

Contents

Chapter	Page
Executive Summary	3
A. Introduction.,	3
B. The Importance of the Mineral and Nonmineral Resources on Federal Onshore Land	4
C. Mineral Exploration, Development, and Production: Stages and participants	6
D. History and Main Elements of the Existing Federal Onshore Mineral Laws	7
E. Issues and Options.	9
F. Issues and Options Related to Coordination of Mineral Activities Undertaken by Different Individuals and Firms	10
G. Issues and Options Related to Coordination of Mineral Activities With Nonmineral Activities	15
H. Issues and Options Related to Coordination of Federal, State, and Local Controls and Payment Requirements	22
1. Introduction	31
A. Background	31
B. Objectives	32
C. Structure and Contents	34
2. Mineral Exploration, Development, and Production: Technology, Participants, and the Role of Federal Onshore Land.	39
A. Minerals in the Economy	39
B. The Role of Federal Onshore Land.	41
C. Mineral Exploration, Development, and Production: Stages and Technology.	46
D. Mineral Exploration, Development, and Production: Cost, Acreage, and Time Requirements	52
E. Mineral Exploration, Development, and Production: Chances of Success	61
F. Mineral Exploration, Development, and Production: Participants	67
3. History and Main Elements of the Federal Onshore Mineral Land Management Systems.	79
A. Initial Policy: Revenue Generation	79
B. Mid- to Late-19th Century: Rapid Development and Disposal	80
C. Early 20th Century: Resource Conservation	84
D. Middle Third of the 20th Century: Retention of Land Under Single-Purpose, Commercially Oriented, Ad Hoc Management	89
E. Present Trends: Protection, Preservation, and Coordinated Management of Nonmineral Resources; Uncertain Policy for Mineral Resources.	94
F. Conclusion	98

CONTENTS—continued

Chapter	Page
4. Coordinating Mineral Activities.	103
A. Existing Laws for Different Areas and Minerals	103
B. Obtaining Access to Federal Onshore Mineral Land	107
C. Acquiring and Maintaining Tenure for Exploration	115
D. Acquiring and Maintaining Tenure for Development and Production.	124
E. Payments for Mineral Value	147
F. Maximum Mineral Recovery and Resource Conservation	156
G. Summary and Options	167
5. Coordinating Mineral and Nonmineral Activities	175
A. Mineral and Nonmineral Resources on Federal Land	175
B. The Impacts of Mineral Activities on Nonmineral Resources and Their Management	178
C. Mineral Resources and Federal Land Management	181
D. Coordination of Mineral and Nonmineral Activities Under the Mining Law, ,,, ..,	190
E. Coordination of Mineral and Nonmineral Activities Under the Mineral Leasing Laws	206
F. The Role of National and State Environmental Laws	214
G. The Response to Inadequate Procedures for Coordination of Mineral and Nonmineral Activities Under the Federal Mining and Mineral Leasing Laws: Withdrawals and Similar Restrictions .,	215
H. Summary and Options	220
6. Coordinating Federal State, and Local Controls and Payment Requirements 231	
A. Federal Interagency Coordination.	231
B. State and Local Concerns Regarding Mineral Activities on Federal Land	244
C. State and Local Authority to Regulate or Tax Mineral Activities on Federal Land.....	250
D. State and Local Regulatory Controls: Coordination With Federal Requirements	254
E. State and Local Mineral Taxation and Revenue Distribution: Coordination With Federal Payment Requirements and Revenue Distribution, ,,,	260
F. Summary and Options	282
Appendix A—The Role of Onshore Federal Land With Respect to Production of Essential Mineral Commodities	289
Appendix B—Statistical Data on the Availability of Federal Onshore Land for Mineral Activity in 1975.	334
Appendix C—Survey of Mineral Industry on Techniques, Parties, Costs, Acreages, and Times for Exploration, Development, and Production of Various Mineral Occurrence Types in the Onshore United States	370

LIST OF TABLES

Table		Page
1.	Options for Improving Coordination.	27
2.1.	Typical Techniques for the Six Stages of Mineral Activity	47
2.2.	Discoveries of U.S. Metal Mines, 1941 -70.....	50
2.3.	Discoveries of U.S. Metal Mines, 1951 -70.....	50
2.4.	Discoveries of Canadian Metal Mines Through 1975	51
2.5.	Illustrative Mineral Occurrence Types	53
2.6.	Estimated Cost, Acreage, and Time Ranges for the Exploration and Development Stages of Typical Mineral Exploitation Projects in 1977	56
2.7.	Success Data for Selected Nonfuel Mineral Exploration Programs	63
2.8.	Selected Individual Firm Exploration Statistics (Ranges) for Onshore United States	66
2.9.	AMC Survey of Small Miner Property Submittals	69
2.10.	Commercial Metallic Mineral Discoveries in Canada According to Canadian Exploration Budget of Discoverer During Discovery Year	71
2.11.	Estimated Percentage of Total Domestic Onshore Activity Undertaken by Various Sized Groups in Each of the Six Stages of Mineral Activity	72
4.1.	Principal Laws Governing Disposal of Minerals on Different Areas of Federal Onshore Land.	104
4.2.	Lease Tenure: Lease Period and Adjustability of Lease Provisions	135
5.1.	Availability of Federal Onshore Land for Development of Fossil Fuel and Fertilizer Minerals.	216
5.2.	Availability of Federal Onshore Land for Development of Hardrock Minerals	217
6.1.	Federal Land and Mineral Ownership in the Western States,	245
6.2.	Allocation of Colorado Mineral Severance Tax Revenues	270
6.3.	Allocation of Montana Coal Severance Tax Revenue.	272

LIST OF FIGURES

Figure		Page
2.1.	Principal Federal Landholdings in 1976	42
2.2.	Base and Precious Metal Mining Districts in Relation to Federal Landholdings in 1976 , ,	44
2.3.	Coalfields of the Conterminous United States	45
2.4.	Mineral Occurrence Configurations, , , , , ,	55
5.1.	Base and Precious Metal Mining Districts in Relation to Federal Natural, Scenic, and Recreational Areas in 1976	177
