed Army Institute of Research, 128
- Washington (State), genetic research on fish in, 38
- Washington, University of, 131
- Washington University (St. Louis, Missouri), plant disease resistance research by, 5, 36, 129
- Waterville Township, Wisconsin, planned introduction near, 54-55
- Webster, Arthur, 128
- Westfarmers Algal Biotechnology Pty. Ltd. (Australia), 130
- West Germany, biotechnology regulation in, 66
- White House Office of Science and Technology Policy (OSTP), Coordinated Framework by, 9, 60-61
- Wisconsin
- planned introduction in, 53, 54-55, 63
 - State biotechnology-related legislative activity in, 50
- Wisconsin State Journal**, 53
- Wistar Institute (Philadelphia, Pennsylvania), biotechnical research by, 59, 128
- World Health Organization (WHO), "cascade effect" triggered from spraying program by, 92-93
- Yeast
- engineered for ethanol production enhancement, 127
 - molecular genetic research using, 7
- Yersinia**, gene expression of, 74

"Frankly, I think we'll regret introducing these organisms into the environment."³⁾
