

# CONTENTS

## Chapter 1

INTRODUCTION . . . . .	3
Purpose . . . . .	3
Scope of the Study . . . . .	3
Organization of This Report. . . . .	5

## Chapter II

WHAT IS MEDICAL TECHNOLOGY AND WHY SHOULD IT BE ASSESSED? . . .	9
Nine Medical Technologies:	
1. The continuous flow-blood analyzer . . . . .	10
2. The computerized axial tomography (CAT) scanner . . . . .	11
3. Polio and rubella vaccines . . . . .	13
4. Radical mastectomy for breast cancer . . . . .	15
5. Anticoagulants for acute myocardial infarction . . . . .	16
6. Renal dialysis . . . . .	17
7. The cardiac pacemaker. . . . .	19
8. Cortical implants to provide "vision" . . . . .	22
9. Teetotally implantable artificial heart . . . . .	23
An Overview: The Complexity of Medical Technology. . . . .	24
Medical technologies are diverse in nature and purpose . . . . .	24
Medical technologies are developed in a variety of ways and places. . . . .	25
Medical technologies pose a variety of technical and social problems. . . . .	26
Technical and social issues are interrelated . . . . .	28

## Chapter III

WHAT ARE THE IMPACTS OF MEDICAL TECHNOLOGIES? . . . . .	31
Preliminary Considerations: What Are the Medical Aims, Technical Charac-	
teristics, and Developmental State of the Technology in Question? . . . . .	32
What Are the Implications of the Technology for the Patient? . . . . .	33
What Are the Implications for the Patient's Family? . . . . .	34
What Are the Implications for Society? . . . . .	34
What Are the Implications for the Medical-Care System? . . . . .	36
What Are the Implications for the Legal and Political Systems? . . . . .	38
What Are the Implications for the Economic System? . . . . .	39

## Chapter IV

HOW CAN THE IMPACTS OF NEW MEDICAL TECHNOLOGIES BE ASSESSED? . . . . .	45
Technology Assessment . . . . .	45
The Limitations of Technology Assessment . . . . .	47
Alternatives to Comprehensive Technology Assessment . . . . .	48
Assessing Medical Technologies . . . . .	49
Selecting technologies for assessment . . . . .	49
Conducting technology assessment. . . . .	51
Using the results of a technology assessment . . . . .	52

**Chapter V**

**WHAT ARE SOME OPPORTUNITIES FOR ASSESSING THE IMPACTS OF NEW MEDICAL TECHNOLOGIES? . . . . . 57**

- Technology Assessment at the National Institutes of Health . . . . . 58
- Technology Assessment at Other Federal Agencies That Sponsor Biomedical Research and Medical Technology Development . . . . . 61
- Technology Assessment in the White House Office of Science and Technology Policy. . . . . 61
- Technology Assessment in the Department of Health, Education, and Welfare 62
- Technology Assessment and the Food and Drug Administration . . . . . 62

**Appendix A:**

**DEVELOPMENT AND DIFFUSION OF MEDICAL TECHNOLOGY. . . . . 67**

- The Process of Technology Development . . . . . 67
  - Basic research . . . . . 68
  - Applied research and development . . . . . 71
  - Clinical testing . . . . . 72
  - Diffusion and adoption . . . . . 73
- Complexities in the Processor Technology Development . . . . . 77
  - Basic versus applied research . . . . . 77
  - Applied research versus clinical testing . . . . . 79
  - Clinical testing versus clinical use . . . . . 79
- Development of Different Types of Medical Technology. . . . . 80
  - Drugs . . . . . 80
  - Equipment . . . . . 81
  - Technique. . . . . 82
  - Procedure . . . . . 82
- Funding and Priority Setting for Research and Development . . . . . 83
- Length of Time for the Development and Diffusion Process . . . . . 88

**Appendix B:**

**METHOD OF THE STUDY . . . . .91**

**Bibliography. . . . .95**
