

CONTENTS

<i>Chapter</i>	<i>Page</i>
1. Introduction and Summary.....*	1
Introduction.....*	1
Summary of the Findings.....*	2
Magnitude of the Problem.....*	2
Assessing the Effectiveness of Drug Abuse Treatment.....*	2
Implications of the Findings.....**	8
Reaching People Not in Treatment.....*	8
Improvement in Quality.....*	9
Future Research.....*	10
Conclusions.....*	10
2. Drug Use and HIV Infection: The Current Situation.....*	13
Introduction.....*	13
Use of Illegal Drugs in the United States.....*	13
Substance Dependence, Substance Abuse, and Casual Use.....*	13
Drugs of Abuse.....*	13
Magnitude of the Drug Abuse Problem.....*	18
Drug Use and HIV Infection.....*	29
Routes of Transmission That Link Drug Use to AIDS.....*	29
Estimates of IV Drug Use.....*	31
Estimates of Risk Behaviors Among Drug Abusers.....*	31
HIV Seroprevalence Among Drug Users.....*	33
AIDS Cases Reported to the Centers for Disease Control.....*	34
Cost Estimates of Drug Abuse.....*	38
Summary.....*	39
3. Treatment for Drug Abuse in the United States.....*	41
Introduction.....*	41
Treatment Modalities.....*	41
Introduction.....*	41
Role of Detoxification.....*	42
Pharmacotherapy Treatment Approaches.....*	43
Drug-Free Treatment Approaches.....*	47
The Role of Multimodality Treatment.....*	49
Treatment Programs in the United States.....*	49
Introduction.....*	49
NDATUS: Description and Results.....*	50
SADAP: Description and Results.....*	52
The Extent of HIV Testing and Counseling.....*	55
Shortages of Treatment Slots.....*	56
Information on the Cost of Treatment.....*	57
Summary of the Findings.....*	58

CONTENTS-Continued

4. The Effectiveness of Treatment for Drug Abuse.....	59
Introduction.....	59
Natural History of Drug Abuse.....	59
Overview of Drug Abuse Careers.....	59
Heroin Abuse.....	60
Cocaine Abuse.....	61
Methodologies.1 Problems in the Evaluation of Treatment Effectiveness.....	61
Study Design.....	62
Definition of Treatment and Outcome.....	63
Summary.....	64
DARP and TOPS: A Description of the Two National Multimodality Studies.....	65
Drug Abuse Reporting Program (DARP).....	65
Treatment Outcome Prospective Study (TOPS).....	65
Treatment Effectiveness.....	66
Methadone Maintenance.....	67
Other Pharmacological Agents.....	77
Therapeutic Communities (TCs).....	79
Outpatient Drug Free (ODF) Programs.....	84
Results Combining Treatment Modalities.....	87
Acupuncture.....	88
Parameters Related to Treatment Outcome.....	88
Matching.....	89
Other Contemporary Issues Related to Treatment.....	90
Future Research.....	96
Summary and Policy Implications.....	97
5. Treatment for Drug Abuse as a Strategy to Prevent HIV Infection.....	101
Introduction.....	101
Methodological Problems.....	102
Study Design Issues.....	102
Study Outcome Issues.....	102
Measurement Issues.....	103
Validity of the Results.....	103
Effectiveness of Drug Abuse Treatment to Prevent HIV Infection.....	104
Reduction in Drug Use and Risk Behaviors.....	104
HIV Infection and Entry Into Treatment.....	105
Medical Maintenance.....	106
Interim Methadone Maintenance Program.....	106
Additional Approaches to Prevent HIV Infection.....	109
The Importance of Preventing IV Initiation.....	109
Risk Reduction Through Needle-Exchange Programs.....	110
Sale and Possession of Injection Equipment.....	111
The Role of Outreach Programs.....	112
Summary.....	113

CONTENTS--Continued

Appendix

A. Method of the Study.....	115
B. Workshop Participants..... * * *	116
C. Acknowledgements....**	117
D. Glossary of Abbreviations and Terms	118
E. Psychoactive Drugs Other Than Narcotics and Stimulants	122
F. Cost Benefit Analysis of Drug Abuse Treatment: Declines in Criminal Activity.....	125
G. Highlights From the 1989 National Drug and Alcoholism Treatment Unit Survey (NDATUS)	127

References	**128

Tables

<i>Table</i>	<i>Page</i>
1-1. Percent of Self-Reported Outcomes by Clients in Methadone Maintenance Treatment, Selected Studies.....	4
1-2. Percent Self-Reported Outcomes by Clients in Therapeutic Communities, Selected Studies	6
1-3. Percent Self-Reported Outcomes by Clients in Outpatient Drug-Free Programs, Selected Studies	7
2-1. Trends in Hospital Emergency Room (ER) Mentions of Cocaine Reported to the Drug Abuse Warning Network (DAWN), by Metropolitan Area, 1984 to 1988.....	29
2-2. Percent Self-Reported Drug Injection and Needle-Sharing in Male Arrestees, Selected U.S. Cities, January to March 1989	33
2-3. Number and Rate Per 100,000 Population of AIDS Cases Associated With IV-Drug Use, by Census Region and Race/Ethnicity, 1988	35
2-4. Projected Number of AIDS Cases, Persons Living With AIDS, and Deaths Attributable to AIDS After Adjustment for Underreporting, 1989 to 1993	37
2-5. Projected Number of AIDS Cases by Risk Group, 1989 to 1993	38
3-1. Drug Development Program of the National Institute on Drug Abuse (NIDA), 1988	44
3-2. Information on Drug Abuse Treatment Units, from the National Drug and Alcoholism Treatment Unit Survey (NDATUS), Oct. 30, 1987.....	51
3-3. Number of Alcohol or Drug Treatment Units by State Alcohol or Drug Agencies According to the State Alcohol and Drug Abuse Profile Data (SADAP), Fiscal Year 1988	53
3-4. Estimated Admissions of IV Drug Abusers and Total IV Drug Abusers, by State, Fiscal Year 1988.....	54
3-5. Drug Treatment Centers Providing Human Immunodeficiency Virus (HIV) Counseling, Testing, and Partner Notification in Selected State and New York City, 1990	56
3-6. Estimates of Waiting Lists for Alcohol and Other Drug Abuse Treatment, Sept. 29, 1989	57
4-1. Percent Self-Reported Heroin Use and Crime by Males by Time in Methadone Maintenance Treatment, 1985	68
4-2. Percent Self-Reported Opiate Use, Criminal Activity, and Employment by Males in a Methadone Maintenance Treatment, DARP	69
4-3. Percent Self-Reported Drug Use, Criminal Activity, and Employment by Methadone Maintenance Clients Treated at Least 3 Months, TOPS	70
4-4. Odds Ratio for Post-Treatment Outcomes in the First Year after Methadone Maintenance Treatment, by Treatment Duration, TOPS	73
4-5. Percent Success Among Program Graduates, Phoenix House	79
4-6. Percent Success Among Program Dropouts, Phoenix House	80
4-7. Percent Self-Reported Opiate Use, Criminal Activity, and Employment by Males in Therapeutic Communities, DARP	80
4-8. Percent Self-Reported Drug Use, Criminal Activity, and Employment by Therapeutic Community Clients Treated at Least 3 Months, TOPS	81
4-9. Odds Ratio for Post-Treatment Outcomes in the First Year After Residential Treatment, by Treatment Duration, TOPS	82
4-10. Percent Self-Reported Opiate Use, Criminal Activity, and Employment by Males in Outpatient Drug-Free Treatment, DARP	84
4-11. Percent Self-Reported Drug Use, Criminal Activity, and Employment by Outpatient Drug-Free Clients Treated at Least 3 Months, TOPS	85
4-12. Odds Ratios for Post-Treatment Outcomes in the First Year After Outpatient Drug-Free Treatment, by Treatment Duration, TOPS	86
